BLAUPUNKT Receiver Plus Speaker Package

BLAUPUNKT Receiver Plus Speaker Package Instruction Manual

INTRODUCTION

Thank you for choosing the BLAUPUNKT Receiver Plus Speaker Package. This manual provides essential information for the proper installation, operation, and maintenance of your new 7-inch touchscreen car stereo and 6.5-inch speakers. Please read this manual thoroughly before use to ensure optimal performance and safety.

Safety Information

- Always have the unit installed by a qualified professional to prevent damage to the product or your vehicle.
- Do not operate the unit in a way that distracts you from driving. Always prioritize road safety.
- Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- Disconnect the vehicle's battery negative terminal before installation to prevent electrical shorts.

PACKAGE CONTENTS

Verify that all items are present in the package:

- BLAUPUNKT 7-inch Touchscreen Car Stereo Receiver
- Pair of BLAUPUNKT 6.5-inch Speakers
- Wiring Harness
- Mounting Hardware
- User Manual (this document)

SETUP

Installation Guidelines

Professional installation is highly recommended for this product. Incorrect wiring or mounting can cause damage to the unit, vehicle, or personal injury. Ensure the vehicle's battery is disconnected before beginning any installation work.

Wiring Connections

Connect the wiring harness to the vehicle's electrical system according to the provided wiring diagram (typically found on the unit itself or a separate diagram sheet). Key connections include:

- **Yellow Wire:** Constant 12V power (for memory retention).
- **Red Wire:** Switched 12V accessory power (turns on/off with ignition).
- **Black Wire:** Ground connection to the vehicle chassis.
- **Speaker Wires:** Connect to the positive and negative terminals of each 6.5-inch speaker, ensuring correct polarity.

Mounting the Receiver and Speakers

Mount the car stereo receiver securely into the vehicle's dashboard opening using the supplied mounting hardware. Ensure it is firmly seated and does not obstruct any vehicle controls. Install the 6.5-inch speakers into their designated locations, ensuring a tight fit to prevent vibrations and optimize sound quality.

Initial Power On

After all connections are made and verified, reconnect the vehicle's battery. Press the power button on the receiver. The unit should power on and display the BLAUPUNKT logo or main menu. Follow any on-screen prompts for initial setup, such as language selection or time setting.

OPERATING

Basic Controls

- **Power Button:** Press to turn the unit on or off. A long press may put it into standby mode.

- **Volume Control:** Adjust the volume using the dedicated knob or on-screen controls.
- **Home Button:** Returns to the main menu or home screen.

Touchscreen Interface

Navigate the unit's functions by touching the icons and menus displayed on the 7-inch screen. Swipe gestures may be used for scrolling through lists or pages. Refer to the on-screen interface for specific application controls.

Radio Operation

Select the 'Radio' icon from the main menu. Use the on-screen controls to:

- **Tune:** Manually or automatically scan for AM/FM stations.
- **Presets:** Save your favorite stations for quick access.
- **Band Selection:** Switch between AM and FM bands.

Media Playback (USB/SD Card)

Insert a USB drive or SD card containing compatible audio or video files into the designated port/slot. The unit should automatically detect the media and prompt you to select the 'Media' or 'USB/SD' source. Use the touchscreen to browse and play your files.

Bluetooth Connectivity

To pair your mobile device:

1. Go to the 'Bluetooth' menu on the car stereo.
2. Enable Bluetooth on your mobile device and search for available devices.
3. Select 'BLAUPUNKT' (or similar name) from the list on your phone.
4. Confirm the pairing code on both devices if prompted.

Once paired, you can stream audio and make/receive hands-free calls through the unit.

MirrorLink Functionality

MirrorLink allows you to display and control compatible smartphone applications directly on the car stereo's screen. To use MirrorLink:

1. Ensure your smartphone is compatible with MirrorLink and has the necessary application installed.
2. Connect your smartphone to the car stereo via a USB cable.
3. Select the 'MirrorLink' option on the car stereo's menu.
4. Follow any on-screen instructions on both the stereo and your phone to establish the connection.

Functionality may vary depending on your smartphone model and MirrorLink application version.

MAINTENANCE

Cleaning the Unit

Use a soft, dry cloth to wipe the touchscreen and unit exterior. For stubborn marks, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the screen and finish.

General Care

- Keep the unit free from dust and debris.
- Ensure proper ventilation around the unit to prevent overheating.
- Avoid placing heavy objects on the unit or speakers.

TROUBLESHOOTING

If you encounter issues with your BLAUPUNKT Receiver Plus Speaker Package, refer to the following common problems and solutions:

- **No Power:**

Solution: Check all power connections (yellow, red, black wires) for secure contact. Verify the vehicle's fuse for the stereo is not blown. Ensure the vehicle's battery is charged.

- **No Sound from Speakers:**

Solution: Check speaker wire connections for correct polarity and secure contact. Ensure the volume is not muted or set to zero. Verify the audio source is correctly selected.

- **Screen is White or Frozen:**

Solution: Try resetting the unit. This can often be done by pressing a small reset button (usually recessed and requires a pointed object like a pen) or by temporarily disconnecting the vehicle's battery.

- **MirrorLink Not Connecting/Working:**

Solution: Ensure your smartphone is compatible and has the latest MirrorLink app. Try a different USB cable. Restart both the stereo and your phone. Verify that MirrorLink is enabled in your phone's settings.

- **Bluetooth Pairing Issues:**

Solution: Ensure Bluetooth is enabled on both devices. Delete previous pairings from both the stereo and your phone and attempt to pair again. Move the phone closer to the stereo.

- **Radio Blocks on Call:**

Solution: This behavior may be related to specific phone models or software. Ensure the stereo's firmware is up to date if an update is available. Check phone settings for call handling preferences with connected Bluetooth devices.

If problems persist after attempting these solutions, please contact BLAUPUNKT customer support for further assistance.

SPECIFICATIONS

Feature	Specification
Control Method	Touch
Speaker Size	6.5 Inches
Power Source	Vehicle Battery (12V DC)
UPC	815592025337
Manufacturer	BLAUPUNKT
Item Weight	5.53 pounds
Product Dimensions	7.3 x 11.3 x 7.3 inches

Feature	Specification
Audio Output Mode	Stereo
Mounting Type	Car Mount
Is Waterproof	FALSE
