Blufree BT601W

Blufree Floating Pool Speaker User Manual

Model: BT601W

Brand: Blufree

INTRODUCTION

The Blufree Floating Pool Speaker is a versatile and durable audio device designed for both indoor and outdoor use, especially in aquatic environments. With its IP68 waterproof rating, it can be submerged up to 3 feet for 30 minutes, making it ideal for pools, hot tubs, and showers. This portable speaker features Bluetooth 5.0 connectivity, a built-in microphone for hands-free calls, and vibrant multi-colored LED lights to enhance your listening experience.

WHAT'S IN THE BOX

- Blufree compact waterproof speaker (BT601W)
- USB charging cable
- User guide

SETUP

1. Charging the Speaker

Before first use, fully charge the speaker. Connect the provided USB charging cable to the DC Charging Port on the speaker and to a compatible USB power source. A full charge takes approximately 8 hours. The charging indicator light will provide status.

Button Function

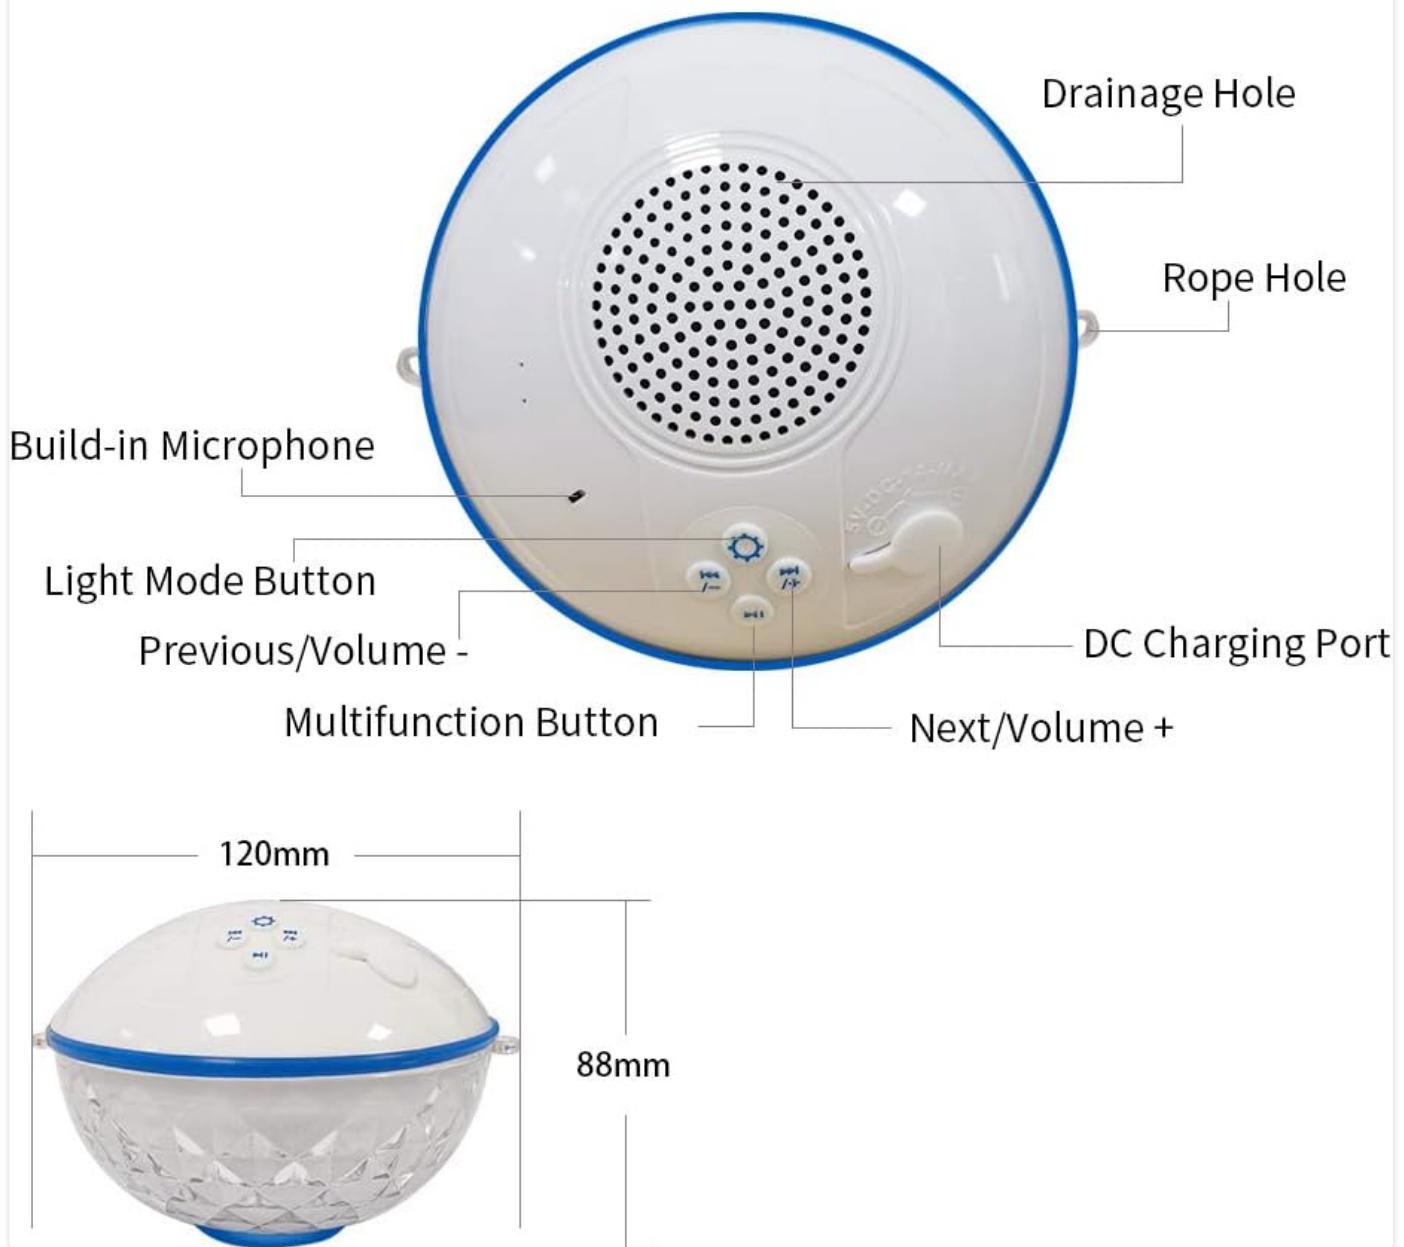

Image: A detailed diagram illustrating the various button functions and physical dimensions of the Blufree Floating Pool Speaker, including the location of the DC Charging Port.

2. Bluetooth Pairing

1. Ensure the speaker is charged and powered on.
2. Activate Bluetooth on your smartphone, tablet, or other Bluetooth-enabled device.
3. Search for "BT601W" or "Blufree Speaker" in your device's Bluetooth settings.
4. Select the speaker to pair. A confirmation sound will indicate successful pairing.

The speaker utilizes Bluetooth 5.0 technology, providing a stable wireless connection up to 15 meters (approximately 49 feet).

Hands-free Call

OPERATING INSTRUCTIONS

Power On/Off

