

Genius SP-HF180

Genius SP-HF180 Wooden Stereo Speakers User Manual

INTRODUCTION

The Genius SP-HF180 are compact wooden stereo speakers designed to provide enhanced audio output for various devices. These speakers feature a simple USB connection for power and are compatible with desktops, laptops, MP3 players, smartphones, and tablets. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your SP-HF180 speakers.

WHAT'S IN THE BOX

Carefully unpack the contents of the box. Ensure all items listed below are present and in good condition.

- 2 x Genius SP-HF180 Speaker Units

SETUP

Follow these steps to connect your Genius SP-HF180 speakers to your audio source.

1. **Speaker Placement:** Position the two speaker units on either side of your computer monitor or desired listening area. Ensure they are placed on a stable, flat surface.
2. **Connect Audio Cable:** Locate the 3.5mm audio cable extending from one of the speakers. Plug this cable into the audio output (headphone jack) of your computer, laptop, MP3 player, smartphone, or tablet.
3. **Connect USB Power:** Locate the USB power cable extending from one of the speakers. Plug this USB cable into an available USB port on your computer or a compatible USB power adapter (not included). The speakers will power on automatically once connected to a power source.
4. **Adjust Volume:** Once connected, you may need to adjust the volume on your audio source device or use the remote control (if applicable) to set the desired listening level.

This image displays the two Genius SP-HF180 wooden stereo speaker units. Each speaker features a compact design with a wood-grain finish, suitable for desktop use.

OPERATING INSTRUCTIONS

The Genius SP-HF180 speakers are designed for straightforward operation.

- **Power On/Off:** The speakers power on automatically when the USB cable is connected to a powered USB port. Disconnect the USB cable to power off the speakers.
- **Volume Control:** Volume is primarily controlled via your connected audio source device (e.g., computer, smartphone). The speakers may also be controlled by a remote, if provided with your specific model.
- **Audio Playback:** Once connected and powered, simply play audio from your device, and the sound will be output through the speakers.

MAINTENANCE

Proper care ensures the longevity and performance of your speakers.

- **Cleaning:** Use a soft, dry cloth to wipe the speaker surfaces. Avoid using liquid cleaners, aerosols, or abrasive materials, as these can damage the finish or internal components.
- **Environment:** Keep the speakers away from direct sunlight, excessive heat, moisture, and dust. Do not place them near strong magnetic fields.

- **Handling:** Avoid dropping the speakers or subjecting them to strong impacts.

TROUBLESHOOTING

If you encounter issues with your speakers, refer to the following common solutions.

- **No Sound:**
 - Ensure the USB power cable is securely connected to a working USB port or power adapter.
 - Verify the 3.5mm audio cable is fully plugged into both the speaker and your audio source device.
 - Check the volume level on your audio source device; ensure it is not muted or set too low.
 - Test with a different audio source device to rule out issues with the original device.
- **Distorted Sound:**
 - Reduce the volume on your audio source device. High volume levels can cause distortion.
 - Ensure the audio cable connections are secure and free from interference.
 - Test with a different audio file or source to determine if the distortion is from the speakers or the audio content.
- **Speakers Not Powering On:**
 - Confirm the USB port or power adapter is functional. Try connecting the USB cable to a different port or adapter.

SPECIFICATIONS

Key technical specifications for the Genius SP-HF180 Wooden Stereo Speakers.

Model Name	SP-HF180
Speaker Type	Stereo Speakers
Connectivity Technology	USB (for power)
Audio Input	3.5mm Audio Jack (Auxiliary)
