SETUP

1. **Unpack the Unit:** Carefully remove the coin sorter from its packaging. Ensure all components are present.
2. **Placement:** Place the unit on a stable, flat surface.
3. **Insert Coin Wrappers:** Insert preformed coin wrappers into the designated coin tubes. Each tube is labeled for Quarters, Nickels, Pennies, and Dimes. Ensure the wrappers are fully seated.

4. **Connect Power:** Plug the power cord into a standard electrical outlet.

OPERATING INSTRUCTIONS

1. **Turn On:** Locate the ON/OFF switch on the side of the unit and switch it to the "ON" position. The motor will begin to run.
2. **Load Coins:** Place a moderate amount of mixed coins into the coin hopper at the top of the unit. Avoid overfilling to prevent jams.

Starter Pack

Image: A close-up view of the coin hopper on the Royal Sovereign CO-1000N Coin Sorter, showing a large quantity of mixed US coins ready for sorting.

3. **Sorting Process:** The machine will automatically sort the coins into their respective tubes. The patented anti-jam technology helps ensure smooth operation.
4. **Remove Filled Wrappers:** Once a coin tube is full, the coins will overflow into the collection bin. Carefully remove the filled coin wrapper from its tube. The removable plastic tubes facilitate this process.

Image: The Royal Sovereign CO-1000N Coin Sorter displaying coin tubes filled with wrapped quarters, nickels, pennies, and dimes, ready for removal.

5. **Continue Sorting:** Replace the filled wrapper with an empty one and continue adding coins to the hopper until all coins are sorted.

6. **Turn Off:** When finished, switch the unit to the "OFF" position.

MAINTENANCE

- **Cleaning:** Regularly clean the coin hopper, sorting mechanism, and collection bin to prevent dust and debris buildup, which can affect performance. Use a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Coin Condition:** Ensure coins are clean and dry before sorting. Dirty or sticky coins can cause jams and reduce sorting accuracy.
- **Storage:** Store the unit in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Coins are jamming.	Overfilling the hopper, dirty/bent coins, foreign objects.	Do not overfill the hopper. Ensure coins are clean and free of debris. Remove any bent coins or foreign objects. The anti-jam technology will attempt to clear minor jams.
Coins are not sorting correctly.	Dirty coins, worn sorting mechanism, foreign coins.	Clean coins thoroughly. Ensure only USD coins are being sorted. If issues persist, contact customer support.
Unit does not turn on.	Not plugged in, power switch off, power outage.	Check power connection. Ensure power switch is in the "ON" position. Verify power outlet is functional.
