

## Anker A1231011

# Anker PowerCore Slim 10000 PD Portable Charger Instruction Manual

Model: A1231011

## INTRODUCTION

The Anker PowerCore Slim 10000 PD is a compact and powerful portable charger designed to keep your devices powered on the go. Featuring a high-capacity battery and versatile charging options, it ensures your smartphones, tablets, and other compatible devices remain charged when you need them most.

### Key Features:

- **Portable Power:** Provides over two charges for iPhone XS or Google Pixel, and nearly one full charge for an 11" iPad Pro.
- **Triple Charging Modes:** Equipped with an 18W Power Delivery USB-C port, a PowerIQ-enabled USB-A port, and a trickle-charging mode for low-power devices.
- **Rapid Recharge:** Recharges the PowerCore in approximately 4.5 hours using an 18W USB-C Power Delivery wall charger (not included).
- **Quality Design:** Features a sleek matte exterior and a cool-blue LED light-wheel to indicate battery level.

## WHAT'S IN THE BOX

---

- PowerCore Slim 10000 PD portable charger
- USB-C to C cable (Micro USB cable, USB-A to C cable, and Lightning cable not included)
- Travel pouch
- Welcome guide

## SETUP

---

## Charging the PowerCore Slim 10000 PD

Before initial use, fully charge your PowerCore Slim 10000 PD. Use a USB-C Power Delivery wall charger (not included) with the provided USB-C to C cable for the fastest recharge time of approximately 4.5 hours. Recharging with a standard USB-A charger and cable (not included) will take around 10.2 hours.

The image shows a black, rectangular Anker PowerCore Slim 10000 PD power bank. A black USB-C to C cable is plugged into the bottom of the device. The other end of the cable is plugged into a white, square Anker Power Delivery (PD) wall charger, which is plugged into a wall outlet. A blue arrow points from the text 'Use a Power Delivery charger for full-speed charging. Power Delivery charger not included.' to the USB-C cable. The background is a light gray gradient.

# Full-Speed Recharging via USB-C

**4.5<sub>h</sub>**  
With 18W Power Delivery Charger  
+ USB-C to C Cable

**10.2<sub>h</sub>**  
With 10W Charger  
+ USB-A to C Cable

(Charger Not Included)

Use a Power Delivery charger for full-speed charging.  
Power Delivery charger not included.

## Checking Battery Level

The PowerCore Slim 10000 PD features a cool-blue LED light-wheel with 4 indicators to display the remaining battery level. Press the button on the side of the device to illuminate the LEDs and check the charge status.

### Charging Your Devices

The PowerCore Slim 10000 PD offers multiple output options to charge your devices:

- **18W Power Delivery USB-C Port:** For fast charging compatible USB-C devices.
- **PowerIQ-enabled USB-A Port:** For charging standard USB devices.
- **Trickle-Charging Mode:** Ideal for low-power devices such as Bluetooth headphones or smartwatches. To activate, press the power button twice. The first LED will turn green.

You can charge two devices simultaneously using both the USB-C and USB-A ports.

### Important Notes for Charging:

- When charging an iPad, ensure the portable charger has at least 2 LEDs illuminated to provide sufficient charging speed.
- Disconnect your USB-C to Lightning cable when not in use to prevent unnecessary battery drain from the power bank.

Charge **iPhone XS** to  
**50% in 30 Minutes**

## MAINTENANCE

To ensure the longevity and optimal performance of your Anker PowerCore Slim 10000 PD, store it in a cool, dry place away from direct sunlight and extreme temperatures. Clean the exterior with a soft, dry cloth. Avoid dropping the device or exposing it to liquids.

## TROUBLESHOOTING

- **Device Not Charging:** Ensure the PowerCore is sufficiently charged (at least one LED illuminated).

Verify that the charging cable is securely connected to both the power bank and your device.

- **Slow Charging:** Check if your device supports Power Delivery for faster charging via the USB-C port. Ensure you are using appropriate cables. For iPads, confirm at least 2 LEDs are lit on the power bank.
- **Incompatibility:** The PowerCore Slim 10000 PD is not compatible with HTC 10, HP Spectre, Dell XPS series laptops, Dell Venue series laptops, Asus series laptops/tablets, Lenovo ThinkPad 470s, ThinkPad X1 tablets, Huawei Matebooks, and Mi books. Some USB-C devices requiring over 18W input may also not be compatible.
- **Nintendo Switch:** Will charge Nintendo Switch but does not support "Charge-and-Play" in TV mode.

## SPECIFICATIONS

Feature	Detail
Model Number	A1231011
Battery Capacity	10000 Milliamp Hours
Product Dimensions	5.89 x 2.7 x 0.57 inches
Item Weight	7.5 ounces
USB-C Input (PD)	DC 5V=3A, 9V=2A, 15V=1.2A
USB-C Output (PD)	DC 5V=3A, 9V=2A, 15V=1.2A
USB Output	DC 5V=2.4A
Total Power Output	18W
Recharging Time (18W PD)	4.5 hours
Recharging Time (10W USB-A)	10.2 hours
