

AVERA PIV2

AVERA PIV2 Horizontal 2-Zone Induction Cooktop User Manual

Model: PIV2 | Brand: AVERA

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using your AVERA PIV2 induction cooktop. Keep this manual for future reference.

- **Electrical Safety:** Ensure the cooktop is connected to a properly grounded 120V power outlet. Do not use extension cords or adapters.
- **Cookware:** Only use induction-compatible cookware (magnetic base). Non-compatible cookware will not heat.
- **Placement:** Install the cooktop on a stable, flat, and heat-resistant surface. Ensure adequate ventilation around the unit.
- **Children:** Keep children away from the cooktop during operation and while it is cooling down. The cooktop surface remains hot after use.
- **Cleaning:** Always unplug the cooktop before cleaning. Allow it to cool completely.
- **Overheating Protection:** The cooktop features an automatic shut-off system to prevent overheating.

2. PRODUCT OVERVIEW

The AVERA PIV2 is a horizontal 2-zone induction cooktop designed for efficient and safe cooking. It can be used as a countertop unit or built into your kitchen.

Key Features:

- Two independent heating zones.
- Total power output of 2000W (1000W per zone).
- 8 temperature/power levels for precise cooking control.
- Programmable timer up to 240 minutes.
- Touch control panel.
- Automatic pan detection for enhanced safety.

- Child safety lock.
- High-resistance enameled glass surface for easy cleaning.

4. OPERATING INSTRUCTIONS

The AVERA PIV2 induction cooktop features an intuitive touch control panel.

Basic Operation:

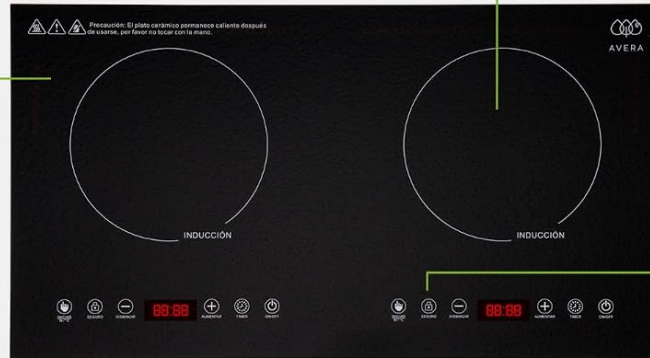

1. **Power On/Off:** Press the 'ON/OFF' button to turn the cooktop on or off.
2. **Place Cookware:** Place an induction-compatible pot or pan on the desired cooking zone. The cooktop will only activate if a suitable utensil is detected.
3. **Adjust Power/Temperature:** Use the '+' and '-' buttons to select one of the 8 power/temperature levels (e.g., 100W, 300W, up to 1000W per zone).
4. **Timer Function:** Press the 'Timer' button and use '+' and '-' to set the desired cooking time (up to 240 minutes). The cooktop will automatically turn off when the timer expires.
5. **Child Lock:** Activate the 'Lock' function to prevent accidental changes to settings or activation by children.

5. COOKWARE COMPATIBILITY

Induction cooktops require cookware with a magnetic base. Compatible materials include cast iron and stainless steel. Non-compatible materials like aluminum, copper, glass, or ceramic will not work unless they have an induction-compatible base.

How to Check Compatibility:

A simple test is to place a magnet on the bottom of your cookware. If the magnet sticks firmly, the cookware is compatible with your induction cooktop.

Your browser does not support the video tag.

Video 1: This video demonstrates how to check cookware compatibility for induction cooktops using a magnet. It shows examples of compatible materials like cast iron and stainless steel. (Note: This video is a general guide for induction cooktops and may feature other brands.)

6. CLEANING AND MAINTENANCE

The glass surface of your AVERA PIV2 cooktop is designed for easy cleaning.

- Always ensure the cooktop is unplugged and completely cool before cleaning.
- Use a soft cloth dampened with water and a mild, neutral detergent.
- Wipe the surface gently to remove spills and stains.
- Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the glass surface.
- For stubborn stains, a ceramic hob scraper can be used carefully.

7. TROUBLESHOOTING

If you encounter issues with your AVERA PIV2 cooktop, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Cooktop does not turn on.	No power, or not plugged in correctly.	Check power connection and wall outlet.
Cooktop turns on but does not heat.	Incompatible cookware, or no cookware detected.	Use induction-compatible cookware. Ensure the pot/pan is centered on the cooking zone.
Display shows "E0" error.	No cookware or incompatible cookware on the zone.	Place suitable cookware on the cooking zone. If the error persists, contact support.
Unusual noise during operation.	Normal operation sound (fan, magnetic field).	This is typically normal. If the noise is excessively loud or unusual, contact support.
