

## Kasa Smart HS210

# Kasa Smart HS210 3-Way Wi-Fi Light Switch Instruction Manual

*Model: HS210*

*Brand: Kasa Smart*

---

## 1. PRODUCT OVERVIEW

The Kasa Smart HS210 3-Way Wi-Fi Light Switch simplifies the process of upgrading traditional 3-way lighting setups. It is specifically designed to work with existing 3-way wiring configurations, commonly found in areas like living rooms, hallways, or stairways where two switches control the same light fixture or series of lights. The Kasa app provides a step-by-step guide for installation and connection to your home's 2.4GHz Wi-Fi network, enabling remote control and voice command capabilities through Amazon Alexa and Google Home. This product is UL Certified, ensuring safety and reliability.

## 2. WHAT'S IN THE BOX

- One (1) Kasa Smart Light Switch (HS210)
- One (1) Wall Plate
- Two (2) Wire Nuts
- One (1) Quick Start Guide

## 3. SETUP AND INSTALLATION

**Safety First:** Before beginning any electrical work, ensure the power is turned off at the circuit breaker. If you are unfamiliar with electrical wiring, it is highly recommended to consult a licensed electrician.

## 3.1 Pre-Installation Checklist

- **Neutral Wire Required:** The Kasa Smart HS210 switch requires a neutral wire for proper operation. This is typically a white wire found in your electrical box. If no neutral wire is present, the HS210 cannot be installed in that location.
- **2.4GHz Wi-Fi Network:** A secure 2.4GHz home Wi-Fi network is necessary for the smart switch to connect and function.
- **Tools:** You will need a screwdriver, wire strippers, and a non-contact voltage detector.
- **Kasa App:** Download the Kasa or Tapo app on your Android (5.0 or higher) or iOS (10 or higher) device.

## 3.2 Step-by-Step Installation

1. **Turn Off Power:** Locate the circuit breaker controlling the light switch you intend to replace and turn off the power. Verify the power is off by attempting to flip the existing switch and ensuring the lights do not turn on.
2. **Remove Faceplate and Old Switch:** Unscrew and remove the existing faceplate. Then, unscrew the screws holding the old switch in place and gently pull it out of the wall box.
3. **Verify No Power:** Use a non-contact voltage detector to confirm that no power is going to any of the wires in the wall box.
4. **Identify and Label Wires:** Using the Kasa app's guided instructions, identify and label the wires connected to your old switch. Look for the neutral wire (usually white), the common wire (often black or labeled 'common'/'line'/'load'), and the traveler wires (the two remaining wires, usually the same color). Use the provided labels for clear identification.
5. **Take a Picture:** Before disconnecting any wires, take a clear picture of your existing wiring setup for both switches. This will serve as a reference if needed.
6. **Disconnect Old Switch:** Carefully disconnect all wires from the old switch, ensuring the labels remain attached to their respective wires.
7. **Connect New Kasa Smart Switch:** Connect the labeled wires to the corresponding terminals on the Kasa Smart HS210 switch as guided by the Kasa app. Ensure each wire is securely connected by giving it a gentle tug.
8. **Install New Switch:** Gently fold all wires back into the wall box, pushing them to the sides to make room for the HS210. Line up the mounting holes and secure the switch with screws.
9. **Attach Faceplate:** Snap the new faceplate onto the front of the HS210. If using your own faceplate, ensure it is not metallic, as metallic plates can interfere with Wi-Fi signals.
10. **Restore Power:** Turn the power back on at the circuit breaker.

Your browser does not support the video tag.

## 4. OPERATING INSTRUCTIONS

Once installed and configured via the Kasa app, your HS210 Smart Switch offers multiple ways to control your lighting.

### 4.1 App Control

Use the Kasa or Tapo app on your smartphone to turn lights on/off from anywhere, whether you are at home, in the office, or on vacation. The app also allows for advanced features like scheduling and grouping.

