Hasbro Jenga: Super Mario Edition Game Instruction Manual

1. Introduction and Overview

The Hasbro Jenga: Super Mario Edition game offers an exciting twist on the classic Jenga game, incorporating artwork, themes, and characters from the popular Super Mario video games. Players select a Super Mario character (Mario, Luigi, Peach, or Toad) and race up the tower, collecting coins, stacking blocks, and aiming to defeat Bowser. The game involves strategic block removal and placement, with a spinner dictating moves such as climbing layers, stacking blocks, collecting coins, or reversing play direction. The objective is to reach the top of the tower and defeat Bowser without causing the tower to fall. Points are earned by collecting coins, and the player with the highest score wins.
This game is designed for Super Mario fans and Jenga enthusiasts aged 8 and up, providing a fun and challenging experience.

2. Components (What's in the Box)

- Game (includes stacking sleeve, 4 character pegs, spinner, 27 Jenga blocks, 34 coins, Bowser figure, and game rules)

This image displays the complete set of game components, including the red brick-like Jenga blocks, the character pegs for Mario, Luigi, Peach, and Toad, the game spinner, and the gold coins used for scoring. The stacking sleeve and Bowser figure are also visible, ready for assembly.

3. Setup

1. Carefully remove all components from the box.
2. Use the stacking sleeve to build the tower. Place three blocks per layer, alternating their direction for each new layer. Continue until all blocks are stacked.
3. Place the Bowser figure on top of the completed tower.
4. Each player selects a character peg and places it at the starting position at the base of the tower.
5. Place the spinner and coins within easy reach of all players.

Image 2: Illustrates the process of stacking Jenga blocks to form the tower.

This image shows a hand carefully placing one of the red Jenga blocks onto the tower, demonstrating the stacking process. The tower is partially built, with character pegs already positioned on some levels, indicating the game is nearing readiness for play.

4. Operating Instructions (How to Play)

The game is played by taking turns spinning the spinner and performing the indicated action. The goal is to move your

character peg up the tower, defeat Bowser, and collect the most coins without toppling the tower.

Game Flow:

1. The youngest player starts the game.
2. On your turn, spin the spinner to determine your action:
    - **Climb X Layers:** Move your character peg up the indicated number of layers.
    - **Stack X Blocks:** Remove the indicated number of blocks from any lower level of the tower and stack them on top.
    - **Collect X Coins:** Take the indicated number of gold coins.
    - **Reverse Play:** The direction of play reverses.
3. When removing blocks, use only one hand. You may tap blocks to find a loose one.
4. If the tower falls during your turn, you lose any coins collected during that turn, and the game ends.
5. The first player to reach the top of the tower and defeat Bowser (by moving their peg to the top level) wins the game. All players then count their collected coins, and the player with the most coins wins.

5. Maintenance

- Store all game components in their original box to prevent loss or damage.
- Keep blocks and figures clean and dry. Wipe with a soft, dry cloth if necessary.
- Avoid exposing the game to extreme temperatures or direct sunlight, which may cause warping or fading.

6. Troubleshooting

- **Missing Pieces:** If any game components are missing upon opening, please contact Hasbro customer support.
- **Difficulty Stacking:** Ensure blocks are placed evenly and firmly. The stacking sleeve can be used to reset the tower if it becomes unstable.
- **Rules Clarification:** Refer to the included game rules for detailed explanations or visit the official Hasbro Gaming website for FAQs.
