

XZENT X-F270

Xzent X-F270 Infotainer User Manual

2-DIN Media Center for Fiat Ducato, Multimedia with 8" Touchscreen

1. PRODUCT OVERVIEW

The Xzent X-F270 is a high-end multimedia receiver designed for seamless integration into Fiat Ducato, Citroen Jumper, and Peugeot Boxer vehicles. It features an 8-inch capacitive touchscreen, dual DAB+ tuner, FM radio, Bluetooth connectivity, and multiple media inputs, making it an ideal infotainment solution for campers and RVs.

Figure 1: Front view of the Xzent X-F270 Infotainer.

2. KEY FEATURES

- **High-End Multimedia Receiver:** Equipped with dual DAB+ tuner, FM car radio, Bluetooth for hands-free calling and music streaming.
- **Extensive Connectivity:** Designed for iPod/iPhone, includes two USB ports, HDMI input, and two camera inputs.
- **Vehicle Compatibility:** Perfectly integrates with Fiat Ducato III (250/251) models from 2006 onwards, Citroen Jumper II (250/250D/250 L) from 2006, and Peugeot Boxer II (250/252) from 2006.
- **Expandable Navigation:** Can be expanded into a fixed-installation navigation system for motorhomes with the separately available X-MAP27MH1 navigation package (ASIN B085996VLN). This package includes maps for 47 EU countries, 6.5 million POIs, and a camping database, allowing for vehicle profile selection.
- **AndroidLink Function:** Connect Android smartphones via USB to mirror screen content onto the infotainment display, enabling comfortable use of applications, including navigation apps, via the touchscreen.
- **Optimized Integration:** The device's fit and amber key illumination are perfectly matched to the cockpit of compatible vehicles. Features special functions for motorhomes.

3. WHAT'S IN THE BOX

The Xzent X-F270 package includes:

- Xzent X-F270 Infotainer Unit
- Necessary installation accessories for Fiat Ducato, Citroen Jumper, and Peugeot Boxer vehicles.
- User Manual (this document)

4. SETUP AND INSTALLATION

Installation of the Xzent X-F270 should ideally be performed by a qualified professional due to the complexity of vehicle electronics. Ensure the vehicle's battery is disconnected before beginning any installation work.

4.1 Pre-Installation Checks

- Verify compatibility with your vehicle model (Fiat Ducato III, Citroen Jumper II, Peugeot Boxer II).
- Ensure all components listed in the 'What's in the Box' section are present.

4.2 Wiring and Connections

The X-F270 features various connections for optimal functionality:

- **Power and Speaker Connections:** Connect the main power harness to the vehicle's wiring according to the provided wiring diagram. Ensure correct speaker polarity.
- **Antenna Connections:** Connect the FM/AM antenna and the DAB+ antenna (if applicable). For optimal DAB+ reception, ensure the antenna is correctly installed and positioned.
- **USB Ports:** Two USB ports are available for media playback and AndroidLink functionality.
- **HDMI Input:** For connecting external video sources.
- **Camera Inputs:** Supports two camera inputs, typically for front and rear view cameras.

Figure 2: Rear view and connections of the Xzent X-F270.

4.3 Mounting the Unit

The X-F270 is designed for a perfect fit in compatible vehicle dashboards. Secure the unit using the provided mounting brackets and screws. Ensure it is firmly seated and does not obstruct any vehicle controls or vents.

Figure 3: Xzent X-F270 installed in a vehicle dashboard.

5. OPERATING INSTRUCTIONS

The X-F270 features an intuitive 8-inch capacitive touchscreen interface for easy operation.

5.1 Basic Navigation

The main screen provides quick access to key functions such as Navigation, Radio, USB, and Bluetooth. Tap the desired icon to enter the respective mode.

