3. SETUP INSTRUCTIONS

1. **Attach the Wrist Rest:** The magnetic wrist rest can be easily attached to the bottom edge of the

keyboard for ergonomic support during use. Align the magnets and gently press to secure.

2. **Connect to PC:** Connect the detachable USB-C cable to the keyboard's USB-C port and the other end to an available USB port on your computer. The keyboard is plug-and-play and does not require additional drivers or software for basic functionality.

4. OPERATING INSTRUCTIONS

4.1. RGB Backlighting Control

The K-700 keyboard features 1.6 million color dynamic RGB backlighting with various lighting modes and effects. To cycle through the 5 available lighting effects, press the **FN + Space** keys simultaneously.

- Go with the stream
- The trial of Light
- Ripple Graff
- Flowers blooming
- Pass without Trace

The illumination can be completely turned off, and breathing speed is adjustable.

4.2. Macro Key Programming

The keyboard includes 11 macro keys (G1-G4, ~, T) and 4 pre-set backlight modes (M1-M4) that can be programmed. The **G1-G4** keys default as F1-F4. The globe key is mapped as an in-game map key.

How to Record Macros:

1. Press the **REC** key to enter recording mode.
2. Choose one of the Lighting modes: **M1, M2, M3, or M4**.

3. Choose one of the macro keys: **G1**, **G2**, **G3**, **G4**, **~**, or **T**.
4. Input the desired content (key sequence) to be recorded.
5. Press the **REC** key again to save the recording.

Example: To record "123" on the G1 key with lighting mode M1, follow these steps: **REC** → **M1** → **G1** → **(123)** → **REC**.

How to Delete All Macros:

To delete all programmed macros, press **FN + ESC** simultaneously and hold for 3 seconds to restore factory settings.

5. MAINTENANCE

To ensure the longevity and optimal performance of your K-700 Mechanical Gaming Keyboard, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the keyboard. For deeper cleaning, you may use a can of compressed air to remove dust and debris from between the keycaps. Avoid using harsh chemicals or abrasive materials.
- **Keycap Removal:** The keyboard features DIY OUEMU Blue switches, allowing for keycap removal for cleaning or customization. Gently pull keycaps straight up to remove them. Realign and press down firmly to reattach.
- **Cable Care:** Handle the detachable USB-C cable with care. Avoid sharp bends or excessive pulling to prevent damage.

6. TROUBLESHOOTING

- **Keyboard Not Responding:**

- Ensure the USB-C cable is securely connected to both the keyboard and your computer.
- Try connecting the keyboard to a different USB port on your computer.
- Test the keyboard on another computer to rule out system-specific issues.

- **RGB Backlighting Not Working:**

- Press **FN + Space** to cycle through lighting modes and ensure it's not turned off.
- If issues persist, try resetting the keyboard to factory settings by pressing **FN + ESC** for 3 seconds.

- **Macro Keys Not Functioning as Expected:**

- Review the macro programming instructions in Section 4.2 to ensure correct setup.
- Reset all macros to factory settings by pressing **FN + ESC** for 3 seconds, then re-program.