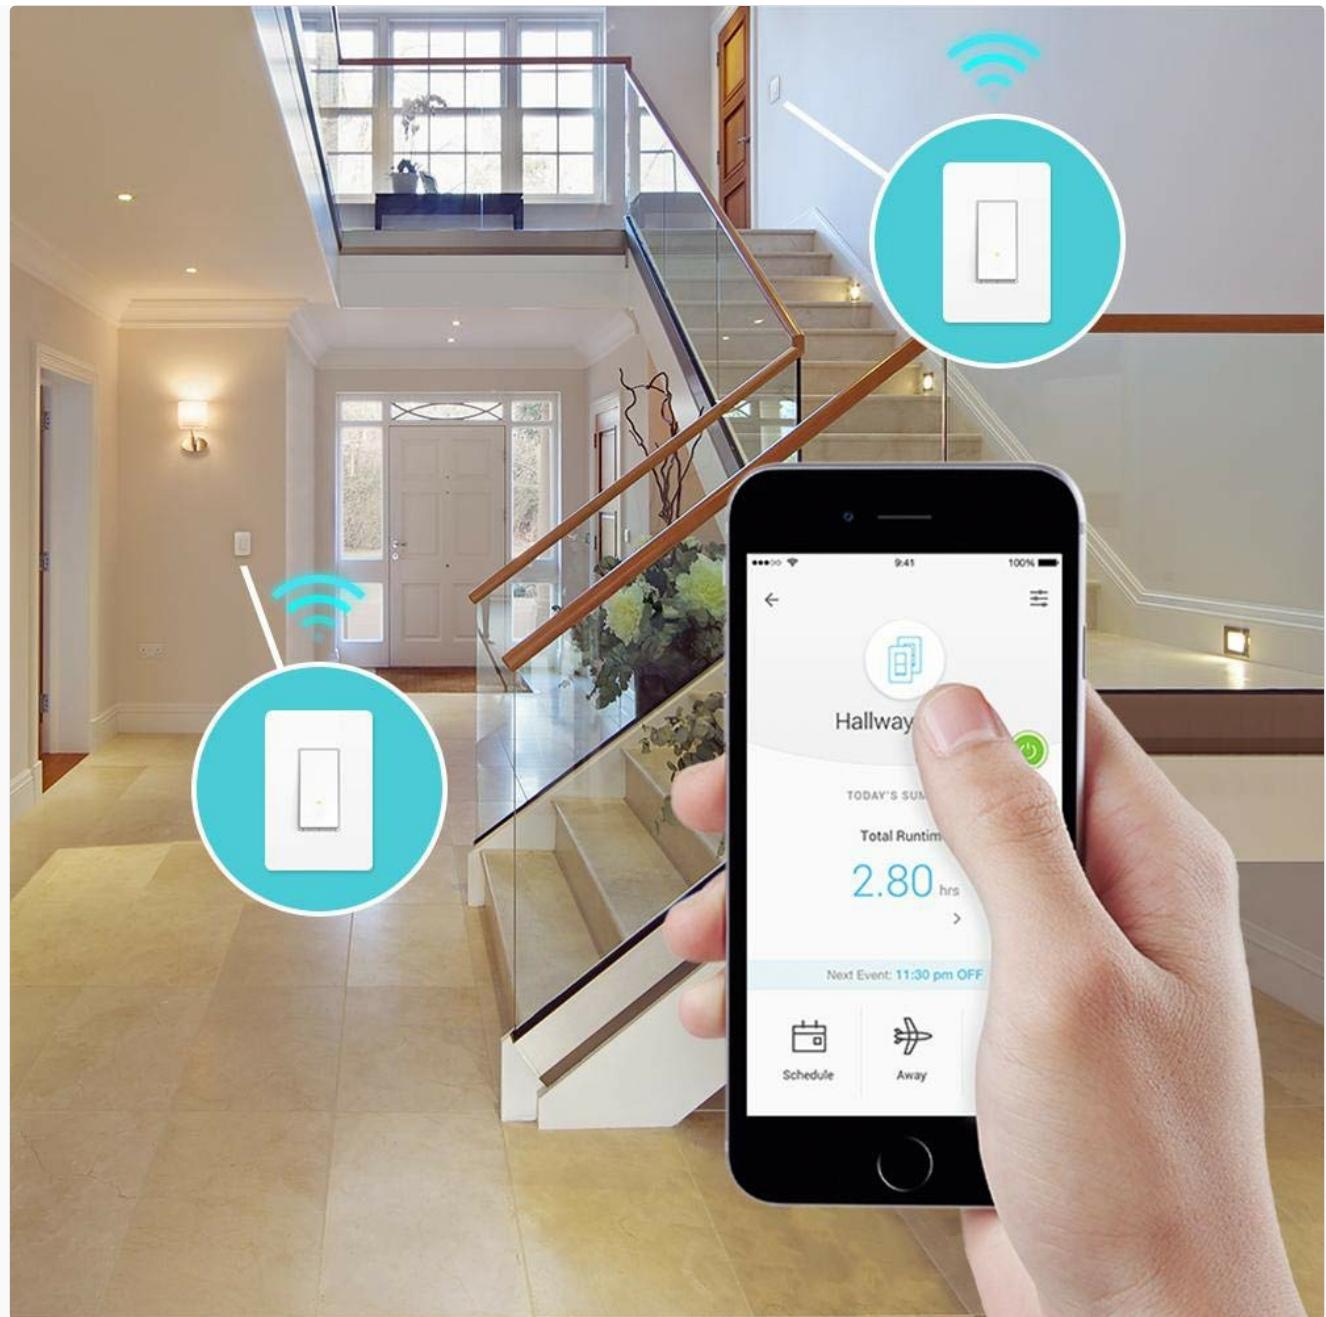

Image: A smartphone displaying the Kasa app interface, demonstrating remote control of the HS210 switch in a 3-way lighting setup.

## 4.2 Voice Control

Enjoy hands-free control by connecting your Kasa Smart Switch with Amazon Alexa or Google Assistant. Simply use voice commands to manage your lights.

# Control your switch with your voice.

Works with Amazon Alexa and Google Assistant.

Alexa, set the dinner time scene.

Alexa, goodnight.

