SAFETY INFORMATION

- Ensure proper installation by a qualified professional to avoid electrical hazards or damage to your vehicle.
- Do not operate the device in a manner that distracts you from driving. Always prioritize road safety.
- Avoid exposing the unit to extreme temperatures, direct sunlight, or moisture.
- Use only approved accessories and parts.
- Disconnect the vehicle's battery before installation to prevent short circuits.

PACKAGE CONTENTS

Verify that all items are present in the package:

- Blaupunkt DENVER 212 DAB BT Car Radio Unit

- Mounting Frame
- Wiring Harness (ISO connector)
- DAB+ Antenna (if included with specific models)
- External Microphone
- Disassembly Keys
- User Manual (this document)

PRODUCT OVERVIEW

The Blaupunkt DENVER 212 DAB BT is a 1-DIN car radio featuring DAB+ digital radio, Bluetooth hands-free calling, and media streaming. It offers a robust design and short installation depth for versatile vehicle compatibility.

Front Panel Controls:

- **MENU Button:** Accesses system settings and options.
- **DIS Button:** Changes display information.
- **SRC Button:** Selects audio source (Radio, DAB, Bluetooth, USB, AUX).
- **Volume Knob (Left):** Adjusts audio volume. Press to mute/unmute.
- **Selection Knob (Right):** Navigates menus and selects options.
- **Preset Buttons (1-6):** Store and recall radio stations, control media playback.
- **Call Buttons (Green/Red):** Answer/end Bluetooth calls.
- **USB Port:** Connect USB storage devices for media playback.

- **AUX Input (3.5mm Jack):** Connect external audio sources.

SETUP AND INSTALLATION

Installation Steps:

1. **Preparation:** Disconnect the negative terminal of your vehicle's battery.
2. **Mounting:** Insert the supplied mounting frame into the vehicle's 1-DIN opening. Bend the tabs to secure it.
3. **Wiring:** Connect the wiring harness according to the diagram below. Ensure all connections are secure.
4. **Antenna Connection:** Connect the FM antenna and the DAB+ antenna (if applicable) to the corresponding inputs on the rear of the radio.
5. **Microphone Connection:** Connect the external microphone to the designated input for optimal hands-free call quality.
6. **Insert Unit:** Slide the radio unit into the mounting frame until it clicks into place.
7. **Final Check:** Reconnect the vehicle's battery and test the unit.

Wiring Diagram (General):

Wire Color	Function
Yellow	Constant 12V (Battery)
Red	Switched 12V (Ignition)
Black	Ground
Blue	Power Antenna / Amplifier Remote
Orange/White	Illumination
Speaker Wires (e.g., White, Grey, Green, Purple pairs)	Connect to vehicle speakers (Front Left, Front Right, Rear Left, Rear Right)
Steering Wheel Control Input	Connect to vehicle's steering wheel control interface (if applicable)

Note: Specific wire colors may vary. Always refer to your vehicle's wiring diagram and the radio's included diagram for precise connections.

OPERATING INSTRUCTIONS

1. Basic Functions:

- **Power On/Off:** Press the volume knob (left) briefly to turn the unit on. Press and hold to turn off.
- **Volume Control:** Rotate the volume knob (left) to adjust the sound level.
- **Source Selection:** Press the **SRC** button repeatedly to cycle through available audio sources (FM, DAB, Bluetooth Audio, USB, AUX).
- **Menu Navigation:** Press the **MENU** button to enter the main menu. Use the right knob to navigate and select options.

2. Radio (FM/DAB+):

- **Selecting Radio Mode:** Press **SRC** until FM or DAB is selected.
- **Automatic Tuning:** In FM/DAB mode, press and hold the right knob or seek buttons (if available) to automatically search for stations.
- **Manual Tuning:** Briefly press the right knob or seek buttons to fine-tune frequencies.
- **Storing Presets:** Tune to a desired station, then press and hold one of the numeric preset buttons (1-6) until you hear a confirmation beep.
- **Recalling Presets:** Briefly press a numeric preset button (1-6) to recall a stored station.

3. Bluetooth Operation:

- **Pairing a Device:**
 - a. Ensure Bluetooth is enabled on your mobile device.
 - b. Select "Bluetooth" as the source on the car radio. The display will show "PAIRING".
 - c. On your mobile device, search for Bluetooth devices and select "BLAUPUNKT DENVER".
 - d. Confirm the pairing on both devices if prompted.
- **Hands-Free Calling:**
 - **Answering a Call:** Press the green call button.
 - **Ending a Call:** Press the red call button.
 - **Making a Call:** Dial from your phone; audio will transfer to the car radio.
- **Bluetooth Audio Streaming:** Once paired, select "Bluetooth Audio" as the source. Play music from your mobile device, and it will stream through the car radio. Use the preset buttons (e.g., 4 for MIX, 5 for RPT) for playback control (play/pause, skip tracks).

4. USB and AUX Input:

- **USB Playback:** Insert a USB storage device into the front USB port. The unit will automatically switch to USB mode and begin playback.
- **AUX Input:** Connect an external audio device (e.g., MP3 player) to the 3.5mm AUX input jack using an audio cable. Select "AUX" as the source.

5. Sound Settings (Equalizer):

- Press the **MENU** button, then navigate to "AUDIO" or "EQ" settings.
- Adjust bass, treble, balance, and fader settings to your preference.

- Pre-set equalizer modes (e.g., Pop, Rock, Classic) may be available.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the unit's front panel. Do not use abrasive cleaners or solvents.
- **USB Port:** Keep the USB port free from dust and debris.
- **Firmware Updates:** Check the official Blaupunkt website periodically for any available firmware updates for your model.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Blown fuse; incorrect wiring (constant/switched 12V); loose connection.	Check vehicle fuses and the radio's fuse. Verify wiring connections, especially constant and ignition power. Ensure the unit is properly seated.
No sound	Volume too low; mute activated; incorrect speaker wiring; amplifier issues.	Increase volume. Check if mute is active. Verify speaker connections. If an external amplifier is used, check its power and connections.
Poor radio reception (FM/DAB)	Antenna not connected; damaged antenna; weak signal area.	Ensure antenna is securely connected. Check antenna for damage. Consider a stronger antenna or signal booster if in a weak signal area. For DAB+, ensure the DAB antenna is correctly installed and positioned.
Bluetooth connection issues	Device not in pairing mode; incorrect wiring (ignition+ and constant+); interference.	Ensure both devices are in pairing mode. Delete previous pairings and try again. Verify that the constant 12V and switched 12V wires are correctly connected to the radio, as improper wiring can affect Bluetooth stability. Move away from other Bluetooth devices.
USB not recognized	Unsupported file format; USB drive not formatted correctly; damaged USB drive.	Ensure audio files are in supported formats (e.g., MP3, WMA). Format the USB drive to FAT32. Try a different USB drive.

SPECIFICATIONS

Feature	Detail
Brand	BLAUPUNKT
Model Number	Denver 212 DAB BT
