# Evenflo GoTime LX Booster Car Seat Instruction Manual

Model: 35012415 | Brand: Evenflo

## PRODUCT OVERVIEW

The Evenflo GoTime LX Booster Car Seat is designed to provide safety, comfort, and style for older children. It accommodates children from 40 to 120 lb, 44 in to 57 in, and a minimum of 4 years of age. This booster seat offers two modes of forward-facing use and 7 height positions, adapting to your child's growth.

Figure 1: Front view of the Evenflo GoTime LX Booster Car Seat in Chardon Black.

Key features include deep design with overlapping head and body sides for support, one-hand height adjustment, and dual-integrated cup holders. The padded seat is removable and machine-washable for easy cleaning. The back quickly removes for conversion to a no-back booster.

## SETUP AND ASSEMBLY

Before assembly, ensure all components are present and undamaged. Refer to the included user manual for detailed diagrams and instructions. The booster seat arrives in two main parts: the backrest and the booster base.

1. **Attach the Backrest:** Align the backrest with the booster base. Ensure the connection points on both parts are properly matched.
2. **Secure the Connection:** Firmly push the backrest down onto the base until it clicks securely into place. Verify that there is no wobble or looseness between the two parts.
3. **Adjust Headrest Height:** The headrest can be adjusted to 7 different height positions. Use the adjustment

mechanism, typically located at the top of the backrest, to raise or lower it to the desired height. This should be set to ensure the vehicle's shoulder belt rests properly across your child's shoulder.

Figure 2: Rear view of the booster seat, showing the attachment points for the backrest.

Figure 3: Illustration of the 7-position height adjustment feature.

For detailed installation in your vehicle, always consult your vehicle's owner's manual and the full Evenflo GoTime LX Booster Car Seat instruction manual.

## OPERATING THE BOOSTER SEAT

### Child Requirements:

- Weight: 40 to 120 lb
- Height: 44 in to 57 in
- Minimum Age: 4 years

### Securing Your Child:

The Evenflo GoTime LX Booster Car Seat uses the vehicle's lap and shoulder belt system to secure your child. Ensure the

vehicle's seat belt is properly routed through the designated belt guides on the booster seat.

Figure 4: Close-up of the belt clip, which helps position the vehicle's shoulder belt correctly.

The included belt clip assists in properly positioning the vehicle's shoulder belt across your child's shoulder, ensuring a snug and safe fit. The lap belt should rest low across the hips, touching the upper thighs.

### **Converting to No-Back Booster:**

When your child is ready, the backrest can be quickly removed to convert the GoTime LX into a no-back booster. This transition allows for continued use as your child grows, maintaining proper vehicle belt fit.

Figure 5: The booster seat shown in both high-back and no-back configurations.

### Integrated Cup Holders:

The booster seat features dual-integrated cup holders, providing convenient storage for drinks and small snacks. These are designed to keep items within easy reach for your child.

## CARE AND MAINTENANCE

Proper care and maintenance will extend the life of your Evenflo GoTime LX Booster Car Seat and ensure continued safety and hygiene.

### Cleaning Instructions:

- **Fabric Pads:** The padded seat and other fabric components are removable and machine-washable. Use cold water on a gentle cycle. Tumble dry on low heat or air dry. Do not use bleach.
- **Plastic Parts:** Wipe plastic parts with a soft cloth and mild soap and water. Do not use abrasive cleaners or solvents.
- **Harness Straps:** Spot clean harness straps with mild soap and water. Do not machine wash or immerse harness straps in water, as this may weaken them.

Always refer to the care instructions label on the product and in the full instruction manual for specific cleaning guidelines.

## TROUBLESHOOTING

If you encounter any issues with your Evenflo GoTime LX Booster Car Seat, please refer to the following general advice. For specific problems, always consult the full user manual or contact customer support.

- **Loose Installation:** Ensure the booster seat is properly secured with the vehicle's seat belt. Check that the belt is routed correctly through all guides and is pulled taut.
- **Difficulty Adjusting Headrest:** Verify that no fabric or debris is obstructing the adjustment mechanism. Apply firm, even pressure when adjusting.
- **Child Discomfort:** Ensure the headrest is at the correct height for your child, and the vehicle's shoulder belt is positioned properly across their shoulder, not their neck.
- **Missing Parts:** If any parts are missing upon unboxing, do not attempt to use the product. Contact Evenflo customer

support immediately.

## WARRANTY AND SUPPORT

Evenflo products are designed with safety and durability in mind. For specific warranty information, please refer to the warranty card included with your product or visit the official Evenflo website.

### Customer Support:

Evenflo offers ParentLink® customer service experts to assist with product inquiries, installation support, and more. You can receive live video support with a certified car seat safety technician for proper vehicle installation.

For assistance, please visit the [Evenflo Support Page](#) or contact their ParentLink customer service directly. Additional resources, including the full user manual, can often be found on the product's page on the retailer's website or the Evenflo official website.