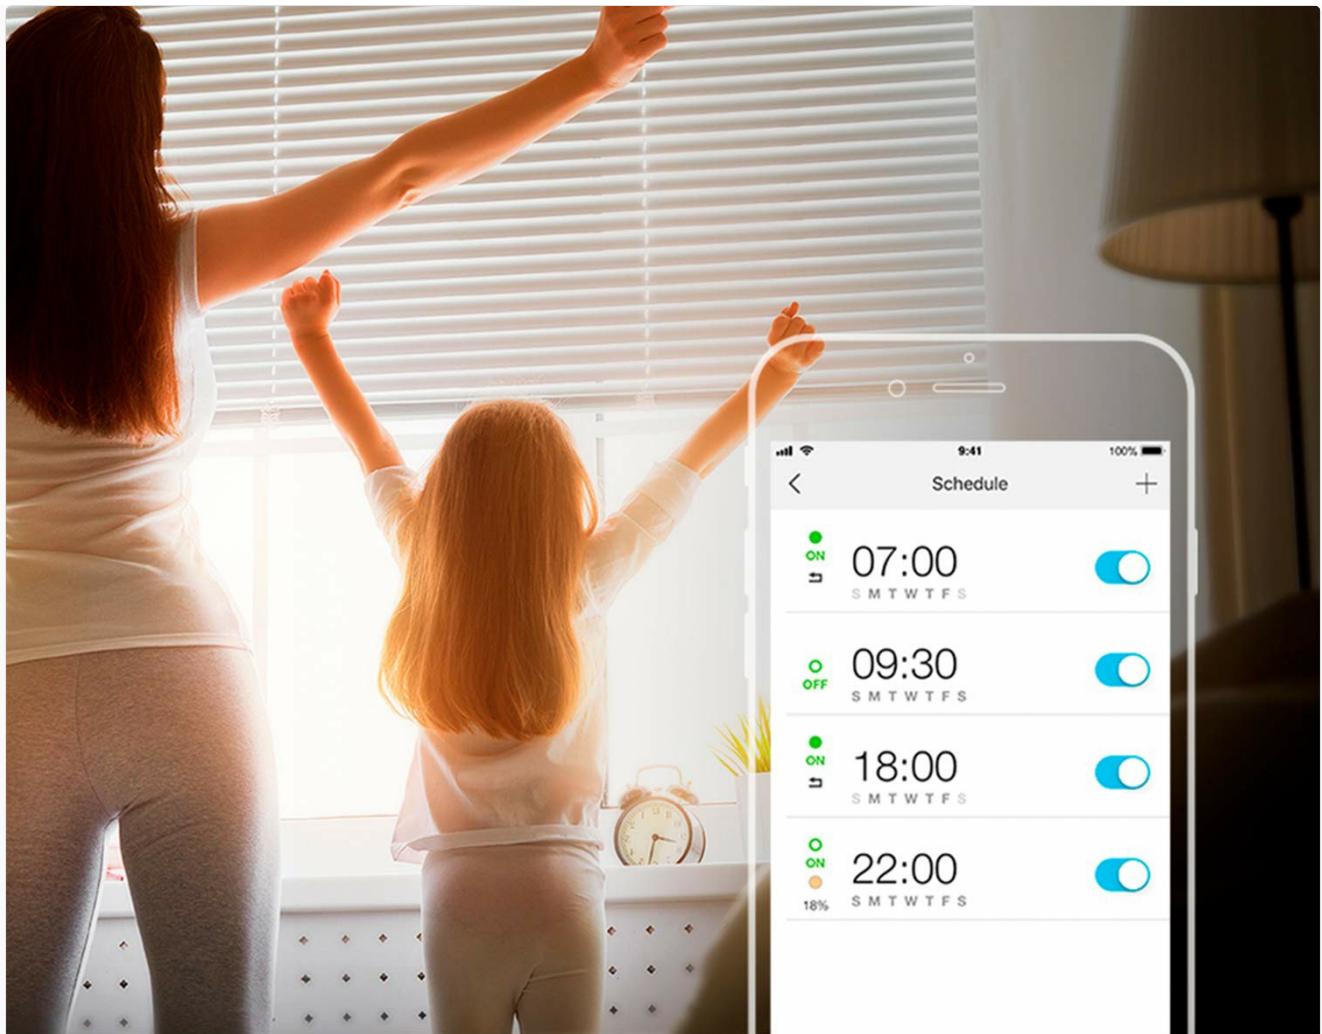

Alexa, turn on the kitchen lights.

Image: An Amazon Echo Dot device with speech bubbles showing example voice commands like "Alexa, set the dinner time scene" and "Alexa, turn on the kitchen lights."

## 4.3 Scheduling and Away Mode

Set timers or countdown schedules within the Kasa app to automatically turn your lights on and off. The 'away mode' feature can randomly switch lights on and off to create the appearance that someone is home, deterring potential intruders.

## Scheduling

Schedule your lights to turn on and off around your daily routine.

Image: A smartphone screen showing the Kasa app's scheduling interface, with options to set specific times for lights to turn on and off.

### 4.4 Grouping

Group your smart 3-way light switch with other Kasa Smart devices for seamless control with one single tap in the app.

## Grouping

Group your smart 3-way light switch with other Kasa Smart devices for seamless control with one single tap.

Image: A collage showing various lighting scenarios (pendant lights, table lamp, under-cabinet lighting) and the Kasa Smart Switch, illustrating the concept of grouping lights for unified control.