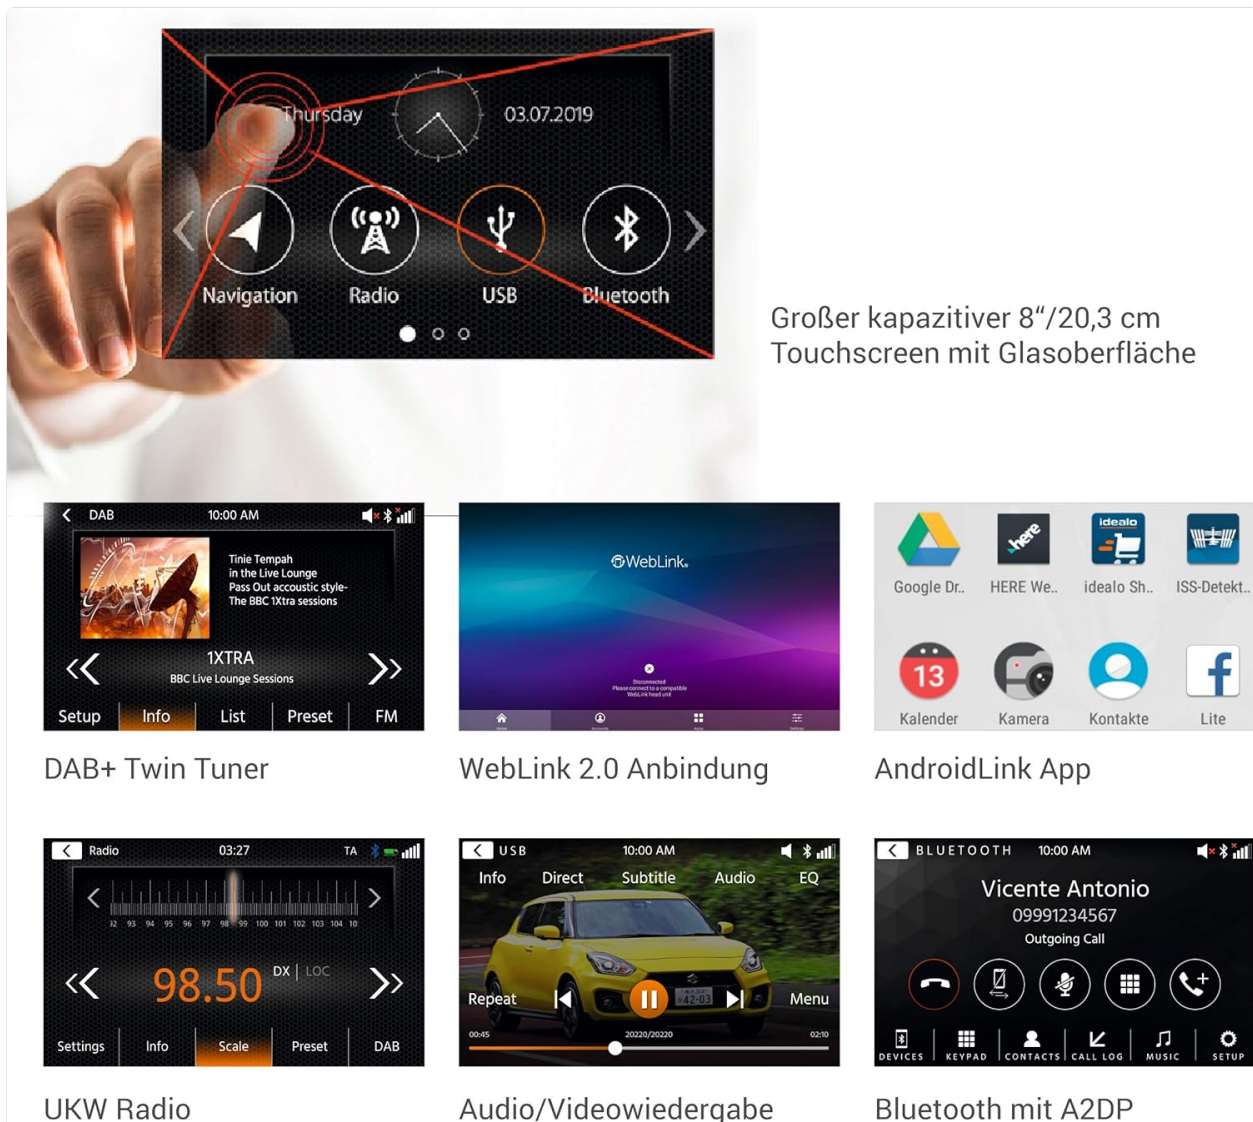

Figure 4: X-F270 touchscreen interface with various function icons.

5.2 Radio Operation (DAB+ / FM)

- **DAB+:** Select the DAB+ icon to access digital radio. Use the scan function to find available stations. Stations are typically listed by name.
- **FM:** Select the FM icon for analog radio. Tune manually or use the auto-scan feature to find and save stations.

