

Biddeford Blankets 1003-903192-903

Biddeford Blankets Comfort Knit Electric Heated Blanket User Manual

Model: 1003-903192-903 (Queen, Grey)

Brand: Biddeford Blankets

INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Biddeford Blankets Comfort Knit Electric Heated Blanket. Please read all instructions carefully before use and retain this manual for future reference.

The Comfort Knit Electric Heated Blanket is designed to provide warmth and comfort. It features ultra-thin heating wires for enhanced comfort and is made from soft fleece fabric. Queen and King sizes include dual controllers for individualized heat settings.

IMPORTANT SAFETY INFORMATION

- All Biddeford Blankets are tested and approved by a 3rd party (UL or ETK Intertek) to comply with industry safety standards.
- The digital controller includes an auto-off feature and 10 heat settings.
- Do not use an extension cord or power strip with this blanket. Plug directly into a wall outlet.
- Always disconnect and remove controllers before washing or drying the blanket.
- Ensure the blanket is not folded, bunched, or tucked in when in use, as this can cause overheating.
- Do not use with infants, children, incapacitated persons, or persons insensitive to heat.

SETUP INSTRUCTIONS

1. **Unpack the Blanket:** Carefully remove the blanket and controllers from the packaging.
2. **Position the Blanket:** Lay the heated blanket flat on your bed, ensuring it is spread evenly without any folds or wrinkles. The connector for the controller should be positioned near the head of the bed.

3. **Connect the Controller(s):** For Queen size blankets, there are two controllers. Locate the connector(s) on the blanket. Align the arrows on the controller connector with the arrows on the blanket's module, and firmly plug in until they securely lock.
4. **Plug into Power:** Plug the power cord(s) from the controller(s) directly into a 120V AC wall outlet. Do not use extension cords or power strips.

OPERATING INSTRUCTIONS

1. **Turn On:** Press the 'ON' button on the analog controller. The display will illuminate, showing the current heat setting.
2. **Adjust Heat Setting:** Rotate the dial on the controller to select your desired heat level from 1 (low) to 10 (high).
3. **Pre-Heat Function:** Some models may include a pre-heat option to quickly warm the blanket before use. Refer to your specific controller for this feature.
4. **Automatic Shut-Off:** The blanket is equipped with an automatic 10-hour shut-off feature for safety and peace of mind.
5. **Turn Off:** To turn off the blanket, rotate the dial to the 'OFF' position or press the 'OFF' button if available. Unplug the blanket from the wall outlet when not in use.

MAINTENANCE

Your Biddeford Electric Heated Blanket is designed for easy care.

- **Disconnect Controllers:** Always ensure all controllers are disconnected and removed from the blanket before washing or drying.
- **Machine Washable:** The blanket is machine washable. Use a gentle cycle with cold water.
- **Dryer Safe:** The blanket is dryer safe. Tumble dry on a low heat setting. Avoid high heat to prevent damage to the internal wiring.
- **Do Not Iron:** Do not iron the electric blanket.
- **Do Not Dry Clean:** Do not dry clean the electric blanket.

TROUBLESHOOTING

If your electric heated blanket is not functioning as expected, please review the following common issues before contacting customer support:

- **No Heat:** Ensure the power cord is securely plugged into a working wall outlet and the controller is firmly connected to the blanket. Check if the auto-off feature has activated.
- **Uneven Heat:** Ensure the blanket is spread flat on the bed and not bunched or folded, which can interfere with heat distribution.
- **Controller Display Not Working:** Verify power connection. If the issue persists, try unplugging and

re-plugging the blanket.

- **Blanket Feels Too Hot/Cold:** Adjust the heat setting on the controller to your preferred comfort level. Remember that individual heat perception can vary.

If these steps do not resolve the issue, please refer to the warranty section for contact information.
