Highwild D- 55 Gallon Barrel Mounting Kit

Highwild Deer Feeder 55-Gallon Barrel Kit

Model: D- 55 Gallon Barrel Mounting Kit

Brand: Highwild

INTRODUCTION

Thank you for choosing the Highwild Deer Feeder 55-Gallon Barrel Kit. This kit provides the essential components to construct a robust and reliable deer feeder using your own 55-gallon barrel. Designed for durability and ease of use, this kit helps you create an effective feeding station for deer.

Package Contents

- 1x Barrel Band Leg Mounting Kit
- 1x Steel Lid
- 1x Galvanized Feeder Funnel
- Full set of Hardware

Note: A 55-gallon barrel and pipe legs (recommended 1 1/4" ID or larger) are NOT INCLUDED with this kit and must be sourced separately.

SAFETY GUIDELINES

Please read and understand all safety information before assembling and using the product. Failure to follow these instructions may result in injury or damage to the product.

- **Hand Injury Prevention:** The brim of the lid is designed with a curly edge to prevent hand injury during handling and use. Always handle components carefully.

- **Stable Placement:** Ensure the assembled feeder is placed on a stable, level surface to prevent tipping, especially when filled with feed.
- **Proper Assembly:** Follow all assembly instructions carefully. Do not use the product if any parts are damaged or missing.

ASSEMBLY INSTRUCTIONS

This section outlines the steps to assemble your Highwild Deer Feeder Kit. Ensure you have a suitable 55-gallon barrel and pipe legs ready before beginning.

Figure 2: Components of the Highwild Deer Feeder Kit.

1. **Identify Components:** Unpack all components and identify the steel lid, galvanized feeder funnel, barrel band leg mounting kit, and hardware. Refer to Figure 2.
2. **Attach Feeder Funnel:** Secure the galvanized feeder funnel to the bottom opening of your 55-gallon barrel using the provided hardware. Ensure it is centered and tightly fastened to prevent feed leakage.
3. **Install Barrel Band Leg Mounting Kit:** Position the barrel band leg mounting kit around the lower section of the 55-gallon barrel. The long bolts are adjustable to fit various barrel sizes. Tighten the bolts securely to ensure a snug fit around the barrel.
4. **Attach Pipe Legs (Not Included):** Insert your chosen pipe legs (recommended 1 1/4" ID or larger) into the designated mounts on the barrel band. Secure them firmly according to the leg manufacturer's instructions.
5. **Place Lid:** Once the barrel is upright and stable on its legs, place the steel lid securely on top of the barrel.
6. **Final Check:** Verify that all connections are tight and the feeder is stable before filling with feed.

OPERATING YOUR FEEDER

Once assembled, your Highwild Deer Feeder is ready for use.

- **Filling:** Remove the steel lid and fill the 55-gallon barrel with your desired deer feed. Ensure the feed is suitable for the feeder's funnel spout diameter (2.2").
- **Placement:** Position the feeder in an appropriate location for deer, ensuring it is stable and accessible for refilling.
- **Monitoring:** Regularly check the feed level and refill as needed.

CARE AND MAINTENANCE

Proper care will extend the life of your Highwild Deer Feeder Kit.

- **Cleaning:** Periodically clean the feeder funnel and barrel interior to prevent mold or feed buildup. Use mild soap and water, then rinse thoroughly and allow to dry completely before refilling.
- **Durability:** The all-metal structure is designed for durability. Inspect components regularly for any signs of wear or damage.
- **Storage:** For long-term storage, the kit components can be disassembled for compact storage and easy transportation. Store in a dry place to prevent rust.

TROUBLESHOOTING

If you encounter issues with your feeder kit, consider the following:

- **Feed Flow Issues:** Ensure the feeder funnel is clear of obstructions. Check that the feed type is not too large or clumpy for the funnel spout.
- **Instability:** Verify that the barrel band is securely tightened around the barrel and that the pipe legs are properly installed and stable on the ground.
- **Lid Fit:** Ensure the lid is properly seated on the barrel to protect feed from elements and pests.

PRODUCT SPECIFICATIONS

Feature	Specification
Brand	Highwild
Model	D- 55 Gallon Barrel Mounting Kit
Target Species	Deer
Recommended Use	Feeding Station
Material	Alloy Steel, Metal
Special Feature	Durable
Mounting Type	Freestanding (with user-supplied legs)
Funnel Diameter	22 inches
Funnel Depth	7.3 inches
Funnel Spout Diameter	2.2 inches
Product Dimensions (Kit)	22"L x 22"W x 7.3"H
Capacity (Barrel)	55 Gallons
UPC	708111224413
