Intex 28429E

Intex PureSpa Plus Portable Inflatable Hot Tub Spa

Model: 28429E

Brand: Intex

INTRODUCTION

The Intex PureSpa Plus 28429E is a 4-person portable inflatable hot tub designed to provide relaxation and comfort. It features 140 high-performance bubble jets and a built-in heating system that can reach up to 104°F (40°C). This manual provides essential information for the safe and efficient setup, operation, and maintenance of your PureSpa Plus.

Important Note: Due to California energy restrictions, this item is not available for sale or shipping to California.

INCLUDED COMPONENTS

Verify that all components are present before beginning setup:

- Inflatable Spa Tub
- Insulated Cover
- Heating / Filtration / Air Blower / Hard Water System Unit
- Color Changing LED Light
- Two Filter Cartridges
- Two Headrests
- Thermal Ground Cloth
- Inflation Hose
- Carry Bag
- Floating Chlorine Dispenser
- Test Strip

SETUP INSTRUCTIONS

Follow these steps to set up your Intex PureSpa Plus:

1. **Choose a Location:** Select a flat, stable surface for your spa. Ensure it is capable of supporting the weight of the

filled spa and occupants. Place the thermal ground cloth on the chosen surface.

2. **Unpack and Unfold:** Carefully remove the spa tub and accessories from the carry bag. Unfold the spa tub on the thermal ground cloth.
3. **Inflate the Spa:** Connect the inflation hose to the spa's inflation valve and the built-in inflation system on the control unit. Inflate the spa until it is firm but not over-inflated.
4. **Connect the Control Unit:** Attach the heating/filtration/air blower/hard water system unit to the spa tub following the instructions in the detailed manual. Ensure all connections are secure.
5. **Fill with Water:** Fill the spa with water using a garden hose. Do not exceed the maximum fill line.
6. **Install Accessories:** Place the two headrests on the spa rim as desired. Insert the filter cartridges into their housings.

OPERATING INSTRUCTIONS

The PureSpa Plus features an easy-to-use, tilt-adjustable control panel for managing its functions:

- **Power Button:** Turns the spa on or off.
- **Temperature Adjustment:** Use the up and down arrows to set your desired water temperature, up to 104°F (40°C).
- **Bubble Jet Activation:** Press the bubble jet button to activate the 140 high-performance bubble jets for a refreshing massage.
- **Heating System:** The heating system will automatically adjust to maintain the set temperature.
- **Color-Changing LED Light:** Activate the integrated LED light to create a unique ambiance.

MAINTENANCE

Proper maintenance is crucial for the longevity and hygiene of your PureSpa Plus:

- **Filter Cartridges:** Regularly check and clean the filter cartridges. Replace them as needed to ensure efficient filtration.
- **Water Chemistry:** Use the provided test strips to monitor water chemistry (pH, chlorine/bromine levels). Adjust chemicals using the floating chlorine dispenser to maintain safe and clean water.
- **Water Changes:** It is recommended to change the spa water every 1 to 3 months, depending on usage.
- **Cleaning:** Periodically clean the interior and exterior of the spa.

TROUBLESHOOTING

If you encounter issues with your Intex PureSpa Plus, refer to the following common problems and solutions:

- **E95 Error Code:** This code typically indicates an issue with the heating system, often related to water temperature. Consult the full manual for specific diagnostic steps.
- **Insufficient Bubbles:** Check that the air blower is properly connected and that the air jets are not obstructed.

- **Water Not Heating:** Ensure the heating function is activated on the control panel and that the filter cartridges are clean. Verify power supply.

SPECIFICATIONS

Feature	Specification
