3. **Assemble Headboard and Footboard:** Connect the vertical and horizontal bars of the headboard and footboard sections using the provided bolts and nuts. Do not fully tighten yet.
4. **Attach Side Rails:** Connect the assembled headboard and footboard to the side rails. Ensure the connections are secure but allow for slight adjustment.
5. **Install Center Support:** Attach any central support bars and legs as indicated in your specific manual. These are crucial for mattress support and stability.
