Sintron SD-E01-WH

Sintron Wall Mount Holder for Echo Dot 3rd Gen and Google Home Mini

Brand: Sintron | **Model:** SD-E01-WH

Introduction

The Sintron Wall Mount Holder is designed to seamlessly integrate your Echo Dot 3rd Generation or Google Home Mini into any room. This accessory provides a clutter-free solution by securely mounting your smart speaker to a wall outlet, eliminating messy cables and freeing up counter space. Its design ensures optimal sound projection and voice command reception while maintaining a clean aesthetic.

Product Features

- **Speaker Compatibility:** Specifically designed for Google Home Mini and Echo Dot 3rd Generation speakers.
- **Cord Organization:** Features built-in cable management to conceal unsightly, tangled cords, promoting a neater appearance.
- **Hassle-Free Installation:** Requires no drilling or screws. The smart speaker is securely clipped and enclosed within the case, making installation effortless.
- **Versatile Placement:** Suitable for various locations including bathrooms, kitchens, garages, and other rooms.
- **Unobstructed Sound:** Designed to securely fasten your speaker without compromising audio quality or voice communication.
- **Space-Saving:** Frees up valuable counter and table space.

Package Contents

- 1 x Sintron Wall Mount Holder (White)

Note: The Echo Dot 3rd Generation or Google Home Mini device and its power adapter are not included.

Setup and Installation

Follow these steps to install your Sintron Wall Mount Holder and integrate your smart speaker:

1. **Check Compatibility:** Ensure your speaker is an Echo Dot 3rd Generation or Google Home Mini. The mount is designed to fit these models perfectly.

5. **Connect Speaker:** Plug the short end of the power cable into your Echo Dot 3rd Generation or Google Home Mini.

6. **Secure Speaker:** Gently push your smart speaker into the circular opening of the mount until it clicks securely into place. Ensure the speaker's controls are accessible and the sound is unobstructed.

Operation

Once installed, your smart speaker will function as usual. The mount is designed to keep the speaker's microphones and speakers unobstructed, ensuring clear audio output and accurate voice command recognition. Simply interact with your device as you normally would.

Maintenance

- To clean the mount, gently wipe it with a soft, dry cloth.
- Avoid using abrasive cleaners or solvents, as these may damage the finish.
- Ensure the mount is unplugged from the wall outlet before cleaning.

Troubleshooting

- **Speaker not fitting securely:** Double-check that you have an Echo Dot 3rd Generation or Google Home Mini. Ensure the speaker is aligned correctly with the mount's opening and pressed firmly until it clicks.
- **Cables are still visible/messy:** Re-evaluate the cable winding process. Ensure all excess cable is neatly wrapped

around the internal spool as shown in the installation steps.

- **Mount feels loose in the outlet:** Ensure the mount is fully inserted into a standard, functional wall outlet. If the outlet itself is loose, it may require professional inspection.
- **Sound quality is affected:** Verify that the speaker is correctly positioned within the mount and that no part of the mount is covering the speaker's grille or microphones.
