MAINTENANCE

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the charger or subjecting it to strong impacts. Do not attempt to disassemble the charger.

TROUBLESHOOTING

- **Device Not Charging:**
 - Ensure the charger is securely plugged into a working wall outlet.
 - Verify that the USB-C cable is properly connected to both the charger and your device.
 - Try using a different USB-C cable to rule out a faulty cable.
 - Test the charger with a different device to confirm charger functionality.

- Try plugging the charger into a different wall outlet.
- **Slow Charging:**
 - Confirm that your device supports fast charging via USB Power Delivery.
 - Ensure you are using a high-quality USB-C cable that supports fast charging.
 - Close unnecessary applications on your device to reduce power consumption during charging.
- **Charger Overheating:**
 - It is normal for chargers to become warm during operation. However, if the charger becomes excessively hot to the touch, immediately unplug it from the wall outlet and disconnect your device.
 - Ensure the charger is in a well-ventilated area and not covered.
 - If overheating persists, discontinue use and contact Belkin support.
