

## White Shark GM-3001

# White Shark Cyrus GM-3001 Gaming Mouse User Manual

## INTRODUCTION

This manual provides essential instructions for the White Shark Cyrus GM-3001 Gaming Mouse. It covers setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device. Please read this manual thoroughly before using the product.

## PACKAGE CONTENTS

Verify that all items are present in the package:

- White Shark Cyrus GM-3001 Gaming Mouse (USB ICSB-GM3001)

Image: The White Shark Cyrus GM-3001 Gaming Mouse, featuring its ergonomic design and illuminated scroll wheel and logo.

## SETUP

---

1. **Connect the Mouse:** Locate an available USB port on your computer. Insert the USB connector of the White Shark Cyrus GM-3001 Gaming Mouse into the USB port.
2. **Driver Installation:** The mouse is plug-and-play. Your operating system (Windows 7/8/10 or Mac OS) should automatically detect and install the necessary drivers. No additional software installation is typically required for basic functionality.
3. **Verification:** Once connected, the mouse's LED lighting should activate, indicating it is powered on. Move the mouse to confirm cursor movement on your screen.

## OPERATING INSTRUCTIONS

---

The White Shark Cyrus GM-3001 Gaming Mouse is designed with 6 buttons for enhanced control and an optical sensor for precise tracking.

Image: Top-down view of the mouse, highlighting the scroll wheel, left/right click buttons, and the DPI adjustment button.

### Button Functions

- **Left Click Button:** Standard primary click function.
- **Right Click Button:** Standard secondary click function.
- **Scroll Wheel (Middle Button):** Scrolls content up or down. Pressing it acts as a middle click button.
- **DPI Adjustment Button:** Located behind the scroll wheel, this button cycles through DPI settings.

- **Side Buttons (Forward/Backward):** Typically used for navigation (e.g., web browser forward/backward). These can often be customized in game or system settings.

## DPI Adjustment

The mouse features an adjustable DPI (Dots Per Inch) button, allowing you to change cursor sensitivity on the fly. Press the DPI button to cycle through the following resolution settings:

- 1200 DPI
- 1600 DPI
- 2400 DPI
- 3200 DPI

Each DPI setting may be indicated by a change in the LED lighting color, providing visual feedback for the current sensitivity level.

## LED Lighting

The mouse incorporates 4-color LED lighting. This lighting provides aesthetic enhancement and may also serve as an indicator for the selected DPI setting. The colors cycle automatically or change with DPI adjustments.

## MAINTENANCE

---

To maintain the performance and appearance of your White Shark Cyrus GM-3001 Gaming Mouse, follow these guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals, solvents, or abrasive cleaners.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris. Use a cotton swab or compressed air if necessary.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.
- **Cable Management:** Avoid sharply bending or twisting the USB cable to prevent internal damage.

## TROUBLESHOOTING

---

If you encounter issues with your gaming mouse, refer to the following common solutions:

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure USB cable is securely plugged in. Try a different USB port. Restart your computer.
Cursor movement is erratic or jumpy	Dirty optical sensor, unsuitable mouse pad surface.	Clean the optical sensor. Use a clean, uniform mouse pad or surface.
DPI button not changing sensitivity	Button malfunction, system conflict.	Ensure no other software is overriding mouse settings. Try restarting the computer.
LED lighting not working	Power issue, internal fault.	Check USB connection. If the mouse functions otherwise, the lighting issue may not affect core functionality.

## SPECIFICATIONS

Brand	White Shark
Model	Cyrus GM-3001
Color	Black
Connectivity Technology	USB 2.0
Motion Detection Technology	Optical (Instant A704 Chipset)
Number of Buttons	6 (6D design)
