

VIGO VG08013MB

VIGO Ellington VG08013MB Shower Panel System User Manual

Model: VG08013MB

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your VIGO Ellington VG08013MB Shower Panel System. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your product.

Figure 1: VIGO Ellington VG08013MB Shower Panel System, Matte Black finish.

2. SAFETY INFORMATION

Observe the following safety precautions to prevent injury or damage to the product:

- Installation should be performed by a qualified professional plumber.
- Ensure all water supply lines are turned off before beginning installation.
- Verify that all connections are secure and leak-free after installation.
- Do not use abrasive cleaners or harsh chemicals on the product finish.
- Maintain proper water pressure as specified for optimal performance.

3. PACKAGE CONTENTS

Carefully unpack the box and ensure all components are present:

- Shower Panel System
- Hand Shower
- All Mounting Hardware
- Bracket
- Handles (3)
- Pressure Balance/Scald Guard
- Supply Lines
- Thermostatic Valve
- Vacuum Breaker

4. SETUP AND INSTALLATION

Professional installation is recommended for this shower panel system. Ensure your shower area is prepared according to local plumbing codes and the product dimensions.

4.1 Pre-Installation Checks

- Confirm water supply lines are accessible and correctly positioned for a wall-mount installation.
- Verify wall structure can support the weight of the shower panel (approximately 21.6 lbs).
- Review the product dimensions to ensure proper fit within your shower space.

Figure 2: Product dimensions: 59 inches (H) x 6 inches (W).

4.2 Installation Steps (Summary)

1. Turn off the main water supply.
2. Mount the bracket securely to the wall at the desired height.
3. Connect the hot and cold supply lines to the shower panel's thermostatic valve.
4. Attach the shower panel to the wall bracket.
5. Connect the hand shower hose to the designated outlet on the panel.
6. Turn on the main water supply and check for leaks.
7. Test all functions of the shower panel.

For detailed step-by-step instructions, refer to the separate installation guide provided with your product packaging.

5. OPERATING INSTRUCTIONS

The VIGO Ellington Shower Panel System offers multiple functions for a customized showering experience.

5.1 Water Flow and Temperature Control

- Use the lower handle to control water temperature.
- Use the middle handle to control water flow (on/off).

5.2 Function Selection (EZDiverter Knob)

The top EZDiverter knob allows you to switch between the following shower functions:

- **Rainfall Shower Head:** Provides a wide, gentle rain-like spray from above.

Figure 3: Rainfall shower head delivering a gentle, wide spray.

- **Body Massage Jets:** Four high-pressure jets deliver a targeted stream for therapeutic massage.

Figure 4: Four body massage jets providing targeted water streams.

- **Hand Shower Wand:** A flexible handheld shower with a 58-inch hose for focused rinsing.

Figure 5: Handheld shower wand providing a focused spray.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your shower panel system.

6.1 Cleaning the Finish

- Clean the matte black finish with a soft cloth and mild soap and water.
- Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the finish.
- Rinse thoroughly and dry with a soft cloth to prevent water spots.

6.2 Self-Cleaning Nozzles

The rainfall shower head and body jets feature soft silicone nozzles designed to prevent mineral deposits. To clean, gently rub the nozzles with your finger or a soft brush to dislodge any buildup.

7. TROUBLESHOOTING

If you encounter issues with your shower panel, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Low Water Pressure	Low household water pressure. Clogged nozzles or filters. Flow restrictor in place.	Consult a plumber to assess household water pressure. Clean self-cleaning nozzles (refer to Section 6.2). Check for and potentially remove flow restrictors (consult a professional).
Water Leaks	Loose connections. Damaged seals or O-rings.	Ensure all connections are tightened properly. Inspect seals and O-rings; replace if damaged. Professional assistance may be required.
Finish Peeling/Discoloration	Use of harsh cleaning agents. Exposure to corrosive substances.	Refer to Section 6.1 for proper cleaning instructions. Contact customer support if the issue persists despite proper care.

If the problem persists after attempting these solutions, please contact VIGO Customer Support.

8. SPECIFICATIONS

Feature	Detail
Brand	VIGO
Model Number	VG08013MB
Color	Matte Black
Material	Stainless Steel (Panel), Brass (Handles)
Finish Type	Matte Black
Number of Handles	3
Item Weight	21.6 Pounds
Mounting Type	Wall Mount
Product Dimensions	59" H x 6" W x 20" D (approximate)
UPC	849922043289
Included Components	Shower Panel, Hand Shower, Mounting Hardware, Bracket, Handles, Pressure Balance/Scald Guard, Supply Lines, Thermostatic Valve, Vacuum Breaker

9. WARRANTY INFORMATION

VIGO extends a limited lifetime warranty to all its shower panel systems. This warranty covers manufacturing defects under normal use and service.
