Tzumi 6992WM

Tzumi Aura LED Black Light

Model: 6992WM

INTRODUCTION

Thank you for choosing the Tzumi Aura LED Black Light. This manual provides essential information for the safe and effective use of your device. Please read it thoroughly before operation and retain it for future reference.

SAFETY INFORMATION

- **Do not expose to water or moisture.** This product is not water resistant.
- Keep out of reach of children.
- Do not attempt to disassemble or modify the device. This will void the warranty.
- Use only the specified power source (batteries) as indicated in the specifications.
- Avoid direct eye exposure to the LED light.

PACKAGE CONTENTS

- 1 x Tzumi Aura LED Black Light (Model 6992WM)
- 1 x User Manual

SETUP

The Tzumi Aura LED Black Light is designed for easy setup. Follow these steps to prepare your device for use:

1. **Unpack:** Carefully remove the black light from its packaging.
2. **Install Batteries:** Locate the battery compartment. Insert the required batteries (refer to Specifications for battery type) ensuring correct polarity (+/-).
3. **Mounting:** This device features a frame mount design. Securely attach the black light to your desired location using appropriate mounting hardware (not included). Ensure the mounting surface is stable and can support the device's weight.

OPERATING INSTRUCTIONS

Once set up, operating your Tzumi Aura LED Black Light is straightforward:

1. **Power On/Off:** Locate the power button, typically on the side or end of the unit. Press it once to turn the light on. Press it again to turn it off.
2. **Adjust Settings:** The device features 3 distinct settings. Each press of the power button (or a dedicated mode button, if present) will cycle through these settings. Experiment to find the desired effect.
3. **Brightness:** The light provides a brightness of 500 lumens, optimized for black light effects.

MAINTENANCE

Proper maintenance ensures the longevity of your Tzumi Aura LED Black Light:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the light. Do not use liquid cleaners or abrasive materials.
- **Battery Replacement:** When the light dims or fails to turn on, it's time to replace the batteries. Open the battery compartment, remove old batteries, and insert new ones, observing polarity. Dispose of old batteries responsibly.
- **Storage:** If storing the device for an extended period, remove the batteries to prevent leakage. Store in a cool, dry place.
- **Water Exposure:** As the product is not water resistant, keep it away from water, high humidity, and rain.

TROUBLESHOOTING

If you encounter issues with your Tzumi Aura LED Black Light, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	Dead or incorrectly inserted batteries.	Replace batteries with new ones, ensuring correct polarity.
Light is dim.	Low battery power.	Replace batteries.
Light flickers.	Loose battery connection or low battery.	Check battery compartment for secure connection. Replace batteries if necessary.

If the problem persists after trying these solutions, please contact Tzumi customer support.
