Operation Pet Scan Board Game Instruction Manual

Brand: Hasbro Gaming | Model: E9694UM0

INTRODUCTION

Welcome to the Operation Pet Scan game! Cavity Sam's dog, Rex-Ray, has unfortunately ingested several household items. Your mission is to act as the veterinarian and help Rex-Ray feel better by carefully removing these objects from his digestive system. This game offers a fun and engaging twist on the classic Operation gameplay, complete with silly sounds and a unique challenge.

PRODUCT OVERVIEW

Key Features

- **PRETEND YOU'RE A VET:** The Operation Pet Scan game has a twist on classic Operation gameplay. Cavity Sam's dog, Rex-Ray, ate things he shouldn't have, and players need to get them out of his belly.
- **MAKE REX-RAY FEEL BETTER:** Using the Dog-o-scope, players drag the plastic ailment along the path from Rex-Ray the dog's belly and out his tail end without letting it fall out.
- **WATCH OUT FOR THE BUZZ:** If a player strays from the path and the buzzer goes off, the ailment drops. If it falls out, their turn ends. Remove it successfully and he'll fart or bark in relief.
- **SILLY SOUNDS:** The Operation Pet Scan game features silly sound effects. Press the dog's nose to hear fun sounds including barks, belly gurgling, and farts.
- **FUN KIDS' GAME:** The Operation Pet Scan board game is a great choice for your child's play date or to keep your kids entertained on a rainy day. It makes a fun gift for kids ages 6 and up.

What's in the Box

- Game Unit (Rex-Ray)
- Magnetic Dog-o-scope
- 8 Plastic Ailments (e.g., dog bone, bunny slipper, sock, homework, cell phone, teddy bear, underwear, paper)
- Instructions

Figure 1: The Operation Pet Scan game box, illustrating the game's theme and main components.

SETUP

1. **Battery Installation:** The game requires 2 AA batteries (included). Locate the battery compartment on the underside of the game unit. Use a Phillips head screwdriver to open the compartment, insert the batteries according to the polarity indicators (+/-), and securely close the compartment.
2. **Prepare Ailments:** Place the 8 plastic ailments into Rex-Ray's mouth opening. These pieces will fall into the internal pathway.
3. **Position the Game:** The game can be played flat on a surface or propped up using the stand located on the back of the unit for a different play experience.

Figure 2: The Operation Pet Scan game unit with the Dog-o-scope and the various ailments to be removed.

OPERATING INSTRUCTIONS

How to Play

1. **Start Your Turn:** The youngest player goes first.
2. **Guide the Ailment:** Use the magnetic Dog-o-scope to guide one of the plastic ailments from Rex-Ray's mouth, along the winding path inside his belly, and out through his tail end. The Dog-o-scope is attached to the game unit by a cord.
3. **Avoid the Buzzer:** If the Dog-o-scope touches the sides of the internal path, the buzzer will sound, and Rex-Ray's nose will light up. If the ailment falls out of the path and out of Rex-Ray's belly, your turn ends.
4. **Successful Removal:** If you successfully guide an ailment all the way out of Rex-Ray's tail end without it falling out, you score a point. Rex-Ray will also make a silly sound (bark or fart) in relief.
5. **Press Rex-Ray's Nose:** You can press Rex-Ray's nose at any time to hear additional silly sound effects, including barks and belly gurgling.
6. **End of Game:** Continue taking turns until all 8 ailments have been successfully removed from Rex-Ray. The player with the most points (successfully removed ailments) wins the game!

Video 1: An official product video demonstrating the gameplay of Operation Pet Scan, showing how to guide the ailments through Rex-Ray's body and the resulting sound effects.

MAINTENANCE

Care and Storage

- **Cleaning:** Wipe the game unit and plastic ailments with a soft, dry cloth. Do not immerse the unit in water.

- **Storage:** Store all plastic ailments in the designated compartment on the back of the game unit to prevent loss. Ensure the Dog-o-scope is securely attached to its storage slot. Store the game in a cool, dry place away from direct sunlight.
- **Battery Care:** Remove batteries if the game will not be used for an extended period to prevent leakage.

TROUBLESHOOTING

- **Buzzer Not Sounding/Lights Not Working:**
 - Check if batteries are correctly installed with proper polarity.
 - Replace old batteries with new AA alkaline batteries.
- **Ailments Not Moving with Dog-o-scope:**
 - Ensure the Dog-o-scope is properly connected to the game unit.
 - Verify that the magnetic tip of the Dog-o-scope is directly over the ailment piece.
- **Game Unit Not Standing Upright:**
 - Ensure the kickstand on the back of the unit is fully extended and locked into place.
