Kircuit AC Wall Power Charger

User Manual for HTOCINQ Wireless Headphone V4.1 Charger

Introduction

Thank you for choosing the Kircuit AC Wall Power Charger. This charger is specifically designed to provide reliable and efficient power to your HTOCINQ Wireless Headphone V4.1. It features robust construction and built-in safety mechanisms to ensure optimal performance and protection for your device.

Image: The Kircuit AC Wall Power Charger, a compact black power adapter with a DC barrel connector cable. The label on the adapter

shows "KIRCUT AC/DC ADAPTOR INPUT: 100-240V AC 50/60Hz 0.3A OUTPUT: = 0.3A".

Safety Information

Please read all safety instructions carefully before using this product. Failure to follow these instructions may result in electric shock, fire, or damage to the product or connected devices.

- Do not expose the charger to rain, moisture, or extreme temperatures.
- Do not disassemble or modify the charger.
- Keep out of reach of children.
- Ensure the charger is used with devices that match its specified output voltage and current.
- Unplug the charger from the power outlet when not in use or during electrical storms.

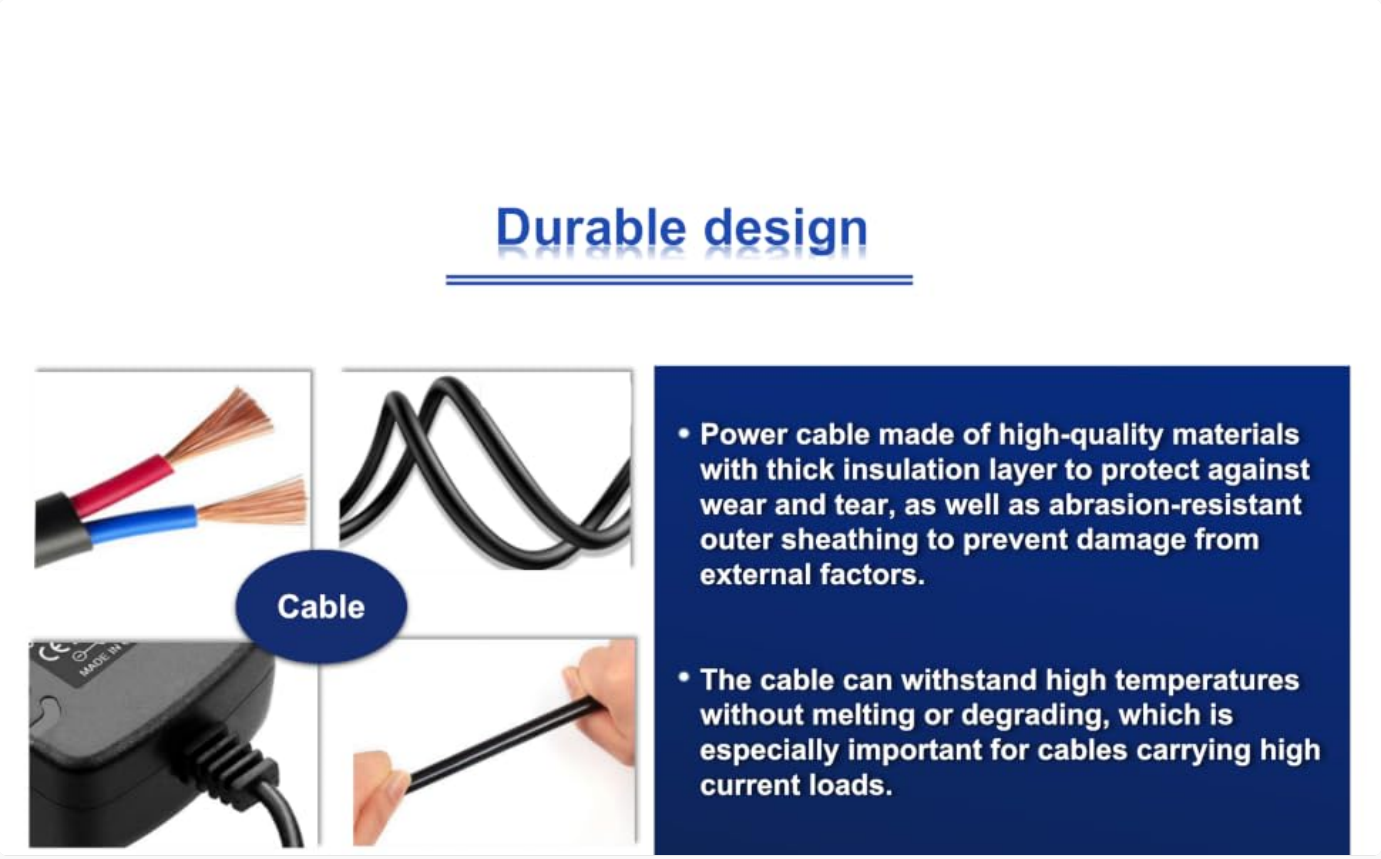

Image: A diagram illustrating the built-in safety protections of Kircuit chargers, including Short Cut protection, Excess Voltage protection, Over Temperature protection, and Overcurrent protection.

This charger is equipped with multiple safety features, including Dynamic IC, Charger IC, and Power fuse, to prevent overcharging, short circuits, and overheating, ensuring a safe charging experience.

Setup

Setting up your Kircuit charger is straightforward:

1. **Inspect the Charger:** Before use, visually inspect the charger and its cable for any signs of damage. Do not use if damaged.
2. **Connect to Device:** Plug the DC barrel connector of the charger cable into the charging port of your HTOCINQ Wireless Headphone V4.1. Ensure a secure connection.
3. **Connect to Power Outlet:** Insert the charger's AC plug into a standard 100V-240V AC wall power outlet.
4. **Verify Charging:** Confirm that your headphone indicates it is receiving power (e.g., a charging indicator light).

Operating Instructions

Once connected, the charger will automatically begin supplying power to your HTOCINQ Wireless Headphone V4.1. The built-in intelligent charging circuitry will manage the power delivery to ensure efficient and safe charging.

- The charger is designed for continuous use during charging cycles.