## 5. MAINTENANCE

The Kasa Smart HS210 switch requires minimal maintenance. Keep the device and its surrounding area clean and free from dust. Avoid using harsh chemicals or abrasive cleaners. Ensure the switch is not exposed to excessive moisture or extreme temperatures.

## 6. TROUBLESHOOTING

### 6.1 Connectivity Issues

- **Weak Wi-Fi Signal:** Ensure your smart switch is within a strong 2.4GHz Wi-Fi signal range. If the signal is weak, consider relocating your router or using a Wi-Fi range extender.

- **Incorrect Wi-Fi Band:** The HS210 only supports 2.4GHz Wi-Fi networks. Ensure your device is connected to the correct band.
- **Metallic Faceplates:** Avoid using metallic faceplates as they can interfere with the Wi-Fi signal.

## 6.2 Installation Issues

- **Missing Neutral Wire:** The HS210 requires a neutral wire. If your electrical box does not have one, the switch cannot be installed.
- **Power Off During Installation:** Always ensure power is completely off at the circuit breaker before handling any wiring.

## 6.3 Post-Installation Behavior

- **No Delay:** Unlike some smart plugs, the smart switches should operate with no noticeable delay when activated.
- **Power Outage:** In case of a power outage, the switch should reconnect automatically once power is restored. If not, follow the app's setup process again.

## 7. SPECIFICATIONS

Feature	Specification
Model Number	HS210
Product Dimensions	4.13 x 1.71 x 1.77 inches; 5.61 ounces
Operation Mode	ON-OFF-ON
Current Rating	15 Amps
Operating Voltage	120 Volts (AC)
Contact Type	Normally Closed
Connector Type	Clamp
Terminal	Spst
Circuit Type	3-way
Mounting Type	Wall Mount

