## 2. PRODUCT FEATURES

- **Multi-device Connection:** Reliable connectivity via Bluetooth 3.0, Bluetooth 4.0, and 2.4G USB receiver. Switch freely between up to 4 devices.

- **Ultra-thin Keyboard:** The keyboard is only 4.0mm thick, featuring a stainless steel base, precise scissor key structure, and floating chic buttons for a stylish and durable design.
- **Multi-functional Wireless Mouse:** Equipped with 8 custom buttons and 4 adjustable DPI settings (600/1200/1600/3200) to meet various precision requirements. The laser engine mouse with PTFE foot pad is suitable for various surfaces without a mouse pad.

## 3. SETUP

### 3.1. Battery Installation (Keyboard)

The keyboard requires 2 AA batteries (included). To install, slide open the battery compartment cover located on the underside of the keyboard. Insert the batteries according to the polarity markings and close the cover securely.

### 3.2. Charging (Mouse)

The mouse features an eco-friendly rechargeable battery. Connect the provided USB charging cable to the mouse's charging port and to a USB power source (e.g., computer USB port, USB wall adapter). The mouse can be used while charging.

### 3.3. Connection Methods

Your RAPOO combo supports three connection modes: Bluetooth 3.0, Bluetooth 4.0, and 2.4G wireless via

USB receiver. You can pair up to 4 devices simultaneously.

## 2.4G Wireless Connection

For 2.4G wireless connection, plug the USB receiver into an available USB port on your computer. The keyboard and mouse should automatically connect. This mode offers stable wireless transmission with minimal interference.

## Bluetooth Connection (3.0 & 4.0)

To connect via Bluetooth:

1. On the keyboard, locate the connection switch on the back. Slide it to one of the Bluetooth channels (1, 2, or 3).
2. Press and hold the 'Connect' button on the keyboard until the Bluetooth indicator light starts flashing blue.
3. On the mouse, press the DPI button to cycle through profiles (1, 2, or 3) until the desired Bluetooth profile is selected. Press and hold the profile button until the indicator light flashes.
4. On your device (computer, tablet, smartphone), enable Bluetooth and search for new devices.
5. Select 'RAPOO KB' for the keyboard and 'RAPOO Mouse' for the mouse from the list of available devices to complete pairing.

This video demonstrates the unboxing, battery installation, connection process for both keyboard and mouse, and switching between multiple devices.

## 4. OPERATING INSTRUCTIONS

### 4.1. Switching Between Devices

Once paired with multiple devices, you can easily switch between them using the dedicated buttons on both the keyboard and mouse.

- Keyboard:** Use the connection switch on the back to select the desired channel (1, 2, 3 for Bluetooth, 2.4G for USB receiver).
- Mouse:** Press the profile button on the top of the mouse to cycle through the paired devices.

## Multi Device Keyboard and Mouse

Start typing on your computer, then switch and type on your phone or tablet at the touch of a key. Any USB-equipped or Bluetooth Smart ready device that supports an external keyboard.

Figure 7: Seamless switching between multiple devices

### 4.2. Mouse DPI Adjustment

The mouse offers 4 adjustable DPI settings (600/1200/1600/3200) for varying cursor speeds and precision. Use the DPI button on the mouse to cycle through these settings.

### 4.3. Programmable Buttons

The mouse features 8 customizable buttons. Utilize the accompanying software (if available from Rapoo's official website) to assign specific functions to these buttons for enhanced productivity.

## 5. MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the keyboard and mouse. Avoid using harsh chemicals or abrasive materials.
- Battery Replacement (Keyboard):** Replace the 2 AA batteries when the keyboard's indicator light signals low power.
- Charging (Mouse):** Recharge the mouse battery when the indicator light shows low power.
- Storage:** Store the combo in a cool, dry place away from direct sunlight and extreme temperatures.

## 6. TROUBLESHOOTING

- No Connection:** Ensure batteries are correctly installed and charged. Verify the USB receiver is properly plugged in. For Bluetooth, ensure the device's Bluetooth is enabled and the pairing process is correctly followed. Try re-pairing the devices.
- Lag or Intermittent Connection:** Ensure the devices are within the effective range (typically 10 meters). Minimize interference from other wireless devices.
- Mouse Not Tracking:** Check the mouse's laser sensor for obstructions. Ensure the surface is clean and suitable for laser tracking.
- Keys Not Responding:** Check keyboard batteries. Ensure the correct device channel is selected.

## 7. SPECIFICATIONS
