8. TROUBLESHOOTING

If you encounter issues with your HiFuture Flybuds, refer to the following common solutions:

Problem	Possible Solution
Earbuds not pairing	Ensure earbuds are charged. Turn off and on Bluetooth on your device. Forget "HiFuture Flybuds" from your device's Bluetooth list and re-pair. Place earbuds back in the case, close, wait 5 seconds, then open to re-enter pairing mode.
No sound from one earbud	Ensure both earbuds are charged. Try resetting the earbuds (refer to manufacturer's specific reset instructions if available). Re-pair the earbuds with your device.
Earbuds disconnecting randomly	Ensure there are no obstructions between the earbuds and your device. Move closer to your device to reduce interference. Check for firmware updates (if applicable, via a HiFuture app).

Problem	Possible Solution
Charging issues	Clean the charging contacts on both earbuds and the case. Try a different USB Type-C cable and power adapter. Ensure the charging case itself is charged.
Microphone not working properly during calls	Ensure the earbuds are properly connected and selected as the audio input device on your phone. Check for any debris blocking the microphone ports.