- Avoid placing the charger in enclosed spaces or covering it during operation to ensure proper ventilation.
- Disconnect the charger from the wall outlet and your device once charging is complete or if the device is not in use for an extended period.

Maintenance

Proper maintenance will extend the life of your Kircuit charger:

- **Cleaning:** Disconnect the charger from all power sources and devices before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly winding the cable to prevent damage.
- **Cable Care:** Do not bend or crimp the cable excessively. Avoid placing heavy objects on the cable.

Image: An illustration highlighting the durable design of the power cable, emphasizing high-quality materials, thick insulation, and resistance to wear and high temperatures.

Troubleshooting

If you encounter issues with your Kircuit charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging	Loose connection, faulty outlet, damaged charger/cable, device issue	Ensure all connections are secure. Try a different power outlet. Inspect charger and cable for damage. Test with another compatible device if possible.
Charger feels hot	Normal operation, poor ventilation, overloaded circuit	A slight warmth is normal. Ensure adequate ventilation around the charger. If excessively hot, disconnect immediately and contact support.
Intermittent charging	Loose cable, damaged connector, unstable power supply	Check cable connections at both ends. Ensure the power outlet is stable.

If the problem persists after trying these solutions, please contact customer support.

Specifications

Feature	Detail
Brand	Kircuit
Model	B082KFWKBS
Input Voltage	100V-240V AC
Input Frequency	50/60Hz
Input Current	0.3A
Output Current	0.3A
Safety Features	Dynamic IC, Charger IC, Power fuse for overcharge protection
Cable Length	Approximately 6.5 ft (as indicated in product images)
Item Weight	8 ounces

Warranty and Support

Kircuit products are manufactured to high-quality standards. This product comes with a standard manufacturer's warranty covering defects in materials and workmanship under normal use. Please refer to the product packaging or seller's information for specific warranty terms and duration.

For technical support, warranty claims, or any questions regarding your Kircuit AC Wall Power Charger, please contact the seller or manufacturer through the platform where the product was purchased. Please have your product model number (B082KFWKBS) and purchase details ready when contacting support.
