August Home AUG-SL05-M01-S01

August Wi-Fi Smart Lock (4th Generation) User Manual

Brand: August Home

Model: AUG-SL05-M01-S01

INTRODUCTION

The August Wi-Fi Smart Lock (4th Generation) transforms your existing deadbolt into a smart, secure, and convenient entry system. With built-in Wi-Fi, you can remotely lock or unlock your door, check its status, and grant virtual guest keys. This manual provides comprehensive instructions for installation, operation, and maintenance of your August Smart Lock.

KEY FEATURES

- **Existing Deadbolt Compatibility:** Upgrades your current deadbolt from the inside, preserving your original keys and exterior appearance.
- **Remote Access:** Control your lock from anywhere using the August app, allowing you to lock/unlock, check status, and grant virtual keys.
- **Auto-Lock & Auto-Unlock:** Automatically locks your door when closed or after a set time, and unlocks as you approach your home (optional).

- **Built-in Wi-Fi:** No additional bridge required for remote functionality.
- **Voice Assistant Integration:** Compatible with Amazon Alexa, Google Assistant, Apple HomeKit, and Samsung SmartThings.
- **Guest Access:** Easily share permanent, scheduled, or temporary access with trusted individuals.
- **DoorSense:** Monitors the status of your door (open or closed) for enhanced security.
- **Biometric Recognition:** Use your phone's face or fingerprint ID for two-factor authentication (optional).

SETUP AND INSTALLATION

The August Wi-Fi Smart Lock is designed for easy installation, typically taking around 10 minutes. It attaches to your existing single-cylinder deadbolt on the inside of your door, meaning your original keys will still work and your home's exterior appearance remains unchanged.

Installation Steps Overview:

1. **Prepare Your Deadbolt:** Ensure your existing deadbolt is a standard single-cylinder type. Apply tape over the front of your deadbolt to hold it in place. Unscrew both screws and remove the thumbturn from the interior side of your door.
2. **Attach Mounting Plate:** Prepare the August mounting plate by inserting your deadbolt screws into it. Affix the mounting plate to the deadbolt and screw it into place. An optional faceplate can be used to cover any gaps.
3. **Select Adapter:** Choose the correct mounting adapter that fits your deadbolt's tailpiece. Insert the adapter onto the mount.
4. **Mount the Smart Lock:** Open the wing latches on the back of the August Wi-Fi Smart Lock. Place the lock onto the installed mounting hardware, ensuring the tailpiece is correctly aligned with the adapter. Push the wing latches in to secure the lock in place.
5. **Insert Batteries:** Remove the battery cover by pushing in on the 'a' symbol. Pull the battery tab to activate the batteries. Wait for the LED to blink green three times, then place the cover back on.
6. **Install DoorSense:** Secure the DoorSense sensor below the deadbolt using either the included screws or adhesive strip. This sensor detects if your door is open or closed.
7. **Download August App:** Once physical installation is complete, download the August Home app from your device's app store to continue with the lock setup and calibration.

Installs on the inside of
your door in 10 minutes.

The image shows a close-up of a door handle with an August Smart Lock installed. The lock is a sleek, silver-colored device that fits into the handle's mechanism. It features a small, rectangular keypad with a single button and a small display. The handle itself is a polished, cylindrical metal piece. The background is a blurred outdoor scene with green foliage and a wooden fence.

Works with your
existing lock and keys.

OPERATING INSTRUCTIONS

The August Wi-Fi Smart Lock offers multiple ways to control access to your home, providing convenience and enhanced security.

