## Shark NV151

# Shark NV151 Navigator Swivel Pro Complete Upright Vacuum User Manual

Model: NV151 | Brand: Shark

This manual provides instructions for the safe and efficient operation and maintenance of your Shark Navigator Swivel Pro Complete Upright Vacuum.

## PRODUCT OVERVIEW

The Shark Navigator Swivel Pro Complete Upright Vacuum is engineered for comprehensive home cleaning, particularly effective in households with pets. It combines powerful Shark suction with versatile tools to efficiently manage stubborn pet hair and debris across various surfaces. Key features include an extendable hose offering up to 11 feet of reach for high-access cleaning, and Anti-Allergen Complete Seal Technology paired with a HEPA filter to capture and trap 99.9% of dust and allergens within the vacuum, promoting cleaner air.

## WHAT'S INCLUDED

---

Your Shark Navigator Swivel Pro Complete Upright Vacuum package includes the following components:

- Shark Navigator Upright Vacuum (Main Unit)
- Crevice Tool
- Pet Power Brush

- Upholstery Tool

# What's in the box

## SETUP AND ASSEMBLY

The Shark NV151 Navigator Swivel Pro Complete Upright Vacuum is designed for quick and easy assembly. No complex tools are required.

1. Carefully remove all components from the packaging.
2. Insert the wand into the main vacuum body until it clicks securely into place.
3. Attach the hose to the designated port on the vacuum.
4. Store the included accessories (Crevice Tool, Pet Power Brush, Upholstery Tool) on the onboard storage posts for easy access.
5. Ensure the power cord is untangled before plugging into an electrical outlet.

## OPERATING INSTRUCTIONS

### General Operation

- **Power On/Off:** Plug the vacuum into a standard electrical outlet. Press the power button located on the main unit to turn the vacuum on or off.
- **Surface Selection:** The vacuum is designed for deep-cleaning carpets and effective cleaning on bare floors. Adjust the brushroll setting as needed for optimal performance on different surfaces.
- **Swivel Steering:** Utilize the swivel steering feature to easily maneuver the vacuum around furniture, in corners, and in tight spaces.

### **Swivel Steering**

Easily maneuver your upright vacuum in and out of tight spaces, in corners, around furniture, and more.

Image: A close-up view of the Shark Navigator vacuum's base demonstrating its swivel steering capability on a carpeted floor, allowing for easy maneuverability.

### **Using Attachments and Extended Reach**

- **Extendable Hose:** For cleaning above-floor areas, stairs, or hard-to-reach spots, detach the hose from the main unit. The hose provides up to 11 feet of total reach.

## Up to 11 feet of total reach

The hose extends so you can clean stairs or reach anywhere above the floor.

Image: A woman extending the vacuum hose to clean a high wall, demonstrating the 11-foot total reach capability of the Shark Navigator vacuum.

- **Pet Power Brush:** Attach the Pet Power Brush to the end of the hose or wand. This tool is specifically designed to effectively remove pet hair from upholstery, carpets, and other surfaces.

## Pet Multi-Tool

Tackles stubborn pet hair on furniture and more.

Image: A person using the Pet Multi-Tool attachment on carpeted stairs, illustrating its effectiveness in tackling stubborn pet hair on furniture and other surfaces.

- **Crevice Tool:** Use the Crevice Tool for cleaning tight spaces, corners, baseboards, and between couch cushions. Its narrow design allows for precise cleaning.

## Crevice tool

Clean hard-to-reach spaces with ease.

Image: A person using the crevice tool attachment to clean a high corner where the wall meets the ceiling, demonstrating its ability to reach hard-to-access areas.

