Proscenic 808C

Proscenic 808C Smart Humidifier User Manual

Model: 808C

Introduction Safety Instructions Package Contents Product Overview Setup Operation Maintenance Troubleshooting Specifications Support

1. Introduction

Thank you for choosing the Proscenic 808C Smart Humidifier. This device is designed to improve air quality and comfort in your home, baby room, or office by maintaining optimal humidity levels. It features a large 5.3L capacity, app and remote control, a 360° rotating nozzle, and an essential oil diffuser. Please read this manual thoroughly before use to ensure safe and efficient operation.

2. Important Safety Instructions

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Do not place the humidifier on soft surfaces or near heat sources.
- Always unplug the humidifier before cleaning, refilling, or moving it.
- Do not immerse the humidifier base in water or other liquids.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent mineral buildup.
- Do not add essential oils directly into the water tank. Use the designated essential oil box.
- Keep out of reach of children and pets.
- Ensure the power cord is not damaged or pinched.
- Do not block the mist outlet.

3. Package Contents

Verify that all items are present in the package:

- Proscenic 808C Smart Humidifier
- Power Cord
- Cleaning Brush
- User Manual
- Remote Control (with 1 AAA battery included)

4. Product Overview

Familiarize yourself with the components of your Proscenic 808C Humidifier.

Figure 4.1: Front view of the Proscenic 808C Smart Humidifier, showcasing its sleek design, LED display, and integrated touch controls.

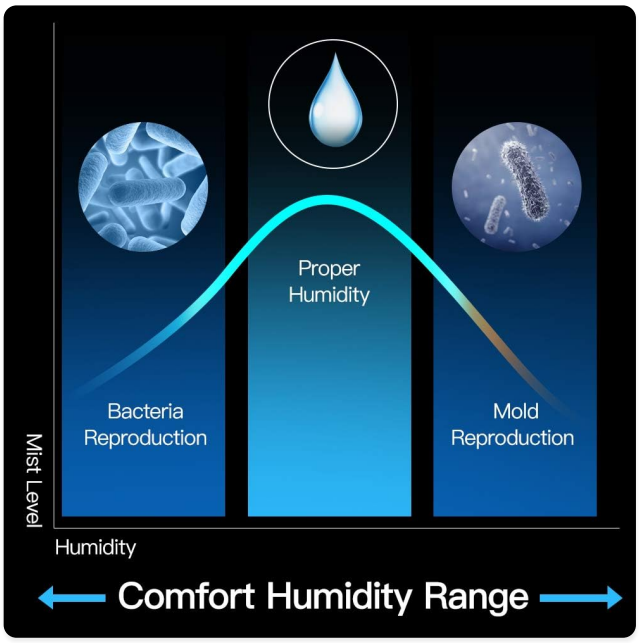

Figure 4.2: Close-up of the essential oil box, located on the

side of the humidifier, designed for adding aromatherapy oils.

Main Components:

- **Mist Nozzle:** 360° rotatable for directing mist.
- **Water Tank:** 5.3L capacity for extended operation.
- **LED Display & Touch Control Panel:** For manual settings and status display.
- **Essential Oil Box:** Dedicated compartment for aromatherapy.
- **Base Unit:** Contains the ultrasonic transducer and heating element.

5. Setup

5.1 Initial Preparation

1. Unpack the humidifier and all accessories.
2. Remove any packaging materials, including the plastic bag from the HEPA filter (if present).
3. Place the humidifier on a firm, flat, waterproof surface at least 6 inches (15 cm) away from walls and appliances.

5.2 Filling the Water Tank

1. Remove the water tank from the base.
2. Unscrew the tank cap and fill the tank with clean, cool water. Do not exceed the MAX fill line.
3. Screw the tank cap back on tightly.
4. Place the water tank back onto the base, ensuring it is seated correctly.

5.3 Power Connection

Plug the power cord into a suitable electrical outlet. The humidifier will enter standby mode.

