Flavia Aroma Single Serve Coffee Brewer Instruction Manual

Model: 18000564

1. INTRODUCTION

Thank you for choosing the Flavia Aroma Single Serve Coffee Brewer. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new brewer. Please read it thoroughly before first use and retain it for future reference.

The Flavia Aroma brewer is designed to offer a variety of café-style beverages, including coffee, tea, latte, and hot chocolate, using Freshpacks. Its compact design makes it suitable for various environments, providing quick and convenient drinks in under 60 seconds.

2. SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the appliance:

- Read all instructions before operating the brewer.
- Do not immerse the brewer, cord, or plug in water or other liquids.
- Ensure the power cord is not damaged and is placed away from hot surfaces.
- Always unplug the brewer from the electrical outlet before cleaning or when not in use for extended periods.
- Do not operate the brewer if it malfunctions or has been damaged in any way. Contact customer support for assistance.
- Use only Flavia Freshpacks with this brewer. Using other pods or ground coffee may damage the machine and void the warranty.
- Exercise caution when handling hot beverages and hot surfaces.

3. PRODUCT OVERVIEW

Familiarize yourself with the components of your Flavia Aroma brewer.

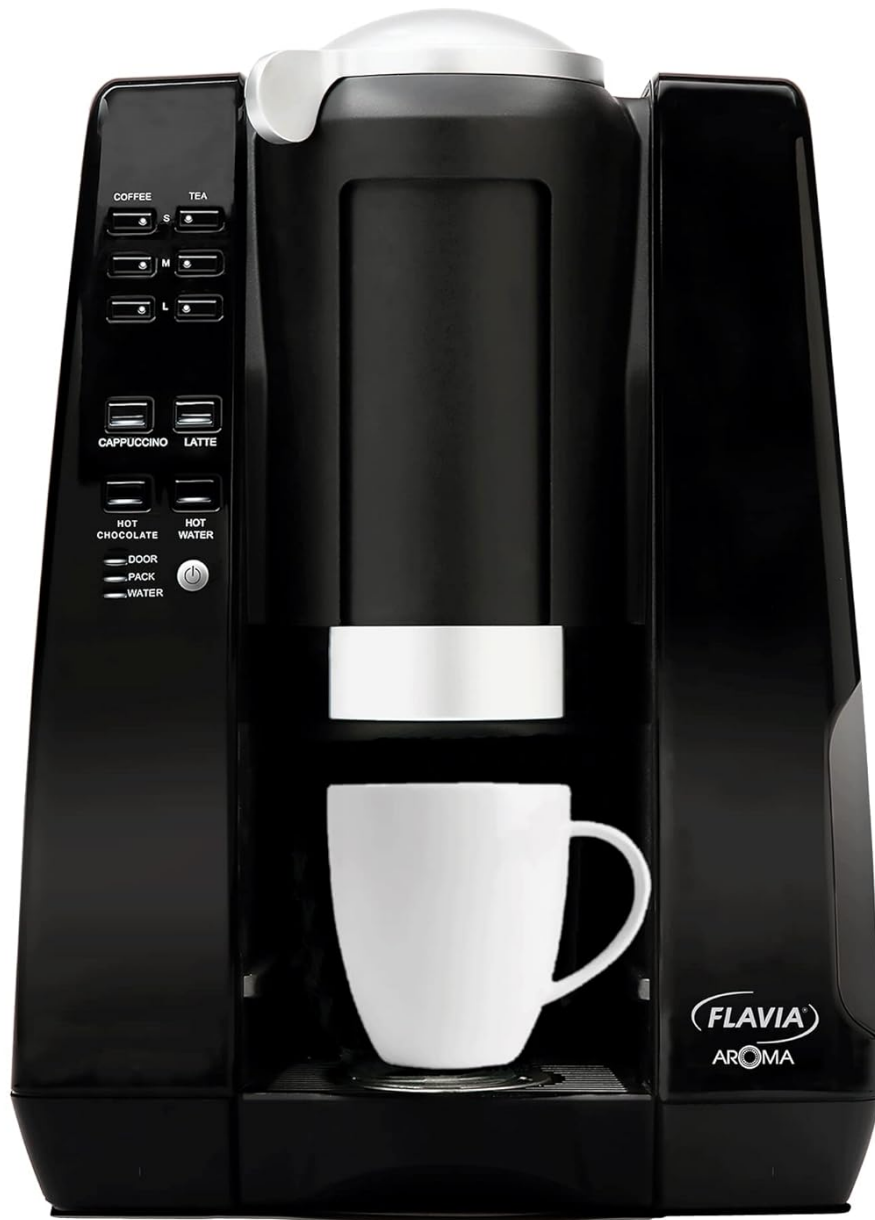

Image 3.1: Front view of the Flavia Aroma Single Serve Coffee Brewer. This image displays the main body of the brewer, including the control panel with various beverage selection buttons, the Freshpack insertion slot, the cup stand, and the drip tray.