## Dimensions

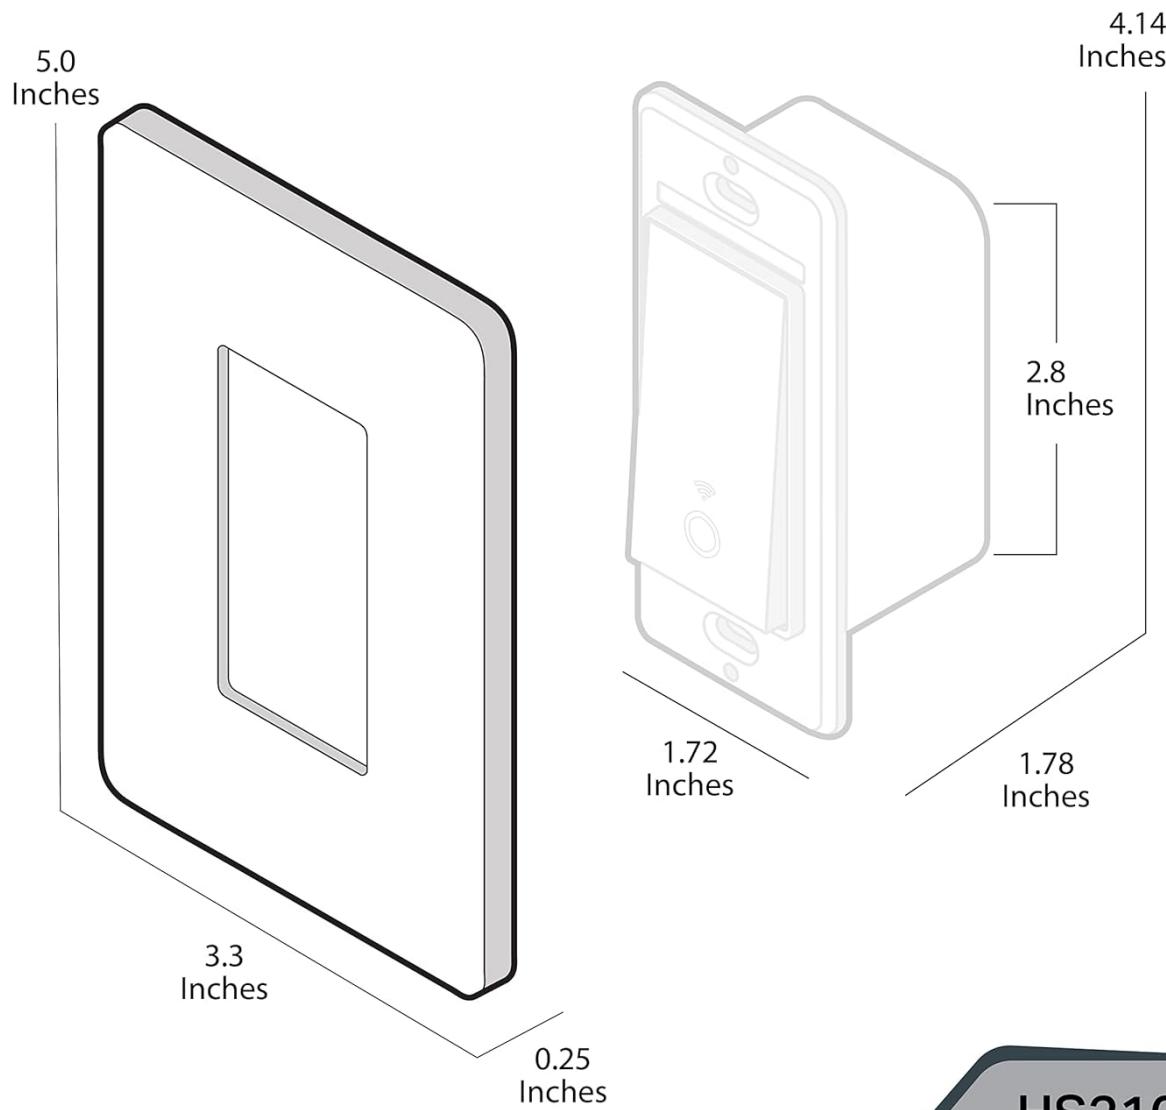

Image: Diagram illustrating the physical dimensions of the Kasa Smart HS210 switch.

## 8. WARRANTY AND SUPPORT

Kasa Smart is a trusted brand with over 9 million users, known for its rigorously tested and UL certified products. The HS210 is designed and developed in Silicon Valley, offering advanced security features.

- **Warranty:** The Kasa Smart HS210 comes with a 2-year industry-leading warranty.
- **Customer Support:** For further assistance, technical support, or warranty claims, please visit the official Kasa Smart website or contact their customer service directly.

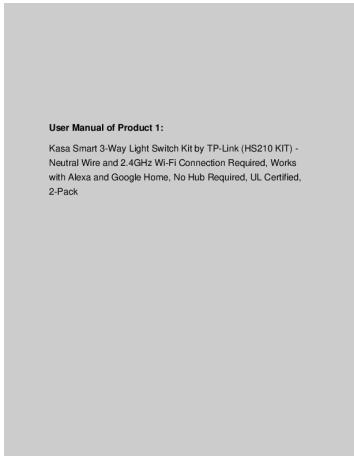

Image: Kasa Smart branding emphasizing trust, UL certification, user base, Silicon Valley design, warranty, and security.

**SAFETY FIRST**

- Read and follow all safety precautions in the Kasa app.
- Ensure power is off at the circuit breaker before removing or installing any wall switch.
- Follow all national and local safety regulations and practices. If you are uncertain or uncomfortable performing the installation, consult a qualified electrician.

**STEP 1**

**DOWNLOAD KASA**

Get the Kasa Smart app from the Apple App Store or Google Play.

**STEP 2**

**ADD TO KASA**

Tap the button in the Kasa app and select Smart Switches > Smart 3-Way Switch.

**STEP 3**

**INSTALL AND POWER UP**

Follow Kasa step-by-step instructions for wiring your Smart 3-Way Switches and connecting it to your home network.
