4. MAINTENANCE

Proper care will ensure the longevity and appearance of your collectible figure.

Cleaning:

- Wipe the figure gently with a dry, soft, lint-free cloth to remove dust.
- For stubborn dirt, lightly dampen a cloth with plain water. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the paint or plastic.

Storage:

- Store the figure away from direct sunlight, which can cause fading or discoloration.
- Avoid extreme temperatures and high humidity.
- If storing for extended periods, consider returning the figure to its original packaging or a protective display case to prevent dust accumulation and damage.

5. TROUBLESHOOTING

Here are solutions to common issues you might encounter with your action figure.

Issue	Solution
Stiff Joints	Gently warm the stiff joint using warm (not hot) water or a hairdryer on a low setting for a few seconds. This can help soften the plastic and allow for easier movement. Exercise caution to avoid overheating.
Loose Joints	For slightly loose joints, apply a very small amount of clear nail polish or a specialized joint tightener to the peg or ball joint. Allow it to dry completely before moving the joint. Repeat if necessary.

Issue	Solution
Accessories Not Fitting	Ensure the accessory is aligned correctly with the peg or slot. If it's a tight fit, gently warm the receiving hole on the figure with warm water or a hairdryer on low to slightly expand the plastic. Do not force accessories.
