PowerTac E9R-G4

PowerTac E9R G4 Tactical Flashlight User Manual

Model: E9R-G4

1. INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your PowerTac E9R G4 Tactical Flashlight. Please read this manual thoroughly before operating the device and retain it for future reference.

2. PACKAGE CONTENTS

Verify that all items are present in your package:

- PowerTac E9R-G4 Rechargeable Tactical Flashlight
- Rechargeable Battery
- Magnetic USB Charge Cable
- Engineered Plastic Holster
- Spare O-Rings
- Lanyard
- Instruction Manual (this document)

3. SETUP

3.1 Battery Installation

1. Unscrew the tailcap of the flashlight counter-clockwise.
2. Insert the included Lithium-Ion rechargeable battery with the positive (+) end facing towards the head of the flashlight.
3. Screw the tailcap back on clockwise until secure.

3.2 Initial Charging

Before first use, fully charge the flashlight battery.

Dual Charging System

Magnetic & USB

Two Charging Options

Magnetic Charging

OR

USB

Image 3.1: The E9R G4 features a dual charging system, supporting both magnetic and micro-USB charging.

- **Magnetic Charging:** Attach the magnetic end of the charging cable to the magnetic charging port located on the side of the flashlight. The port will automatically align.
- **Micro-USB Charging:** Open the rubber cover on the micro-USB port and insert the micro-USB cable.

The battery status indicator will show red during charging and turn blue when fully charged.

4. OPERATION

E9R G4
FULL TACTICAL SERIES
1×18650 | 2550 lumens

LOW PROFILE OUTLINE DESIGN EASY TO OPERATE

Image 4.1: Labeled diagram of the PowerTac E9R G4 flashlight components, including the back switch, side switch, pocket clip, battery tube, micro USB charge port, magnetic charge port, and head.

4.1 Power On/Off and Mode Selection

The E9R G4 features a tail switch for main power and a side switch for mode cycling.

- **Tail Switch:**

- Half-press for momentary-on light.
- Full-press to turn the flashlight on or off.

- **Side Switch:**

- When the light is on, tap the side switch to cycle through modes: Firefly → Low → Medium → High → Turbo.
- Press and hold the side switch (while the light is off) for instant Strobe mode.

Momentary-On Tailcap + Instant Strobe - Tactical Control When Needed

Image 4.2: Demonstrates the momentary-on function of the tail switch and the instant strobe activation via the side switch.

4.2 Light Modes and Output

The E9R G4 offers 6 versatile lighting modes:

6 Versatile Modes & Tactical Controls

Engineered for Demanding Environments

MODE, Max Output Lumens, Max Output Endurance						
MODE	Firefly	Low	Medium	High	Turbo	Strobe
 Max Output Lumens	0.64 Lm	71 Lm	270 Lm	1135 Lm	2550 Lm	790 Lm
 Max Output Endurance	1200 h	20.9 h	5.7 h	2.11 h	4.81 h	3.05 h

Image 4.3: Table illustrating the 6 versatile modes, their maximum output lumens, and endurance.

Mode	Max Output Lumens	Max Output Endurance
Firefly	0.64 Lm	1200 h
Low	71 Lm	20.9 h
Medium	270 Lm	5.7 h
High	1135 Lm	2.11 h
Turbo	2550 Lm	4.81 h
Strobe	790 Lm	3.05 h

4.3 Battery Status Indicator

The side switch features an integrated LED indicator to show battery status:

- **Red:** Indicates low battery or currently charging.
- **Blue:** Indicates the battery is fully charged.

6 Light Modes & Battery Indicator

Memory Function | Charging Status

Firefly
0.64Lm

Low
71Lm

Medium
270Lm

High
1135Lm

Strobe
790Lm

Turbo
2550Lm

Battery Status Indicator

Red: Low Battery / Charging

Blue: Fully Charged

Image 4.4: The side switch illuminates red for low battery or charging, and blue for a full charge.

5. MAINTENANCE

5.1 Cleaning

Periodically clean the flashlight body and threads. Use a soft, damp cloth for the exterior. For the threads, apply a small amount of silicone grease to maintain smooth operation and waterproof sealing. Avoid using harsh chemicals or abrasive materials.

5.2 O-Ring Replacement

The E9R G4 is IPX8 waterproof. To maintain its waterproof rating, inspect the O-rings periodically for wear or damage. Replace them with the provided spare O-rings if necessary. Ensure O-rings are properly seated and lubricated with silicone grease.

5.3 Battery Care

- Always use the recommended Lithium-Ion battery.

- Avoid over-discharging the battery. Recharge when the indicator shows low battery.
- If storing the flashlight for an extended period, remove the battery or ensure it is partially charged (around 50%) to prolong its lifespan.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Low or depleted battery. Battery inserted incorrectly. Loose tailcap.	Charge the battery. Ensure battery is inserted with positive (+) end towards the head. Tighten the tailcap.
Light output is dim or flickers.	Low battery. Dirty contacts.	Recharge the battery. Clean battery contacts and flashlight contacts with a clean cloth.
Flashlight gets excessively hot.	Operating in Turbo/High mode for extended periods.	This is normal for high-output modes. Reduce to a lower brightness mode if discomfort occurs.
Charging indicator does not light up.	Charging cable not properly connected. Faulty cable or power source.	Ensure cable is securely connected to both flashlight and power source. Try a different cable or USB port.

7. SPECIFICATIONS

Ultra-Bright Tactical Flashlight with Long Throw

Max Output **2550**
Lumens

Max Throw **197**
Meters

Image 7.1: Key performance metrics of the PowerTac E9R G4, highlighting its 2550 lumens max output and 197 meters max throw.

- **Model:** E9R-G4
- **Light Source:** LED
- **Max Output:** 2550 Lumens
- **Max Throw:** 197 meters
- **Power Source:** 1 x Lithium Ion Rechargeable Battery (included)
- **Charging:** Magnetic USB Rechargeable, Micro-USB
- **Material:** Anodized Aluminum
- **Color:** Black
- **Dimensions:** 5.5" (Length) x 0.9" (Body Diameter) x 1" (Head Diameter)
- **Weight:** 9.4 ounces (with battery)
- **Water Resistance:** IPX8 (Submersible up to 2 meters)
- **Impact Resistance:** 2 meters
- **Special Features:** 6 Brightness Levels (Firefly, Low, Medium, High, Turbo, Strobe), Memory Function, Battery Status Indicator, Momentary-On Tailcap, Instant Strobe.

IPX8 Tactical Flashlight

Professional Tool for Tactical Use

Waterproof Rating

IPX8

Drop Resistance

2m

Image 7.2: The E9R G4 flashlight submerged in water, demonstrating its IPX8 waterproof rating.

8. WARRANTY

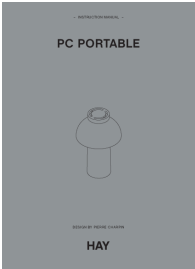

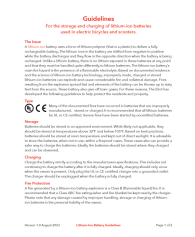

The PowerTac E9R G4 Tactical Flashlight comes with a **Lifetime Warranty**. This warranty covers manufacturing defects and ensures the product's quality and performance under normal use. For warranty claims or detailed information, please refer to the official PowerTac website or contact customer support.

9. CUSTOMER SUPPORT

For any questions, technical assistance, or support regarding your PowerTac E9R G4 Tactical Flashlight, please visit the official PowerTac website or contact their customer service department. PowerTac is committed to providing excellent customer support.
