

Tommee Tippee AKA0060

Tommee Tippee Bennie the Bear Rechargeable Sleep Aid Instruction Manual

Model: AKA0060

INTRODUCTION

The Tommee Tippee Bennie the Bear Rechargeable Sleep Aid is designed to assist infants in developing healthy sleep patterns. This cuddly companion features a soft night light, a smart CrySensor, and a selection of soothing sounds and lullabies to comfort your child.

It provides a calming environment to help babies fall asleep and resettle, contributing to restorative sleep for both the child and parents.

SETUP

1. **Unboxing:** Carefully remove Bennie the Bear from its packaging.
2. **Charging:** The device is rechargeable via a mini-USB cable. Connect the provided USB cable to the charging port, typically located on the back or side of the internal unit. A full charge can last up to 25 hours at highest power consumption or 75 hours at lowest power level.
3. **Power On:** Locate the power button on the internal unit and press it to turn on the device.

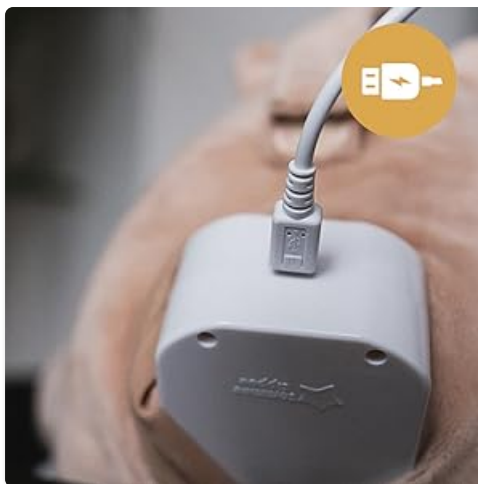

Image: Close-up of the mini-USB charging port on the internal unit of the sleep aid, indicating its rechargeable feature.

Placement: Use the attached fabric loop to secure Bennie the Bear to the outside of your baby's crib, car seat, or stroller. Ensure it is always out of the child's reach. **Important:** Place the Grofriend near your child, but never inside the crib or any other sleeping area with them.

OPERATING INSTRUCTIONS

Sound Functions

Bennie the Bear offers a selection of soothing sounds and lullabies to help your baby relax and sleep.

- **Natural Soothing Sounds:** Gently press Bennie's **left paw** to cycle through three natural sounds:
 - White Noise
 - Heartbeat
 - Rain
- **Lullabies:** Gently press Bennie's **right paw** to cycle through three soothing lullabies:
 - Brahms Lullaby
 - Hush Little Baby
 - Twinkle Twinkle Little Star

Each selected sound or lullaby will play continuously for 20 minutes before automatically turning off, unless the CrySensor is activated.

Volume Adjustment

The device features 3 volume levels. Adjust the volume to your preference to ensure a comfortable listening level for your baby. Refer to the internal unit controls for specific volume buttons.

CrySensor Technology

The smart CrySensor automatically activates the chosen sound or lullaby when it detects your baby crying. This feature helps to resettle your baby without manual intervention. Ensure the CrySensor is enabled on the internal unit for this function to operate.

Night Light Function

Bennie's belly contains a dimmable heart-shaped night light. This light creates a soothing ambiance and can be adjusted to 3 different brightness levels. The night light automatically turns off after 30 minutes.

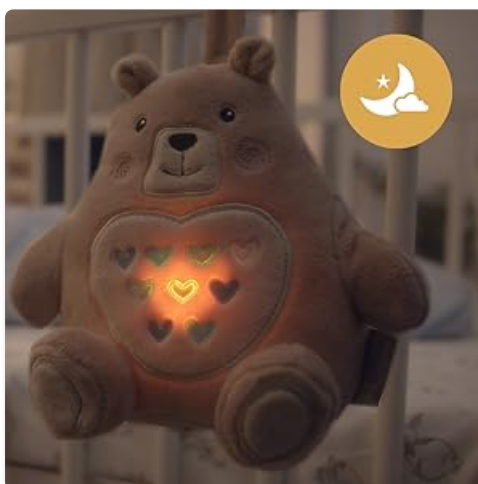

Image: Bennie the Bear with an overlay icon symbolizing its night light feature, emitting a gentle glow from its heart-shaped belly.

MAINTENANCE

- **Cleaning:** The plush exterior of Bennie the Bear can be surface-washed. Before cleaning, ensure the internal electronic module is removed. Do not immerse the entire product in water.
- **Battery Care:** To prolong battery life, avoid fully discharging the unit frequently. Recharge as needed using the provided mini-USB cable.

TROUBLESHOOTING

- **Device Not Turning On:**

Ensure the device is fully charged. Connect it to a power source using the USB cable and allow it to charge for at least 30 minutes before attempting to power on again.

- **No Sound/Light:**

Check if the device is powered on. Verify that the volume is not set to the lowest level. For the light, ensure it hasn't automatically turned off after 30 minutes. If the issue persists, try recharging the unit.

- **CrySensor Not Activating:**

Ensure the CrySensor feature is enabled on the internal unit. Check that there are no obstructions blocking the microphone. The CrySensor is designed to respond to baby's cries, not general room noise.

SPECIFICATIONS

Model Number	AKA0060
Main Material	Plastic (internal unit), 100% Polyester (plush exterior)
Power Type	Electric Cable (USB rechargeable)
Battery Type	1 Lithium-ion (included)
Battery Life	Up to 25 hours (highest power), 75 hours (lowest power)
