› Superer 180W UL Listed Laptop Charger Instruction Manual for Acer Nitro 5, Predator Triton, and Helios Series (Model ADP195923H)

Superer ADP195923H

Superer 180W UL Listed Laptop Charger Instruction Manual

Model: ADP195923H

1. INTRODUCTION

Thank you for choosing the Superer 180W UL Listed Laptop Charger. This power adapter is designed to provide reliable and efficient power to your compatible Acer Nitro 5, Predator Triton, and Predator Helios series laptops. This manual provides essential information for safe and proper use, installation, and maintenance of your new charger.

2. SAFETY INFORMATION

Your Superer charger is UL Listed, meeting nationally recognized standards for high-level electronic safety. Please read and follow all safety instructions to prevent injury or damage.

- Do not expose the charger to liquids, moisture, or extreme temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Ensure the power outlet is properly grounded and matches the input voltage requirements (100-240V).
- Do not use the charger if the cable or adapter casing is damaged.
- Keep out of reach of children.
- This charger features overcharge protection to safeguard your device.

5. SETUP

Follow these steps to set up your charger:

1. Unpack the power adapter and power cord from the packaging.
2. Connect the power cord to the power adapter. Ensure a firm connection.
3. Plug the power cord into a standard wall outlet (AC 100-240V).
4. Connect the round connector tip of the power adapter to your laptop's charging port.
5. Verify that the charging indicator light on your laptop (if available) illuminates, indicating a successful connection and charging process.

UL Certified and Listed

Up to UL's nationally
recognized standards for high-level electronic safety

Superer	Safety Certifications
✓	UL Listed - passed UL safety tests for high-level electronic safety.
✓	FCC approved - meets regulated limits for ionizing radiation.
✓	CE marking - meets EU safety, health and environmental protection requirements.

6. OPERATING INSTRUCTIONS

Once connected, the charger will automatically begin supplying power to your laptop and charging its battery. The blue LED indicator on the adapter signifies that it is receiving power.

- For optimal performance, use the charger in a well-ventilated area.

- Avoid covering the adapter during operation to prevent overheating.
- Disconnect the charger from the wall outlet and your laptop when not in use for extended periods.

7. MAINTENANCE

Proper care will extend the life of your charger:

- Keep the charger clean and free from dust. Use a soft, dry cloth for cleaning.
- Do not use harsh chemicals or abrasive cleaners.
- Store the charger in a cool, dry place when not in use.
- Avoid tightly bending or crimping the cables, especially near the connectors.
- Use the included fastener tape to neatly coil the cable for storage or transport.

8. TROUBLESHOOTING

If you encounter issues with your charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Charger not powering laptop / Laptop not charging	Loose connection, faulty outlet, incompatible laptop, damaged cable/adaptor.	Check all connections. Try a different wall outlet. Verify laptop compatibility (voltage/amperage). Inspect cable and adapter for damage.
Charger gets excessively hot	Poor ventilation, heavy load, internal fault.	Ensure adequate airflow around the adapter. Reduce laptop workload if possible. If overheating persists, discontinue use and contact support.
Blue LED indicator is off	No power from outlet, faulty power cord, adapter issue.	Check wall outlet with another device. Ensure power cord is securely connected to both the adapter and the wall.
