vidaXL 284688

User Manual

vidaXL Metal Bed Frame, Black, 180x200 cm

PRODUCT OVERVIEW

This vidaXL metal bed frame, model 284688, is designed for a 180 x 200 cm mattress. It features a timeless design with a solid and robust construction made from high-quality metal. The lacquered frame is resistant to impacts and scratches, ensuring durability. The metal slats are slightly flexible and form a comfortable base for your mattress. Please note that this product includes only the bed frame; the mattress is not included.

SAFETY WARNINGS

When assembling, mounting, and maintaining this bed frame, please observe the following critical precautions:

- Do not exceed the maximum recommended weight capacity of **200 kilograms**. Overloading can compromise the structural integrity and lead to injury.
- Handle all metal parts with extreme care to avoid the risk of cuts from sharp edges. It is recommended to wear protective gloves during assembly.

- Ensure correct and complete assembly according to the instructions to guarantee the stability and safety of the bed. Regularly check all connections for tightness.

SETUP AND ASSEMBLY

Assembly of the vidaXL metal bed frame requires careful attention to detail. While specific step-by-step instructions are typically provided in the product packaging, here are general guidelines and important considerations:

1. **Unpack Components:** Carefully unpack all parts and lay them out on a clean, soft surface to prevent scratches. Verify that all components listed in the included parts list are present.
2. **Identify Parts:** Familiarize yourself with each part, referring to the assembly diagram. Components are often labeled for easier identification.
3. **Assemble Frame Sections:** Begin by connecting the main frame sections, such as the headboard, footboard, and side rails. Ensure all bolts are securely tightened, but do not overtighten until the entire frame is loosely assembled.
4. **Install Slats:** Once the main frame is stable, install the metal slats. These are designed to be slightly flexible and provide support for your mattress. Ensure they are correctly seated in their designated slots or attached as per instructions.
5. **Final Tightening:** Once all parts are in place and the frame is upright, go back and fully tighten all bolts and connections. This ensures the bed's stability and prevents creaking.
6. **Placement:** Position the assembled bed frame in your desired location, ensuring it is level and stable on the floor.

OPERATING INSTRUCTIONS

The vidaXL metal bed frame is designed for straightforward use as a stable support for your mattress. No complex operation is required.

- **Mattress Placement:** Carefully place your 180 x 200 cm mattress onto the assembled bed frame. Ensure it is centered and fully supported by the metal slats.
- **Weight Distribution:** Distribute weight evenly across the bed frame. Avoid concentrating heavy loads on small areas, especially when getting on or off the bed.
- **Movement:** When moving the bed frame, it is recommended to lift it rather than drag it to prevent damage to the frame or your flooring. If moving a significant distance, disassemble the frame to prevent structural stress.

MAINTENANCE

Regular maintenance will help prolong the life and maintain the stability of your vidaXL metal bed frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the lacquered finish. Dry thoroughly after cleaning.
- **Tighten Connections:** Periodically (e.g., every 3-6 months) check all bolts and screws for tightness. Over time, connections can loosen, leading to instability or creaking. Tighten them as needed.
- **Inspect Slats:** Inspect the metal slats for any signs of bending, damage, or displacement. Ensure they are all securely in place and providing adequate support.
- **Avoid Excessive Moisture:** While the frame is lacquered, prolonged exposure to excessive moisture should be avoided to prevent rust.

TROUBLESHOOTING

If you encounter issues with your bed frame, consider the following common troubleshooting steps:

Problem	Possible Cause	Solution
Bed frame creaks or wobbles	Loose bolts or connections; uneven floor.	Tighten all bolts and screws. Ensure the bed is on a level surface; use shims if necessary.
Mattress sags or feels unsupported	Damaged or displaced slats; incorrect mattress size.	Inspect all metal slats for damage or if they have come out of their slots. Reposition or replace damaged slats. Verify mattress dimensions match the frame (180 x 200 cm).
Difficulty during assembly	Incorrect part orientation; missing hardware.	Refer to the assembly manual's diagrams. Ensure parts are oriented correctly. Check all packaging for small hardware. Contact customer support if parts are genuinely missing.

SPECIFICATIONS

Attribute	Detail
Brand	vidaXL
Model Number	284688
Color	Black
Material	Metal
Overall Dimensions (L x W x H)	209 x 187 x 84 cm (82.3 x 73.6 x 33.1 inches)
Compatible Mattress Size (L x W)	200 x 180 cm (78.7 x 70.9 inches)
Bed Height from Ground	32.5 cm (12.8 inches)
Item Weight	18.8 kg (41.4 lbs)
Maximum Weight Capacity	200 kg (440 lbs)
Special Features	Durable, Solid, Stable