5.3 Bluetooth Connectivity

Pair your smartphone to the X-F270 via Bluetooth for hands-free calling and audio streaming.

1. Go to the Bluetooth menu on the X-F270.
2. Enable Bluetooth on your smartphone and search for available devices.
3. Select "X-F270" from the list on your phone and confirm the pairing code if prompted.
4. Once paired, you can make/receive calls and stream music from your phone.

5.4 USB Media Playback

Connect a USB drive to one of the USB ports to play audio or video files. The unit supports various formats including H.264, H.265/HEVC, and MPEG-4 for video.

5.5 AndroidLink Function

Connect your Android smartphone via USB to mirror its screen content. This allows you to control compatible

apps, including navigation, directly from the X-F270's touchscreen.

5.6 Navigation (with optional X-MAP27MH1)

If the X-MAP27MH1 navigation package is installed, access the navigation system via the dedicated icon. The system offers:

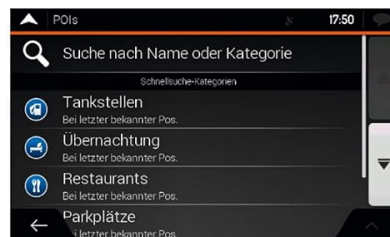

- Detailed maps for 47 EU countries.
- 6.5 million Points of Interest (POIs).
- Camping database for RV-specific navigation.
- Vehicle profile selection for optimized routing based on vehicle dimensions and weight.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Xzent X-F270.

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn marks, slightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.

- **General Cleaning:** Keep the unit free from dust and debris. Use a soft brush or compressed air to clean around buttons and vents.
- **Software Updates:** Check the official Xzent website periodically for firmware updates. Keeping the software updated can improve performance and add new features.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

7. TROUBLESHOOTING

If you encounter issues with your Xzent X-F270, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit is slow, lags, or freezes.	Temporary software glitch, excessive background processes, outdated firmware.	Restart the unit (turn off vehicle ignition and restart). Check for and install any available firmware updates. If persistent, a factory reset might be necessary (consult advanced settings).
GPS signal loss or slow navigation.	Poor GPS antenna connection, obstructed view of the sky, outdated map data (if navigation package installed).	Ensure GPS antenna is properly connected and has a clear view. Update navigation maps if applicable. Drive to an open area to re-acquire signal.
Screen fogging or condensation.	Rapid temperature changes, high humidity.	Ensure proper vehicle ventilation. The fogging should dissipate as the cabin temperature stabilizes. If persistent, consult a professional.
Mixed languages in menus (e.g., French and German).	Incomplete language pack, software bug.	Check language settings in the system menu and ensure English is selected. Perform a firmware update if available.
Automatic page changes or unexpected behavior.	Touchscreen calibration issue, software glitch, external interference.	Clean the touchscreen thoroughly. Restart the unit. If the issue persists, a factory reset or professional inspection may be required.
Muffled sound or Bluetooth audio issues.	Incorrect audio settings, poor Bluetooth connection, faulty wiring.	Check audio settings (equalizer, balance). Re-pair Bluetooth device. Inspect speaker wiring connections.
Rearview camera not activating or displaying.	Incorrect wiring, camera fault, system setting.	Verify camera wiring and connections. Check camera settings in the unit's menu. Ensure the vehicle is in reverse gear (if automatic activation is set).

If the problem persists after attempting these solutions, please contact Xzent customer support or a certified

service center.

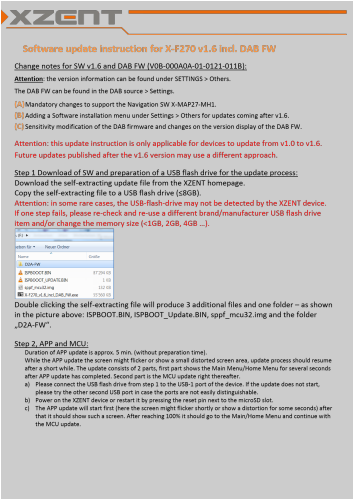

8. SPECIFICATIONS

Feature	Detail
Brand	XZENT
Model Number	X-F270
Color	Black
Screen Size (Diagonal)	8 Inches / 20.3 cm
Connectivity Technology	Bluetooth, HDMI, USB
Connector Type	HDMI, USB
Total HDMI Ports	2
Special Features	DAB, RDS
