LEVOIT Core 300

LEVOIT Core 300-P Air Purifier

USER MANUAL

Introduction

The LEVOIT Core 300-P Air Purifier is designed to provide clean, fresh air in your home, effectively removing allergens, pet hair, dust, smoke, and odors. Featuring a powerful 56W High-Torque Motor and a 3-in-1 filtration system, it is AHAM VERIFIDE for proven performance and energy efficiency. Its compact and quiet design makes it ideal for various rooms, ensuring a healthier living environment.

The LEVOIT Core 300-P Air Purifier, a compact and efficient device for improving indoor air quality.

What's Included

- 1 x LEVOIT Core 300-P Air Purifier
- 1 x Pre-Installed Original Filter
- 1 x User Manual
- 1 x Quick Start Guide

Setup

Before first use, ensure the air purifier is placed on a firm, level surface with at least 6 inches (15 cm) of clearance from walls or furniture. Verify that the filter is correctly installed. The unit comes with a pre-installed original filter. Simply plug the power cord into a grounded electrical outlet.

Operating Instructions

Controls Overview

The control panel on top of the air purifier allows for easy operation. It features buttons for power, fan speed, sleep mode, timer, and a filter replacement indicator.

Detailed view of the intuitive control panel, showing fan speed, timer, sleep mode, and filter indicator.

Power On/Off

Press the power button () to turn the air purifier on or off.