Press and hold the Multifunction Button (usually indicated by a power icon or play/pause) to turn the speaker on or off.

Music Playback

- **Play/Pause:** Short press the Multifunction Button.
- **Next Track:** Short press the "Next/Volume +" button.
- **Previous Track:** Short press the "Previous/Volume -" button.
- **Volume Up:** Long press the "Next/Volume +" button.
- **Volume Down:** Long press the "Previous/Volume -" button.

Light Modes

Press the Light Mode Button (usually indicated by a gear or light icon) to cycle through the 7 different color changing themes and slow/fast flashing light modes. The lights can add a vibrant ambiance to your environment.

MAINTENANCE

- After use in water, wipe the speaker dry with a soft cloth.
- Ensure the charging port cover is securely closed when using the speaker near water to maintain its waterproof integrity.
- If water enters the speaker grille and muffles sound, gently shake the speaker to dislodge water and allow it to air dry.
- Store the speaker in a cool, dry place when not in use.
- Avoid exposing the speaker to extreme temperatures or direct sunlight for prolonged periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not turn on.	Low battery.	Charge the speaker fully.
Cannot pair with Bluetooth device.	Speaker not in pairing mode; device Bluetooth off; too far from speaker.	Ensure speaker is on and discoverable. Turn Bluetooth on/off on your device. Move device closer to speaker (within 15m).
No sound or muffled sound.	Volume too low; water in speaker grille; not connected.	Increase volume on speaker and device. Gently shake speaker to remove water and allow to dry. Re-establish Bluetooth connection.
Lights not working.	Light mode off; low battery.	Press the Light Mode Button. Charge the speaker.
