VIAGDO Premium Heavy Duty 3-Wheel Pet Stroller (B0836MT47K)

VIAGDO Premium Heavy Duty Pet Stroller Instruction Manual

Model: B0836MT47K

1. Introduction

Thank you for choosing the VIAGDO Premium Heavy Duty 3-Wheel Pet Stroller. This manual provides essential information for the safe and efficient assembly, operation, maintenance, and troubleshooting of your new pet stroller. Please read this manual thoroughly before use and retain it for future reference.

2. Safety Information

- Always ensure your pet is securely fastened inside the stroller using the provided safety leashes.
- Do not exceed the maximum weight capacity of 55 LBS (25 kg).
- Regularly check all components for wear and tear, especially wheels, brakes, and fabric.
- Engage the link brake when the stroller is stationary to prevent accidental movement.
- Avoid leaving your pet unattended in the stroller, especially on inclines or uneven surfaces.
- Ensure all zippers and closures are properly secured before moving the stroller.
- Keep fingers and hands clear of moving parts during folding and unfolding.
- This stroller is designed for pets only. Do not use it for children or other purposes.

3. Components List

Before assembly, verify that all parts are present:

1. **Stroller Frame with Pet Cabin** (Pre-assembled)
2. **Front Wheel** (1)
3. **Rear Wheels** (2)
4. **Front Fender/Step**
5. **Cup Holder and Storage Tray**
6. **Storage Basket** (Underneath)
7. **Removable Inner Pad**
8. **Safety Leashes** (2)
9. **Instruction Manual** (This document)

Image 2: Key features of the pet cabin, including the top mesh window, breathable mesh window, removable cleaning pad, and double safety belts.

4. Setup Instructions

The VIAGDO Pet Stroller is designed for quick and easy setup with minimal tools required.

1. **Unfold the Stroller Frame:** Release the folding latch and carefully unfold the stroller frame until it locks into place. Ensure all locking mechanisms are engaged.
2. **Attach Rear Wheels:** Insert the rear wheels into their respective axles on the stroller frame until they click securely into place. Verify they are firmly attached by gently pulling on them.
3. **Attach Front Wheel:** Insert the front wheel assembly into the designated slot at the front of the stroller. Ensure it is securely locked.
4. **Install Front Fender/Step:** Secure the front fender/step to the front wheel assembly using the provided screws or clips.
5. **Attach Cup Holder and Storage Tray:** Slide the cup holder and storage tray onto the handle bar until it snaps into position.
6. **Secure Storage Basket:** Attach the large storage basket to the frame underneath the pet cabin, ensuring all attachment points are secure.
7. **Insert Inner Pad:** Place the removable inner pad inside the pet cabin for your pet's comfort.

Image 3: Key operational features including the padded handles with collapse button, cup holder, storage tray, single foot touch brake, and 360° swivel front wheel.

Image 4: The stroller's convenient one-hand folding mechanism allows for compact storage in a car trunk, making it ideal for travel.

5. Operating Instructions

5.1 Placing Your Pet in the Stroller

The stroller features multiple zippered openings for easy pet access:

- **Front Opening:** Unzip the front mesh window to allow your pet to enter or exit from the front.
- **Rear Opening:** Unzip the rear panel for access from the back.
- **Top Opening:** The top mesh window can be opened for easy access and ventilation.

Once your pet is inside, attach their harness to the internal safety leashes to prevent them from jumping out. Ensure all openings are securely zipped closed before moving.

Video 1: This video demonstrates how to safely place your dog into the VIAGDO pet stroller and secure them using the various access points and safety features.

5.2 Braking System

The stroller is equipped with a single foot touch link brake located on the rear axle. Press down on the brake pedal to engage the brake and lock both rear wheels. Lift the pedal to release the brake.

5.3 Maneuverability

The 360° rotating front wheel allows for effortless steering and maneuverability. The air ride tires and suspension system provide a smooth ride over various terrains, including grass, sand, brick roads, and speed bumps.

Image 5: The damping front wheel and robust construction ensure smooth transportation across diverse terrains, from grassy parks to uneven brick roads.

5.4 Folding and Storage

To fold the stroller, locate the one-hand fold button on the handle. Press the button and follow the folding mechanism until the stroller collapses into a compact size. This feature makes storage and transport convenient.

6. Maintenance

- **Cleaning:** The 600D Oxford Cloth fabric can be spot cleaned with a mild detergent and water. The removable inner pad can be hand washed. Allow all parts to air dry completely before reassembly or storage.
- **Wheels:** Regularly check the air ride tires for proper inflation (if applicable, though description says "won't go flat" implying solid/foam-filled, still good to check for debris). Keep the wheel axles clean and free of debris. Lubricate moving parts as needed.
- **Frame:** Wipe down the alloy steel frame with a damp cloth to remove dirt and grime. Avoid harsh chemicals that may damage the finish.
- **Storage:** Store the stroller in a dry, cool place away from direct sunlight when not in use to prolong its lifespan.

7. Troubleshooting

Problem	Possible Cause	Solution
Stroller difficult to fold/unfold.	Latching mechanisms not fully disengaged/engaged; debris in joints.	Ensure the one-hand fold button is fully pressed. Check for any obstructions in the folding joints and clear them.
Wheels not rolling smoothly or wobbling.	Debris in wheel axles; loose wheel attachment; uneven terrain.	Remove any debris from the wheel axles. Ensure wheels are securely clicked into place. On uneven terrain, slight wobbling of the front wheel can occur; adjust stroller angle to correct.
Brake not engaging/disengaging properly.	Debris obstructing brake mechanism; worn brake components.	Clear any debris from the brake pedal and mechanism. If the issue persists, contact customer support.
Pet cabin mesh or fabric torn.	Sharp objects; excessive force; pet chewing.	Minor tears may be repaired with a patch kit. For significant damage, replacement parts may be available. Prevent pet chewing.

8. Specifications

Brand: VIAGDO

Model: Premium Heavy Duty 3-Wheel Pet Stroller (B0836MT47K)

Color: Blue&Grey

Frame Material: Alloy Steel

Fabric Type: 600D Oxford Cloth
