Sauder 425109

Sauder Summit Station Dresser Instruction Manual

Model: 425109 | Brand: Sauder

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Sauder Summit Station Dresser. Designed to offer ample storage space, this 6-drawer dresser features smooth metal runners and a spacious top surface. The Laurel Oak finish complements various interior styles, making it a versatile addition to any bedroom or living area.

SAFETY INFORMATION

Always follow safety guidelines during assembly and use to prevent injury or damage. Ensure the unit is placed on a level surface. For added safety, some Sauder units include an interlocking safety mechanism to prevent tip-overs. Always attach the back panel squarely to ensure stability and proper drawer alignment.

WARNING: Do not stand your unit upright without the back attached. The unit may collapse. A properly attached back will assure squareness, stability, and strength of your unit.

PACKAGE CONTENTS

Verify that all components and hardware are present before beginning assembly. Refer to the included parts list in your assembly instruction booklet for a complete inventory. If any parts are missing or damaged, contact Sauder customer support.

SETUP AND ASSEMBLY

Assembly is required for this product. Follow the steps below carefully. It is recommended to have a second person assist with assembly for easier handling and to prevent damage.

1. Assembling a T-Lock Box Drawer

This video demonstrates the process of assembling a T-Lock box drawer, ensuring proper fit and function.

OPERATING INSTRUCTIONS

Your Sauder Summit Station Dresser is designed for ease of use with smooth-gliding drawers. Here are some tips for optimal operation:

1. Drawer Adjustment Using Slides with Cams

If your drawers are not aligning perfectly, this video provides instructions on how to adjust them using the cam mechanism on the slides.

Your browser does not support the video tag.

Video: Drawer Adjustment Using Slides with Cams. This video shows how to fine-tune drawer alignment for smooth operation.

2. Interlock Safety System

For added safety, some Sauder units feature an interlocking safety mechanism that allows only one drawer to open at a time, helping to prevent tip-overs. You may notice a clicking noise when opening and closing drawers; this is normal operation of the interlocking safety mechanism.

Your browser does not support the video tag.

Video: Interlock Safety System. This video explains how the interlock safety system works to prevent multiple drawers from opening simultaneously.

MAINTENANCE

To maintain the appearance and longevity of your Sauder Summit Station Dresser, wipe it with a damp cloth as needed. Avoid using harsh chemicals or abrasive cleaners, which can damage the Laurel Oak finish. Regularly check all fasteners and tighten them if necessary to ensure continued stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Drawers do not close smoothly or are misaligned.	Improperly adjusted drawer slides or loose back panel.	Refer to "Drawer Adjustment Using Slides with Cams" video. Ensure back panel is securely attached and unit is square.
Unit wobbles or is unstable.	Uneven floor or loose adjustable feet.	Adjust the adjustable feet to level the unit. Ensure all assembly fasteners are tightened.
Clicking noise when opening/closing drawers.	Normal operation of the interlock safety system.	No action required. This is a safety feature.
