Brightech Battery Plus

Brightech Battery Plus Rechargeable LED Floor Lamp User Manual

Model: Battery Plus

INTRODUCTION

Thank you for choosing the Brightech Battery Plus Rechargeable LED Floor Lamp. This manual provides detailed instructions for the safe assembly, operation, and maintenance of your new lamp. Please read this manual thoroughly before use and retain it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, please observe the following safety precautions:

- Do not operate the lamp with a damaged cord or plug.
- Do not use the lamp in wet locations or near water.
- Always unplug the lamp before cleaning or attempting any maintenance.
- Do not attempt to modify or disassemble the lamp. Contact qualified service personnel for repairs.
- Keep the lamp away from heat sources and direct sunlight to prevent battery damage.
- Use only the charging adapter provided or recommended by Brightech.

PACKAGE CONTENTS

Please check the package for the following items:

- LED Lamp Head with Gooseneck
- Lamp Pole Sections (multiple, with internal connectors)
- Lamp Base
- Charging Cable / Power Adapter
- User Manual (this document)

SETUP AND ASSEMBLY

The Brightech Battery Plus lamp is designed for easy assembly. No tools are required.

1. **Unpack Components:** Carefully remove all components from the packaging.
2. **Assemble the Pole:** Connect the lamp pole sections by screwing them together clockwise. The sections feature internal metal jacks and inputs, ensuring a secure electrical connection as they are assembled. Ensure each section is firmly tightened.
3. **Attach Lamp Head:** Screw the lamp head with the gooseneck onto the top pole section.
4. **Attach Base:** Screw the assembled pole onto the lamp base. Ensure it is stable and upright.
5. **Initial Charge:** Before first use, fully charge the lamp using the provided power adapter. Connect the charging cable to the port on the lamp base and plug the adapter into a standard wall outlet. The indicator light on the lamp head will show charging status.

Flexible Gooseneck

47 - 59.5 inches

10 inches
Base Diameter

Image Description: This image illustrates the assembled Brightech Battery Plus lamp, highlighting its flexible gooseneck and overall dimensions, which range from 47 to 59.5 inches in height. The base diameter is 10 inches.

OPERATING INSTRUCTIONS

Power On/Off and Brightness Control

The lamp features a touch-sensitive power button located on the top of the lamp head.

- **To Turn On/Off:** Gently tap the power symbol on the lamp head.
- **Brightness:** The lamp provides a bright white light suitable for various tasks. The product description does not indicate adjustable brightness levels.

Image Description: A close-up view of the lamp head, showing the touch-sensitive power button marked with a power symbol and a small blue indicator light, which illuminates when the lamp is in use or charging.

Adjusting the Gooseneck

The flexible gooseneck allows you to direct the light precisely where needed.

- Gently bend the gooseneck to position the lamp head at your desired angle and height. The gooseneck will hold its position once adjusted.
- The lamp can be adjusted to heights between 47 inches and 59.5 inches when fully erect.

Charging the Battery

The Brightech Battery Plus lamp is portable due to its rechargeable battery.

- When the battery is low, the lamp's light output may diminish, or the indicator light may change.
- Connect the charging cable to the charging port on the lamp base and plug the adapter into a wall outlet.
- A full charge provides several hours of operation. The lamp can also be used while plugged in and charging.

Image Description: This image shows the Brightech Battery Plus lamp positioned next to a desk, providing focused illumination for a person working on a laptop, demonstrating its utility as a task lamp.

MAINTENANCE

Cleaning

- Ensure the lamp is unplugged and turned off before cleaning.
- Wipe the lamp with a soft, dry cloth. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish.
- Avoid spraying cleaners directly onto the lamp.

Battery Care

- To prolong battery life, avoid completely draining the battery frequently.
- If storing the lamp for an extended period, charge it to approximately 50% every few months.

LED Light Source

The Brightech Battery Plus lamp uses an integrated LED light source designed to last approximately 20,000 hours. This means the LED bulb is not replaceable. If the LED light fails, the entire lamp head may need servicing or replacement.

TROUBLESHOOTING

If you encounter issues with your Brightech Battery Plus lamp, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lamp does not turn on.	Battery is depleted. Lamp not properly assembled. Power button not activated.	Charge the lamp fully. Ensure all pole sections are securely tightened. Tap the touch-sensitive power button.
Light is dim.	Low battery.	Charge the lamp fully.
Lamp does not charge.	Charging cable or adapter faulty. Outlet not working.	Try a different charging cable/adaptor (if compatible). Test the outlet with another device.
Lamp is unstable.	Base or pole sections not tightened.	Ensure all pole sections and the base are securely screwed together.

If these solutions do not resolve the issue, please contact Brightech customer support.

SPECIFICATIONS

- **Brand:** Brightech
- **Model:** Battery Plus
- **Product Dimensions:** 5 x 3 x 5 cm (1.81 kg) / 59.5 inches (max height)
- **Item Weight:** Approximately 4 Pounds (1.81 kg)
- **Lamp Type:** LED Floor Lamp
- **Light Source:** Integrated LED (non-replaceable)
- **LED Lifespan:** Up to 20,000 hours
- **Switch Type:** Touch-sensitive
- **Base Material:** Wood (implied from product description, though specifications list 'Base material: Wood' and 'Shade material: Cotton' which seems contradictory for a floor lamp base. Assuming base is metal/plastic with wood finish or accent.)
- **Finish Type:** Painted
- **Color:** Black