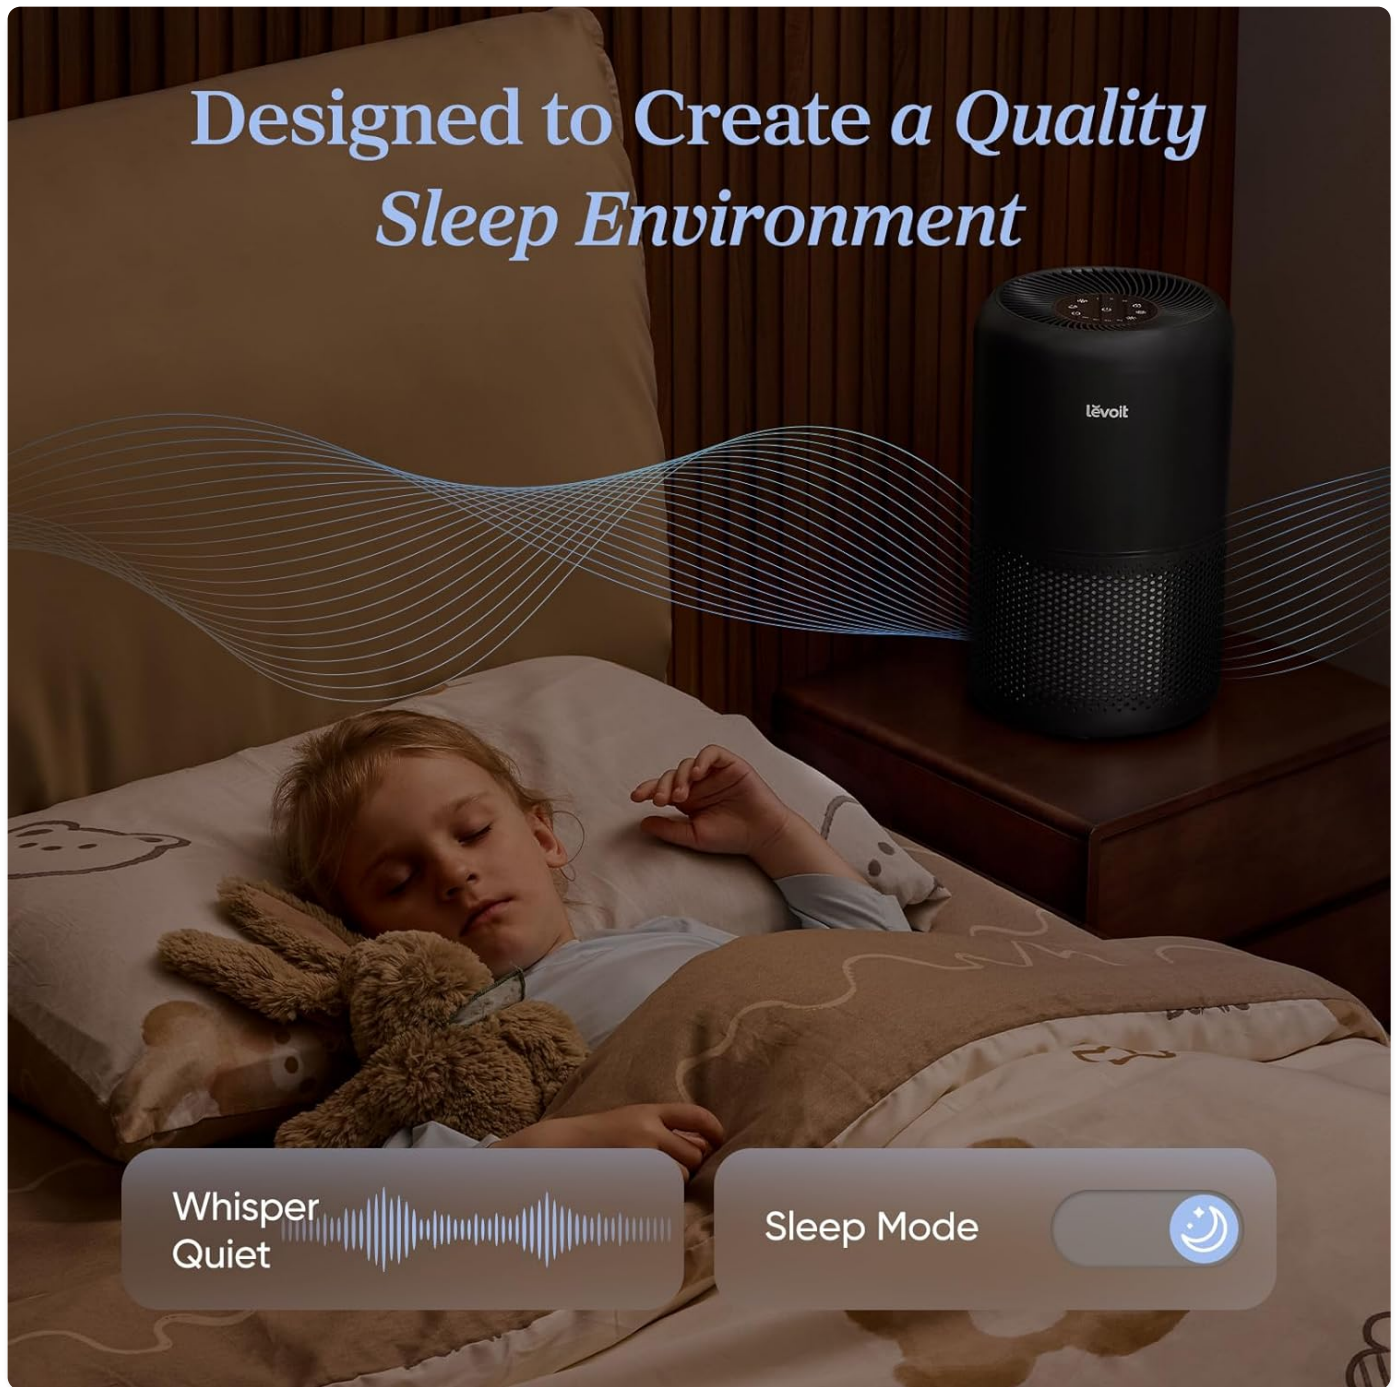

Fan Speed Adjustment

Press the fan speed button () repeatedly to cycle through fan speeds: I (low), II (medium), III (high). The current speed is indicated by illuminated bars.

Sleep Mode

Activate Sleep Mode () for quiet operation, ideal for nighttime use. In this mode, the fan operates at its lowest setting

(24dB) and display lights are dimmed or turned off.

The air purifier operating in Sleep Mode, designed for a quiet and undisturbed night's rest.

Timer Function

Use the timer button (⌚) to set the air purifier to run for 2, 4, 6, or 8 hours before automatically turning off.

Display Off

Press the display off button (⌘ with a slash) to turn off all display lights for an undisturbed environment, especially at night.

Maintenance and Filter Replacement

Filter Life Indicator

The filter replacement indicator () will illuminate red when it's time to replace the air filter. This typically occurs every 6-8

months, depending on usage and air quality.

Replacing the Filter

1. Unplug the air purifier.
2. Turn the unit upside down.
3. Twist the filter cover counter-clockwise to unlock and remove it.
4. Remove the old filter.
5. Insert the new LEVOIT filter.
6. Replace the filter cover and twist clockwise to lock it.
7. Plug in the air purifier and reset the filter indicator by pressing and holding the filter button for 3 seconds.

Choosing Replacement Filters

LEVOIT offers various specialized replacement filters to meet specific purification needs:

- **Original Filter:** Standard 3-in-1 filter for general air purification.
- **Toxin Absorber Filter:** Specializes in removing smog, toxins, and VOCs.
- **Smoke Remover Filter:** Addresses smoke from wildfires, cigarettes, and other particulates.
- **Pet Allergy Filter:** Captures pet fur and absorbs unpleasant odors.

Troubleshooting

If your LEVOIT Core 300-P Air Purifier is not functioning as expected, please refer to the following common issues:

- **Unit not turning on:** Ensure the power cord is securely plugged into a working outlet. Check if the filter cover is properly locked.
- **Reduced airflow or unusual noise:** The filter may be clogged. Check the filter life indicator and replace the filter if necessary. Ensure there are no obstructions around the air inlet or outlet.

- **Poor air quality:** Verify that the correct filter type is installed for your needs. Ensure the unit is running at an appropriate fan speed for the room size.

For more detailed troubleshooting or persistent issues, please contact LEVOIT Customer Support.

Product Specifications

Specification	Detail
Model Number	Core 300
Brand	LEVOIT
