SETUP AND FIRST USE

1. **Unpacking:** Carefully remove all cookware pieces and accessories from the packaging. Dispose of packaging materials responsibly.
2. **Initial Cleaning:** Before first use, wash all cookware pieces and lids thoroughly with warm, soapy water. Rinse completely and dry with a soft cloth. This removes any manufacturing residues.
3. **Silicone Protectors:** Attach the silicone handle protectors to the handles of the casseroles as needed for comfortable and safe handling during cooking.

OPERATING INSTRUCTIONS

Cooking with Non-Stick Cookware

- **Heat Settings:** Due to the efficient heat transmission of this cookware, medium to low heat settings are generally sufficient for most cooking tasks. High heat should be avoided as it can damage the non-stick coating over time and is rarely necessary.
- **Oil Usage:** The high-performance non-stick coating allows for cooking with minimal or no oil, promoting healthier meals.
- **Utensils:** Use wooden, silicone, or plastic utensils to protect the non-stick surface. Avoid metal utensils, which can scratch and damage the coating.
- **Even Heating:** The cookware is designed for unique and even heat distribution across the entire surface, ensuring consistent cooking results.

Stovetop Compatibility

This cookware set is compatible with all stovetop types, including:

- Gas
- Ceramic
- Electric
- Induction (highly efficient)

APTO PARA TODO TIPO DE ESTUFAS

Gas

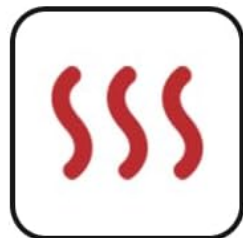

Ceramica

Eléctrica

Inducción

Cocción
uniforme

Oven Use

The cookware is oven safe. Ensure silicone protectors are removed if placing in an oven at high temperatures, as they are designed for stovetop handling.

Non-Stick Performance Demonstration

CARE AND MAINTENANCE

Cleaning

- **Easy Cleaning:** The non-stick surface ensures that food does not stick, making cleaning simple. Often, a quick wipe is sufficient.
- **Hand Washing:** For best results and to prolong the life of the non-stick coating, hand washing with warm, soapy water and a soft sponge is recommended.
- **Dishwasher Safe:** The cookware is dishwasher safe, but frequent dishwasher use may reduce the lifespan of the non-stick coating and exterior finish.
- **Lid Cleaning:** The silicone ring on the lid is removable for easy and thorough washing.
- **Avoid Abrasives:** Do not use abrasive cleaners, steel wool, or harsh scouring pads, as these can damage the non-

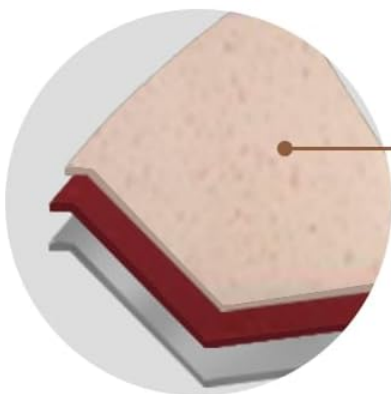

stick surface.

Storage

When storing, place a soft cloth or paper towel between stacked pans to prevent scratching the non-stick surface.

ANTIADHERENTE

BATERÍA DE COCINA ANTIADHERENTE PROFESIONAL

- Interior antiadherente de granito
- Exterior aleación de aluminio reforzado y de alta resistencia.
- Base de acero inoxidable

Image: A cross-section diagram illustrating the multi-layer construction of the non-stick cookware, including the granite non-stick interior and aluminum alloy exterior.

TROUBLESHOOTING

- **Food Sticking:** If food begins to stick, ensure you are not using excessively high heat. Overheating can degrade the non-stick properties. Ensure the pan is clean and free of any residue from previous cooking.
- **Uneven Cooking:** Verify that the cookware is placed centrally on the heat source. For induction stovetops, ensure the burner size matches the pan base for optimal heat transfer.
- **Scratches on Coating:** Always use non-metal utensils (wood, silicone, plastic) to prevent scratching the non-stick surface.
- **Handles Becoming Loose:** Periodically check the screws on the handles and tighten them if necessary.

SPECIFICATIONS

Brand	KOCHSTELLE
Model	B082VKLBK6
