Empire Tech Instant Eye Lift

Empire Tech Instant Eye Lift User Manual

INTRODUCTION

This manual provides comprehensive instructions for the safe and effective use of your Empire Tech Instant Eye Lift. Please read this manual thoroughly before first use and retain it for future reference. The Empire Tech Instant Eye Lift is designed to temporarily reduce the appearance of wrinkles, fine lines, and puffiness around the eye area, resulting in a smoother, tighter, and more youthful look.

SAFETY INFORMATION

Observe the following safety precautions to ensure proper use and to prevent potential irritation or adverse reactions:

- For external use only. Avoid direct contact with eyes. If contact occurs, rinse thoroughly with water.
- Discontinue use if irritation, redness, or discomfort occurs. Consult a dermatologist if symptoms persist.
- Do not apply to broken, irritated, or sensitive skin.
- Keep out of reach of children.
- Store in a cool, dry place, away from direct sunlight.
- This product is intended for temporary cosmetic enhancement and does not offer permanent solutions for skin conditions.

PRODUCT OVERVIEW

The Empire Tech Instant Eye Lift is delivered in a convenient syringe-style applicator, designed for precise and controlled dispensing of the product.

APPLICATION INSTRUCTIONS (SETUP & OPERATING)

Follow these steps for optimal results:

1. **Prepare Skin:** Ensure the skin around your eyes is clean, dry, and free of any other creams or makeup.
2. **Dispense Product:** Gently press the syringe plunger to dispense a very small amount of the Instant Eye Lift cream onto your fingertip. A pea-sized amount or less is typically sufficient for both eyes.
3. **Apply to Eye Area:** Lightly dab and spread the product onto the desired areas around the eyes, including the upper and lower eyelids, where puffiness, fine lines, or wrinkles are present. Use a gentle patting motion rather than rubbing.
4. **Allow to Dry:** Remain expressionless for approximately 60 seconds while the product dries. You may feel a tightening sensation as it begins to work.
5. **Observe Results:** The appearance of wrinkles, fine lines, and puffiness should visibly diminish within minutes, and your skin will feel smoother and tighter.
6. **Makeup Application (Optional):** If applying makeup, do so gently after the product has fully dried. Avoid heavy rubbing, which may disrupt the product's effect.

This product is ideal for special occasions when an immediate temporary lift is desired.

MAINTENANCE

To maintain the product's efficacy and shelf life:

- Always replace the cap securely after each use to prevent air exposure.
- Store the syringe in a cool, dry environment, away from direct sunlight and extreme temperatures.
- Do not freeze the product.

TROUBLESHOOTING

White Film Appears After Application

If a white film or residue appears after the product dries, this typically indicates that too much product was applied. To correct this:

- Gently dampen your fingertip with a small amount of water.
- Lightly pat the affected area until the white film disappears.
- For future applications, use an even smaller amount of product.

SPECIFICATIONS

Brand	Empire Tech
Product Name	Instant Eye Lift
Item Form	Cream
Scent	Green Tea
Use For	Eyes
Skin Type	Dry
UPC	685757046503