Key Components:

- **Control Panel:** Buttons for Coffee, Tea, Cappuccino, Latte, Hot Chocolate, Hot Water, and Power.
- **Freshpack Slot:** Where the beverage Freshpack is inserted.
- **Water Tank:** Removable tank for easy filling.
- **Drip Tray:** Collects spills and can be removed for cleaning.
- **Cup Stand:** Supports your mug or cup during brewing.

4. SETUP

4.1 Unpacking

1. Carefully remove all packaging materials from the brewer.
2. Place the brewer on a stable, flat, and heat-resistant surface.

3. Ensure there is adequate space around the brewer for ventilation.

4.2 Filling the Water Tank

BREWER SPECIFICATIONS

FLAVIA® AROMA

Small Workplace Solution: <30 employees

DIMENSIONS

Height: 14.3 inches (364 mm)

Width: 10.5 inches (267 mm)

Depth: 11.6 inches (395 mm)

Out-of-Box Weight (unprimed): 11.8 lbs (5.35kg)

POWER AND WATER

Power Supply: AC 120V, 60Hz, 14 40W

Water Filter: Recommended to ensure proper performance

Water Tank Capacity: 81 fl. oz. (2.4 L)

CERTIFICATIONS

NSF Certified, ANSI 372 Certified, NAMA Listed

Image 4.1: A hand demonstrating the removal of the water tank from the side of the Flavia Aroma brewer. The tank slides out for easy access.

1. Remove the water tank from the back or side of the brewer.
2. Fill the tank with fresh, cold, filtered water up to the 'MAX' fill line.
3. Securely reattach the water tank to the brewer.

4.3 Initial Rinse Cycle

Before first use, perform an initial rinse cycle to clean the internal components.

1. Ensure the water tank is filled.
2. Place a large mug or container on the drip tray.
3. Do NOT insert a Freshpack.
4. Press the 'Hot Water' button. The brewer will dispense hot water.

5. Discard the hot water. Your brewer is now ready for use.

5. OPERATING INSTRUCTIONS

The Flavia Aroma brewer is designed for quick and easy beverage preparation.

5.1 Brewing a Beverage

Image 5.1: A hand inserting a 'Colombia Coffee' Freshpack into the designated slot of the Flavia Aroma brewer, positioned above a white mug.

1. Ensure the water tank is filled with fresh water.
2. Place your desired mug or cup on the drip tray.
3. Open the Freshpack insertion slot.
4. Insert one Flavia Freshpack into the slot. Ensure it is properly seated.
5. Close the Freshpack insertion slot.
6. Select your desired beverage type (Coffee, Tea, Cappuccino, Latte, Hot Chocolate) from the control panel.

7. The brewer will begin the brewing process, which typically takes 40-60 seconds.
8. Once brewing is complete, carefully remove your hot beverage.
9. Remove and discard the used Freshpack.

5.2 Hot Water Dispense

To dispense hot water for other uses:

1. Ensure the water tank is filled.
2. Place a mug or container on the drip tray.
3. Do NOT insert a Freshpack.
4. Press the 'Hot Water' button.
5. The brewer will dispense hot water until the button is pressed again or the water tank is empty.

6. MAINTENANCE

Regular cleaning ensures optimal performance and longevity of your brewer.

6.1 Cleaning the Drip Tray

Image 6.1: A hand removing the black drip tray from the base of the Flavia Aroma brewer, revealing the internal components of the tray.

1. Ensure the brewer is unplugged and cool.
2. Gently pull the drip tray forward to remove it.
3. Empty any collected liquid and wash the drip tray with warm, soapy water.
4. Rinse thoroughly and dry before reinserting.

6.2 Cleaning the Water Tank

1. Remove the water tank as described in Section 4.2.
2. Wash the tank with warm, soapy water and rinse thoroughly.
3. Dry completely before refilling and reattaching.

6.3 Descaling

Over time, mineral deposits can build up in the brewer, affecting performance. Descale your brewer every 3-6 months, or more frequently if you have hard water. Refer to the manufacturer's website or contact support for specific descaling instructions and recommended descaling solutions.

6.4 Water Filter

A water filter is recommended to ensure proper performance and taste. Replace the filter according to the manufacturer's guidelines.

7. TROUBLESHOOTING

If you encounter issues with your Flavia Aroma brewer, consult the following table:

Problem	Possible Cause	Solution
Brewer does not turn on	No power, power cord not plugged in, circuit breaker tripped.	Ensure brewer is plugged into a working outlet. Check circuit breaker.
Beverage not dispensing or only a partial cup	Water tank empty, Freshpack not inserted correctly, brewer needs descaling.	Refill water tank. Reinsert Freshpack. Perform descaling procedure.
Water leaking from brewer	Water tank not properly seated, drip tray full.	Ensure water tank is securely in place. Empty and reinsert drip tray.
Beverage tastes weak or unusual	Old Freshpack, brewer needs cleaning/descaling, poor water quality.	Use fresh Freshpacks. Clean and descale brewer. Use filtered water.

If the problem persists after attempting these solutions, please contact customer support.
