Miele UltraPhase 1 & 2

Miele UltraPhase 1 & 2 2-Component Detergent User Manual

Model: UltraPhase 1 & 2 | Brand: Miele

INTRODUCTION

The Miele UltraPhase 1 & 2 is a specialized 2-component liquid detergent system designed for optimal cleaning performance in Miele washing machines equipped with the TwinDos automatic dispensing system. This manual provides essential information for the safe and effective use of this product.

IMPORTANT SAFETY INFORMATION

Please read and understand all safety warnings before using this product. Keep out of reach of children and pets.

- **DANGER:** UltraPhase 1 causes serious skin irritation and serious eye damage. It is harmful if swallowed.
- **WARNING:** UltraPhase 2 causes serious eye irritation.
- Always handle with care. Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of water.
- If swallowed, do not induce vomiting. Seek immediate medical attention.
- Store in a cool, dry place, away from direct sunlight and extreme temperatures.

SETUP AND INSTALLATION

The Miele UltraPhase 1 & 2 detergents are specifically designed for use with Miele washing machines featuring the TwinDos automatic dispensing system. Follow your washing machine's instruction manual for precise installation steps.

- 1. Locate the TwinDos Compartment:** On your Miele washing machine, open the detergent drawer or access panel to locate the TwinDos compartments, typically labeled '1' and '2'.
- 2. Insert UltraPhase 1:** Carefully insert the UltraPhase 1 cartridge into the compartment labeled '1'. Ensure it clicks securely into place.
- 3. Insert UltraPhase 2:** Carefully insert the UltraPhase 2 cartridge into the compartment labeled '2'. Ensure it clicks securely into place.
- 4. Close Compartment:** Close the detergent drawer or access panel firmly.

For detailed instructions on activating TwinDos and selecting detergent types, refer to your specific Miele washing machine's operating manual.

OPERATING INSTRUCTIONS

Once the UltraPhase cartridges are installed, the TwinDos system in your Miele washing machine will automatically dispense the correct amount of detergent at the optimal time during the wash cycle.

- **Automatic Dispensing:** Select a wash program that utilizes the TwinDos system. The machine will automatically draw UltraPhase 1 and UltraPhase 2 as needed.
- **Dosage:** The machine's sensors determine the precise dosage based on load size, fabric type, and soil level.
- **For Whites/Colors:** This detergent is formulated for both white and colored laundry, providing effective cleaning and color protection.
- **Aqua Fragrance:** The detergent includes an Aqua Fragrance for a fresh scent.

Maintenance and Storage

- **Storage:** Store unused cartridges in their original packaging in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Replacement:** Replace cartridges when empty. Your Miele washing machine will typically indicate when a cartridge is low or empty.
- **Disposal:** Dispose of empty cartridges according to local regulations for household waste.
- **Cleaning:** Periodically clean the TwinDos compartments in your washing machine as recommended by your appliance's manual to prevent residue buildup.

Troubleshooting

Most issues related to detergent dispensing are typically associated with the washing machine's TwinDos system rather than the detergent itself. Refer to your Miele washing machine's operating manual for detailed troubleshooting steps.

- **Detergent Not Dispensing:**
 - Ensure cartridges are correctly inserted and clicked into place.
 - Check if the TwinDos system is activated in your washing machine's settings.
 - Verify that the cartridges are not empty.
 - Consult your washing machine's manual for error codes related to TwinDos.
- **Poor Cleaning Results:**
 - Ensure the correct wash program and temperature are selected for the laundry type.
 - Avoid overloading the washing machine.
 - Check for proper water supply to the machine.

Specifications

Feature	Detail
Product Name	Miele UltraPhase 1 & 2
