1. INTRODUCTION

Thank you for choosing the Kela Kaja 11788 Pepper and Salt Mill. This manual provides essential information for the safe and efficient use of your new mill. Please read these instructions carefully before first use and retain them for future reference.

The Kela Kaja 11788 is designed for grinding whole peppercorns and coarse salt, offering a fresh grind to enhance the flavor of your dishes. Its durable ceramic grinding mechanism ensures consistent performance and longevity.

2. PRODUCT FEATURES

- **Durable Ceramic Grinder:** Resists wear and corrosion, suitable for both pepper and salt without flavor transfer.
- **Adjustable Grind Size:** Easily switch between coarse and fine grinds to suit your culinary needs.
- **Quality Construction:** Crafted from natural acacia wood and ceramic for a stylish and functional design.
- **Manual Operation:** Provides a traditional and satisfying grinding experience.

3. IMPORTANT SAFETY INSTRUCTIONS

- Keep out of reach of children.
- This product is intended for grinding whole peppercorns and coarse salt only. Do not use for other spices, nuts, or seeds, as this may damage the grinding mechanism.
- Do not immerse the mill in water or other liquids. It is not dishwasher safe.
- Handle with care to avoid dropping, which could damage the wood or ceramic components.
- Ensure the mill is dry before filling with spices.

4. SETUP AND FILLING

1. **Unpack:** Carefully remove the mill from its packaging. Inspect for any damage.
2. **Clean:** Before first use, wipe the exterior with a damp cloth. Do not wash the interior with water.

3. Fill:

- Twist and pull off the top part of the mill (the cap or upper body) to expose the filling chamber.
- Pour whole peppercorns or coarse salt into the chamber. Do not overfill.
- Replace the top part of the mill, ensuring it is securely seated.

5. OPERATING INSTRUCTIONS

1. Hold the body of the mill firmly with one hand.
2. With the other hand, twist the top part of the mill clockwise. This action will activate the ceramic grinder, dispensing freshly ground spice from the bottom.
3. Continue twisting until the desired amount of spice is dispensed.

5.1 Adjusting Grind Size

The Kela Kaja 11788 mill allows you to adjust the coarseness of your grind. This adjustment is typically made via a knob or screw located at the bottom or top of the grinding mechanism.

Image: The internal ceramic grinding mechanism, showing the adjustment knob. Turning this knob allows you to select your preferred grind size.

- To achieve a **finer grind**, turn the adjustment knob (usually located at the bottom of the mill, or sometimes on the top shaft) clockwise.
- To achieve a **coarser grind**, turn the adjustment knob counter-clockwise.
- Test the grind after each adjustment until you reach your desired consistency.

6. MAINTENANCE AND CLEANING

Proper care will ensure the longevity and optimal performance of your Kela Kaja 11788 mill.

- **Exterior Cleaning:** Wipe the wooden exterior with a soft, damp cloth. Dry immediately. Do not use abrasive cleaners or immerse in water.
- **Interior Cleaning (Grinder):** For best results, grind a small amount of coarse salt through the mill to clean out any residual pepper or fine salt particles. This helps to prevent flavor transfer and keeps the ceramic mechanism clear.
- **Do NOT Dishwash:** This mill is not dishwasher safe. Exposure to water and harsh detergents can damage the wood and ceramic components.
- **Storage:** Store in a dry place away from direct sunlight and excessive humidity.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mill not grinding or grinding poorly.	Empty spice chamber, grind setting too fine, or mechanism clogged.	Refill with peppercorns/salt. Adjust grind setting to coarser. Clean the grinding mechanism (see Section 6).
Inconsistent grind.	Grind setting not properly secured or mechanism partially clogged.	Ensure adjustment knob is tightened for desired setting. Clean the grinding mechanism.
Difficulty twisting the mill.	Grind setting too fine, or foreign object lodged in mechanism.	Adjust to a coarser grind. Empty the mill and inspect the grinding mechanism for obstructions.

8. PRODUCT SPECIFICATIONS

- Model: Kaja 11788
- Brand: Kela
- Material: Acacia Wood, Ceramic Grinder
- Dimensions: Approximately ϕ 2.4 x H11.8 inches (6 x 30 cm)
- Operation: Manual
- Recommended Use: Grinding whole peppercorns and coarse salt
- Care: Hand wash exterior, do not immerse, not dishwasher safe
- Country of Origin: China
