KEY SMART KS411-TRK-USS

KeySmart Pro User Manual

Model: KS411-TRK-USS | Brand: KEY SMART

PRODUCT OVERVIEW

The KeySmart Pro is a compact key organizer designed to streamline your everyday carry. It integrates smart technology, including Tile™ tracking, to help you locate your keys and phone. Additionally, it features a built-in LED flashlight and a bottle opener for added utility. This Star Trek The Original Series edition combines practical functionality with a unique design.

FEATURES

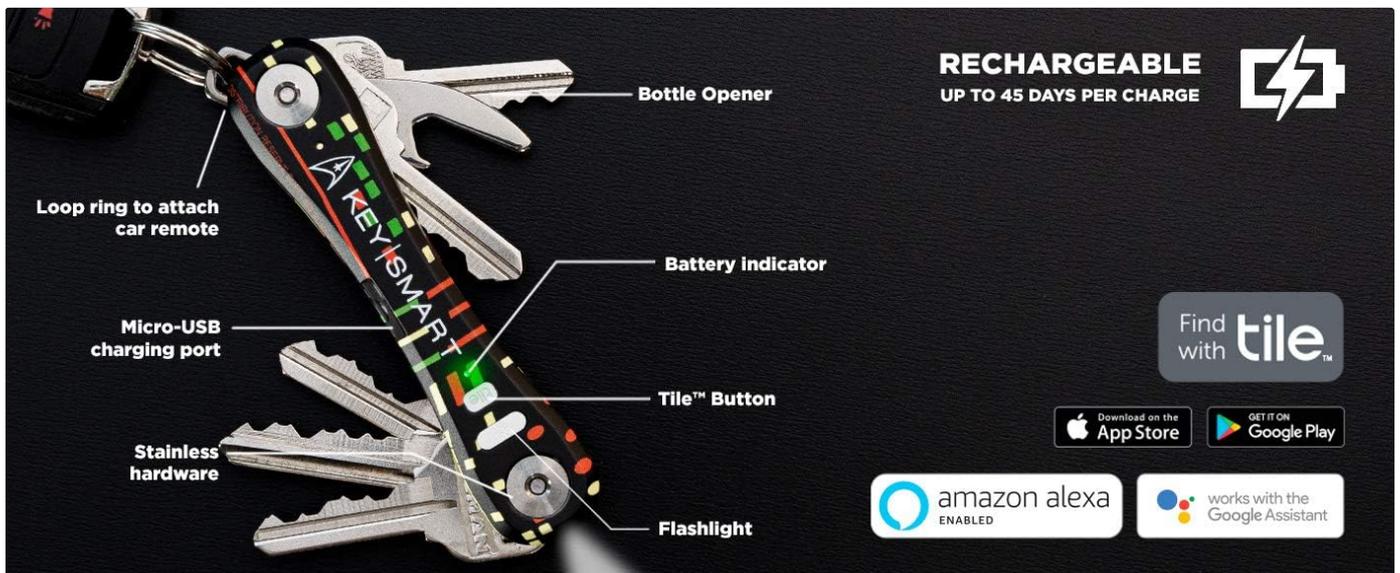

Image: Diagram highlighting the KeySmart Pro's features, including the bottle opener, loop ring for car remote, micro-USB charging port, stainless hardware, battery indicator, Tile™ button, and flashlight.

- **Compact Key Organization:** Holds up to 14 keys in a sleek, quiet profile.
- **Tile™ Smart Location:** Find your keys on a map using the free Tile™ app, or make them ring when nearby.
- **Phone Finder:** Double-press the Tile™ button on your KeySmart Pro to make your phone ring, even on silent.
- **Built-in LED Flashlight:** Provides convenient illumination in low-light conditions.
- **Bottle Opener:** Integrated accessory for opening bottles.
- **Rechargeable Battery:** Long-lasting battery, rechargeable via micro-USB.
- **Durable Construction:** Made from polycarbonate material.

SETUP GUIDE

1. Adding Your Keys

1. Unscrew the two screws on the KeySmart Pro using a coin or a flathead screwdriver.
2. Separate the top and bottom plates.
3. Place your keys onto the posts, ensuring they lie flat and are stacked neatly. You can use the included spacers to fill any gaps and ensure a snug fit.
4. Realign the top plate and screw the posts back together securely. Do not overtighten.
5. Attach your car key fob or larger accessories to the polished loop.

Image: A visual comparison showing a bulky traditional keychain with multiple keys and a car fob on the left, versus the compact KeySmart Pro with a car fob on the right, held in hands.

2. Connecting to the Tile™ App

1. Download the free Tile™ app from the App Store (iOS) or Google Play Store (Android) on your smartphone.
2. Open the Tile™ app and create an account or log in.
3. Follow the in-app instructions to add a new Tile. The KeySmart Pro has an integrated Tile.
4. Press the Tile™ button on your KeySmart Pro to activate it and pair with your phone.
5. Once paired, you can use the app to locate your KeySmart Pro or use the KeySmart Pro to find your phone.

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

Using the LED Flashlight

Press the small button located near the LED light to turn the flashlight on or off. The light is useful for finding keyholes in the dark or for quick illumination.

Using the Bottle Opener

The KeySmart Pro includes a built-in bottle opener. Simply extend the bottle opener accessory and use it to open bottle caps.

Using Tile™ Tracking

- **Find Your Keys:** Open the Tile™ app on your smartphone. Select your KeySmart Pro from the list of Tiles and tap "Find" to make it ring.
- **Find Your Phone:** Double-press the Tile™ button on your KeySmart Pro. Your phone will ring, even if it's on silent mode.
- **Last Known Location:** If your KeySmart Pro is out of Bluetooth range, the Tile™ app will show its last known location on a map.

MAINTENANCE

Charging the Battery

The KeySmart Pro is rechargeable. When the battery indicator light turns red or the device stops responding, it's time to charge. Connect the included micro-USB cable to the charging port on the KeySmart Pro and plug the other end into a USB power source (e.g., computer, wall adapter). A full charge can last up to 45 days.

Cleaning

Wipe the KeySmart Pro with a soft, damp cloth to remove dirt or debris. Avoid using harsh chemicals or abrasive cleaners.

TROUBLESHOOTING

- **Keys don't fit or are too loose:** Ensure you are using the correct number of keys and spacers. If keys are too thick, they may not fit. If too few keys, use additional spacers to prevent rattling.
- **Tile™ not connecting or finding keys:**
 - Ensure Bluetooth is enabled on your phone.
 - Make sure the KeySmart Pro battery is charged.
 - Restart the Tile™ app or your phone.
 - If issues persist, try unpairing and re-pairing the KeySmart Pro in the Tile™ app settings.
- **Flashlight not working:** Check the battery level and recharge if necessary. Ensure the button is pressed firmly.
- **Battery life is shorter than expected:** Frequent use of the flashlight or Tile™ ringing feature can reduce battery life. Ensure the device is fully charged.

SPECIFICATIONS

Feature	Detail
Model Number	KS411-TRK-USS
Brand	KEY SMART
Dimensions (L x W x H)	3.92 x 0.78 x 0.64 inches
Weight	0.96 ounces