6. Operating Instructions

6.1 Control Panel & Display

The LED display shows current humidity and temperature. Touch-sensitive buttons allow for various settings.

Figure 6.1: The humidifier's control panel and a representation of the Proscenic Home app interface for smart control.

- **Power Button:** Turns the humidifier ON/OFF.
- **Mode Button:** Cycles through different operating modes (e.g., Auto, Baby, Sleep).
- **Heating Button:** Activates warm mist function.
- **Plasma Button:** Activates the anion mode for air purification.
- **Humidity Button:** Sets desired humidity level (e.g., 40% - 90% RH).
- **Timer Button:** Sets an operating timer (e.g., 1-12 hours).
- **Mist Level Adjustment:** Use the left/right arrows to adjust mist output (7 speeds).

6.2 Remote Control

The included remote control allows you to operate all functions of the humidifier from a distance.

6.3 App Control (Proscenic Home App)

Download the Proscenic Home app from your smartphone's app store. Follow the in-app instructions to pair your humidifier. The app allows for:

- Remote ON/OFF control.
- Adjusting humidity levels and mist output.
- Selecting operating modes (Auto, Baby, Sleep).
- Setting schedules and timers.
- Monitoring current room temperature and humidity.

6.4 Operating Modes

Figure 6.2: The humidifier's capability to produce both warm and cool mist, offering versatile comfort options.

Figure 6.3: The humidifier displaying the 'BABY' mode, which automatically sets an appropriate humidity level for infants and activates anion mode.

- **Warm Mist:** Activates a heating element to produce warm mist, which can be more comfortable in colder environments.
- **Cool Mist:** Produces cool mist for general humidification.

- **Baby Mode:** Automatically sets the humidity level suitable for a baby's environment and activates the anion function for enhanced air quality. The display light dims for night use.
- **Auto Mode:** The humidifier will automatically adjust mist output to maintain a preset humidity level.
- **Sleep Mode:** Dims the display lights and operates quietly.

6.5 Essential Oil Diffusion

To use the aromatherapy function:

1. Pull out the essential oil box located on the side of the humidifier.
2. Add a few drops of your preferred essential oil onto the aroma pad.
3. Slide the essential oil box back into place.
4. The mist will now carry the fragrance into the room.

Caution: Do not add essential oils directly into the water tank, as this can damage the unit and void the warranty.

7. Maintenance

Regular cleaning is essential for optimal performance and hygiene.

7.1 Daily Maintenance

- Empty and rinse the water tank and water basin daily.
- Refill with fresh water.

7.2 Weekly Cleaning

1. Unplug the humidifier.
2. Remove the water tank and empty any remaining water.
3. Clean the water tank and water basin with a soft brush and mild detergent. Rinse thoroughly.
4. To remove mineral buildup (scale), fill the water basin with 1 cup of white vinegar and let it soak for 20 minutes. Gently scrub with the cleaning brush. Rinse thoroughly to remove all vinegar odor.
5. Clean the mist nozzle and essential oil box with a damp cloth.
6. Ensure all parts are dry before reassembling.

7.3 Storage

When not in use for an extended period, clean the humidifier as described above, ensure all parts are completely dry, and store it in a cool, dry place.

8. Troubleshooting

Refer to the following table for common issues and their solutions.

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
No mist or low mist output	Low water level Mineral buildup on transducer Mist nozzle blocked	Refill water tank Clean the transducer with vinegar solution Check and clear the mist nozzle
Unusual odor	Stale water Dirty water tank/basin	Empty and clean the tank and basin thoroughly Use fresh water daily
Humidifier not turning on	No power Water tank not properly seated	Check power connection Ensure water tank is correctly placed on the base
App connectivity issues	Incorrect Wi-Fi password Humidifier too far from router App not updated	Verify Wi-Fi credentials Move humidifier closer to router Update Proscenic Home app

9. Specifications

Feature	Detail
Brand	Proscenic