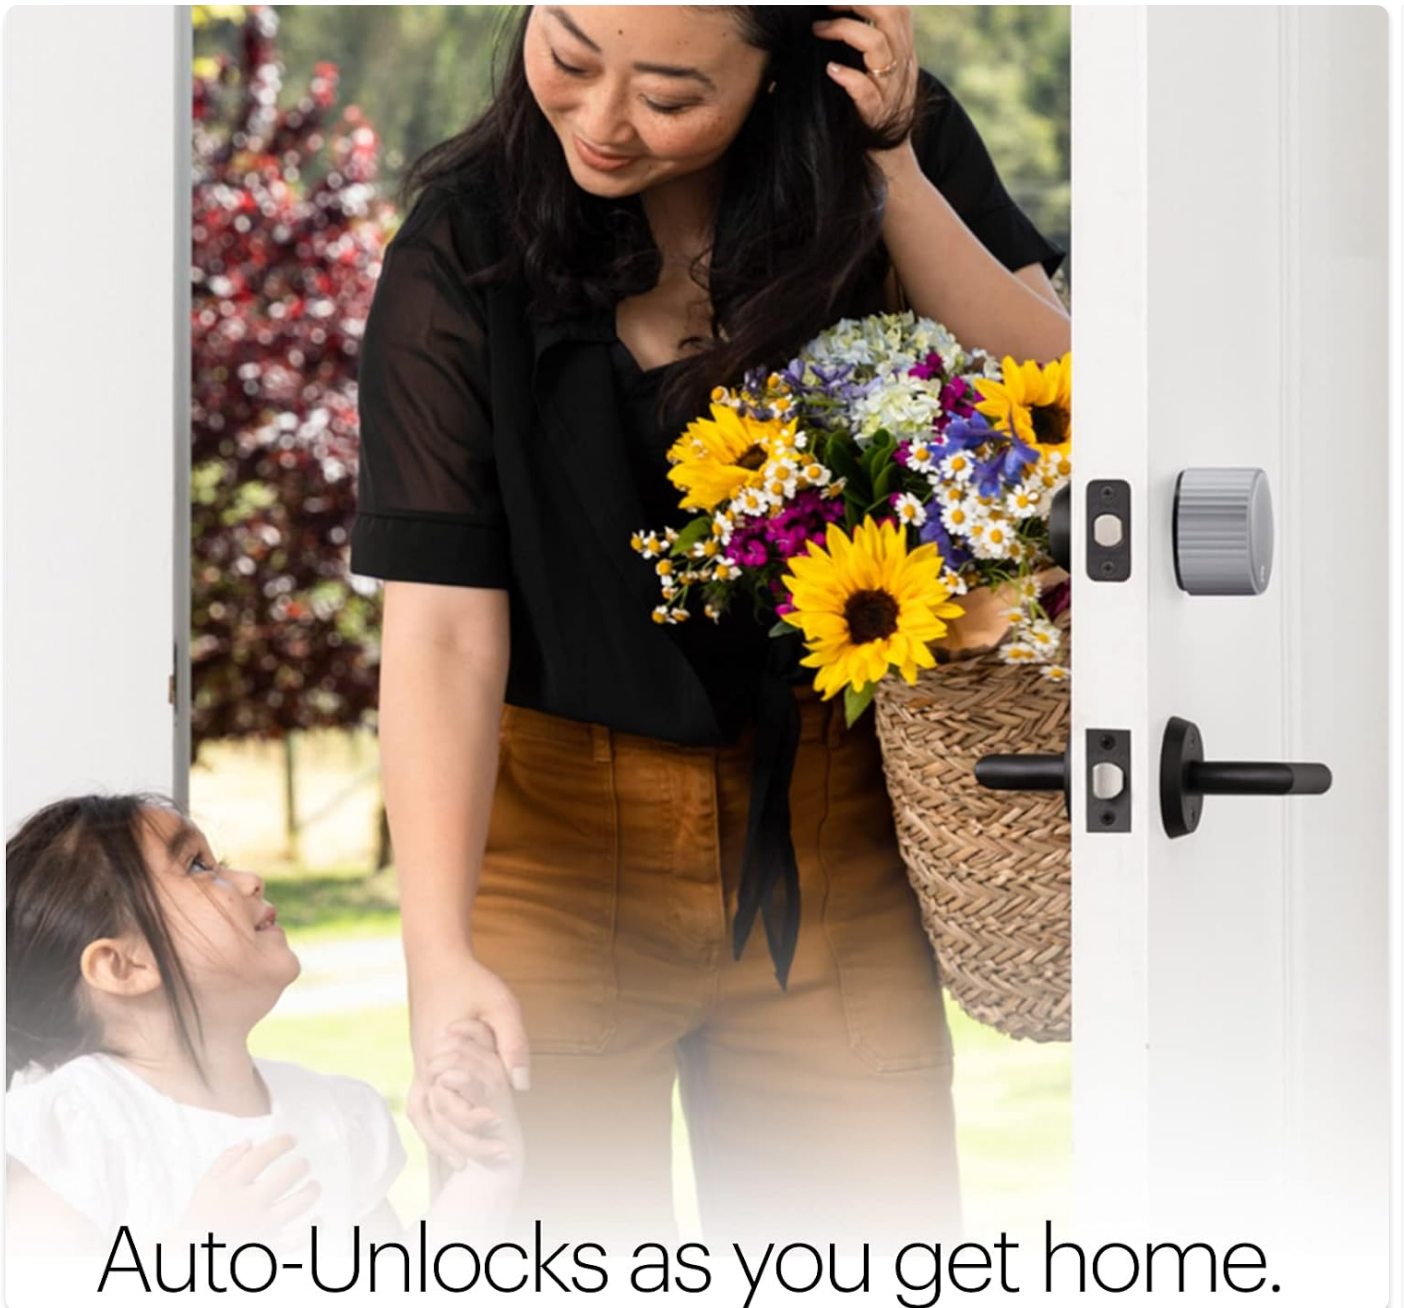

Using the August App:

- **Remote Lock/Unlock:** Open the August app on your smartphone. The main screen displays the current lock status. Tap the large circle to toggle between locked (red) and unlocked (green).
- **Auto-Unlock:** Enable this feature in the app to automatically unlock your door as you approach your home, providing hands-free entry.
- **Auto-Lock:** Configure your lock to automatically secure itself after a set period (e.g., 30 seconds, 5 minutes) once the door is closed. This ensures your home is always secure.
- **Guest Access:** From the app, you can easily create and manage virtual keys for friends, family, or service providers. Set specific access schedules (e.g., one-time, recurring, always available).
- **Activity Feed:** The app provides a detailed log of all lock and unlock events, including who accessed the door and when.
- **DoorSense Alerts:** Receive notifications if your door is left ajar or if there's unusual activity.
- **Voice Assistant Integration:** The lock seamlessly integrates with popular voice assistants like Amazon Alexa, Google Assistant, and Apple HomeKit, allowing voice commands for locking and unlocking.
- **Apple Watch Compatibility:** Control your August Smart Lock directly from your Apple Watch for quick and convenient access.

