## DELTA 52487-RB

# Delta Faucet 4-Spray Touch-Clean Shower Head

MODEL: 52487-RB

## INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your Delta Faucet 4-Spray Touch-Clean Shower Head. This shower head features advanced H2OKinetic PowerDrench Spray and UltraSoak Spray technologies, designed to enhance your showering experience while conserving water. The Venetian Bronze finish (Model 52487-RB) offers a classic aesthetic without Lumicoat.

## PRODUCT FEATURES

- **H2OKinetic PowerDrench Spray:** Provides 3X more coverage than a standard showerhead by creating a unique wave pattern and larger water droplets for increased intensity and warmth.
- **UltraSoak Spray:** Mimics dense natural rainfall to deliver an intensely saturating and soothing shower experience using advanced fluidics technology.
- **4 Powerful Spray Options:** Easily switch between H2OKinetic PowerDrench spray, UltraSoak spray, massaging spray, and a pause setting.
- **Touch-Clean Spray Holes:** Allows for quick and easy removal of calcium and lime build-up with a simple wipe of a finger, eliminating the need for soaking or chemical cleaners.
- **Pause Feature:** Reduces water flow to a trickle, providing ample space for tasks like shaving or lathering without altering temperature settings or wasting water.
- **WaterSense Labeled:** This product uses at least 20% less water than the industry standard, contributing to water conservation without compromising performance.
- **Lifetime Limited Warranty:** Backed by Delta Faucet's Lifetime Limited Warranty for peace of mind.

## SETUP AND INSTALLATION

Installation of your new Delta shower head is designed to be straightforward and typically takes less than 20 minutes, requiring no special tools beyond standard plumbing equipment. Ensure you have plumber's tape available for a secure, leak-free connection.

For detailed step-by-step instructions, please refer to the comprehensive installation guide included in your product packaging. It is recommended to turn off the main water supply before beginning installation.

## OPERATING INSTRUCTIONS

---

To operate your Delta 4-Spray Touch-Clean Shower Head, use the lever located on the shower head to cycle through the available spray settings. Each click of the lever will change the spray pattern:

- **H2OKinetic PowerDrench Spray:** For a powerful, wide-coverage shower.
- **UltraSoak Spray:** For a dense, saturating rainfall experience.
- **Massaging Spray:** For a focused, invigorating stream.
- **Pause:** Reduces water flow to a trickle, ideal for conserving water during lathering or shaving.

Adjust the main shower handle to control water temperature and overall flow rate as desired.

## MAINTENANCE

---

Maintaining your Delta shower head is simple thanks to the Touch-Clean spray holes. To remove mineral build-up, such as calcium and lime, simply wipe the rubber spray holes with your finger or a soft cloth. This eliminates the need for harsh chemical cleaners or prolonged soaking.

Regular cleaning will ensure optimal spray performance and extend the life of your shower head's finish.

## TROUBLESHOOTING

---

If you experience issues such as reduced water flow or inconsistent spray patterns, first check the Touch-Clean spray holes for any mineral build-up and clean them as described in the Maintenance section.

Ensure your main water supply is fully open and that there are no kinks in any connected hoses (if applicable).

For persistent issues, please consult the full troubleshooting guide provided with your product or contact Delta Faucet customer support.

## WARRANTY AND SUPPORT

---

Your Delta Faucet 4-Spray Touch-Clean Shower Head is covered by a Lifetime Faucet and Finish Limited Warranty. This warranty ensures that your product will be free from defects in material and workmanship for as long as the original consumer purchaser owns the home in which the faucet was first installed.