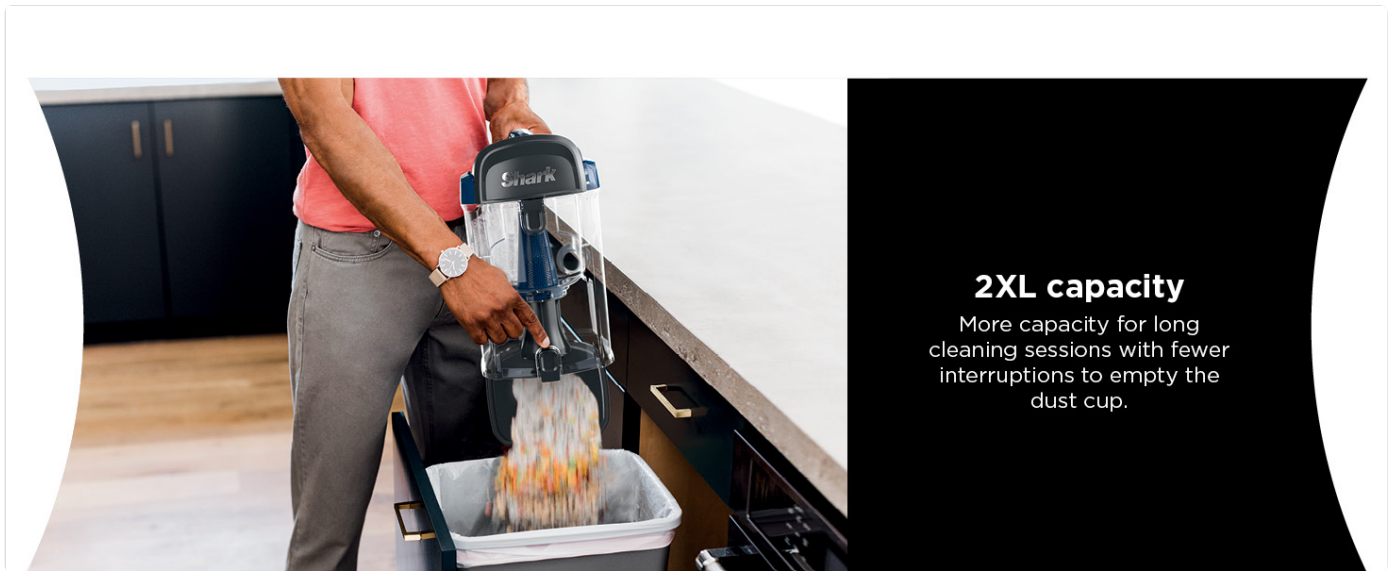

- **Upholstery Tool:** The Upholstery Tool is ideal for picking up pet hair and larger debris from delicate fabrics such as mattresses, couches, and curtains.

## MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your Shark Navigator vacuum.

### Emptying the Dust Cup

- The vacuum features a 0.87-quart capacity dust cup. Empty the dust cup regularly, ideally after each use or when debris reaches the MAX fill line, to maintain strong suction.
- To empty, press the dust cup release button and lift the dust cup away from the vacuum body.
- Hold the dust cup over a trash bin and press the bottom release latch to open the bottom of the dust cup, allowing debris to fall out.
- Close the dust cup bottom securely before reattaching it to the vacuum.

## 2XL capacity

More capacity for long cleaning sessions with fewer interruptions to empty the dust cup.

Image: A person emptying the dust cup of the Shark Navigator vacuum into a trash can, highlighting the 2XL capacity for longer cleaning sessions.

## Cleaning Filters

The Shark NV151 uses washable HEPA and foam filters. Regular cleaning is essential for maintaining the Anti-Allergen Complete Seal Technology.

- **Pre-Motor Filters (Foam & Felt):** Locate these filters beneath the dust cup. Rinse them with water every 3 months, or as needed. Allow them to air dry completely for at least 24 hours before reinstalling. Do not use a washing machine or dryer.
- **Post-Motor HEPA Filter:** This filter is typically located at the bottom of the vacuum. Rinse with water once a year, or as needed. Allow it to air dry completely for at least 24 hours before reinstalling. Do not use a washing machine or dryer.
- Ensure all filters are completely dry before placing them back into the vacuum to prevent damage and maintain suction power.

**Captures and traps  
over 99.9%\* of dust  
and allergens.**

\*Based on ASTM F1977  
down to .3 microns.

Image: A visual representation of the Anti-Allergen Complete Seal feature, indicating that the vacuum captures and traps over 99.9% of dust and allergens.

## TROUBLESHOOTING

If you encounter issues with your Shark Navigator vacuum, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Vacuum not turning on	Not plugged in; circuit breaker tripped; power button not pressed.	Ensure power cord is securely plugged into a working outlet. Check household circuit breaker. Press the power button firmly.
Loss of suction	Full dust cup; clogged hose/filters; blockages in brushroll.	Empty dust cup. Check and clean all filters. Inspect hose, wand, and brushroll for blockages and remove any debris.

Problem	Possible Cause	Solution
Brushroll not spinning	Brushroll shutoff switch engaged; blockage in brushroll; belt issue.	Ensure brushroll is engaged for carpet cleaning. Clear any hair or debris wrapped around the brushroll. If problem persists, contact customer support.
Unusual noise	Blockage in hose/attachments; foreign object in brushroll; motor issue.	Check for and remove any blockages. Turn off and unplug the vacuum before inspecting. If noise continues, discontinue use and contact support.

## SPECIFICATIONS

Detailed technical specifications for the Shark NV151 Navigator Swivel Pro Complete Upright Vacuum:

**Model Name:** Shark NV151

**Style:** Navigator Swivel

**Brand:** Shark

**Color:** Navy

**Form Factor:** Upright

**Product Dimensions:** 12"L x 9.06"W x 45.47"H