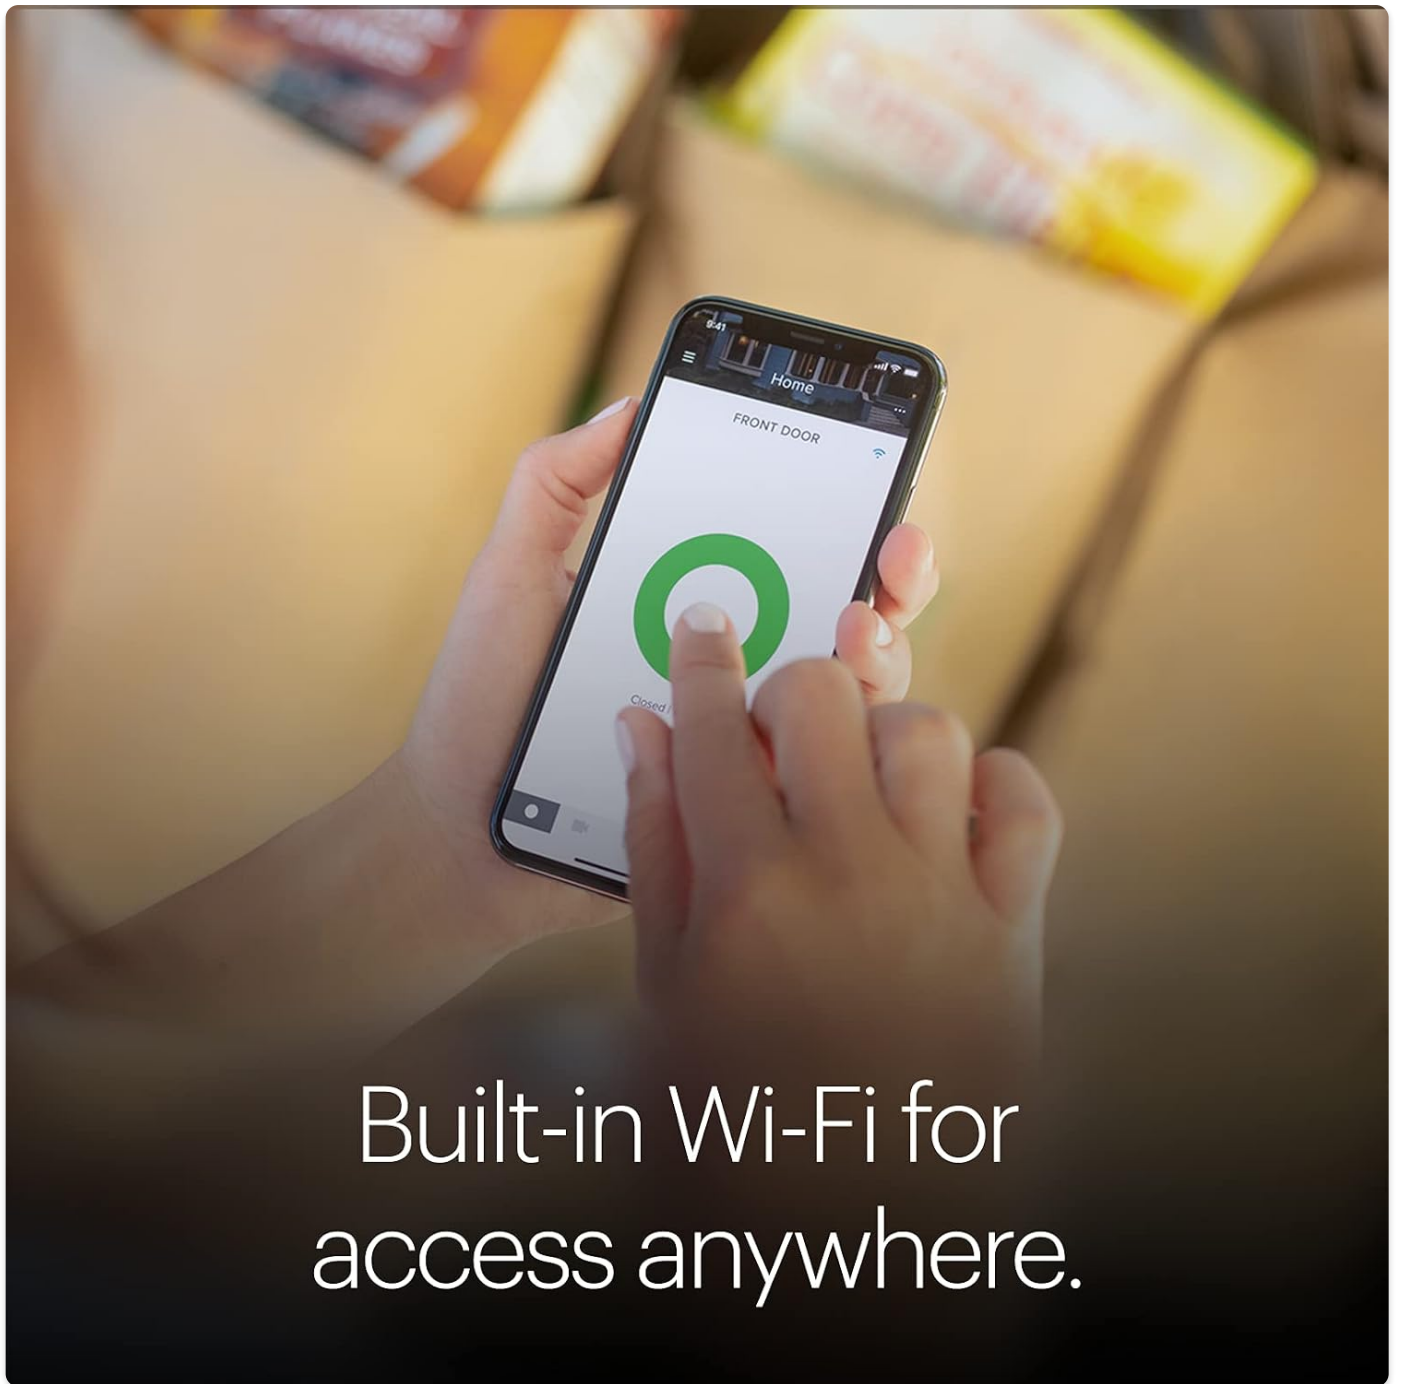

Add convenient key-free
access to your home.

Manual Operation:

You can still manually lock and unlock your door from the inside by turning the August Smart Lock's thumbturn. From the outside, your original key will continue to function as normal.

Compatible with most single cylinder deadbolts.

MAINTENANCE

Battery Replacement:

Your August Wi-Fi Smart Lock is powered by two CR123A batteries. The August app will notify you when the battery level is low (at 20% capacity or lower), prompting you to replace them immediately. It is recommended to use high-quality lithium batteries for optimal performance and longevity.

1. To access the batteries, push in on the 'a' symbol on the front cover of the lock and remove the cover.
2. Carefully remove the old CR123A batteries.
3. Insert the two new CR123A batteries, ensuring correct polarity.
4. Replace the front cover, ensuring it clicks securely into place.

Works with your Apple Watch

Image: The August Smart Lock disassembled, showing its internal components and the two CR123A batteries required for operation.

Cleaning:

Wipe the exterior of your August Smart Lock with a soft, dry cloth. Avoid using abrasive cleaners or solvents, as these can damage the finish.

TROUBLESHOOTING

• Lock Not Responding/App Issues:

- Ensure your smartphone's Bluetooth is enabled and you are within range of the lock for initial setup or direct Bluetooth control.
- Verify your home Wi-Fi network is active and the lock is connected. The built-in Wi-Fi allows remote access.
- Check the battery level in the August app. Replace batteries if low.

- Restart the August app or your smartphone.

• **Lock Not Calibrating Correctly or Inconsistent Operation:**

- Ensure the deadbolt operates smoothly without any friction or sticking. Lubricate if necessary.
- Verify the correct mounting adapter was used and properly aligned during installation. One user review highlighted the importance of ensuring the notches on the lock adapter are at the vertical position (12/3/6/9 o'clock) when the lock is in its unlocked position. Incorrect adapter alignment can lead to inconsistent status updates and operation.
- Recalibrate the lock through the August app's settings.

• **DoorSense Issues:**

- Ensure the DoorSense sensor is securely mounted and properly aligned with the magnet (if applicable) on the door frame.
- Check for any obstructions that might prevent the sensor from accurately detecting the door's position.

SPECIFICATIONS

Brand	August Home
Model Name	August Wi-Fi Smart Lock, (4th Generation)
Item Model Number	AUG-SL05-M01-S01
Color	Silver
Style	WiFi Smart Lock
Material	Metal
