Operating (Gameplay)

The objective of Monopoly Breaking Bad is to become the wealthiest player by buying, renting, and trading properties, ultimately driving opponents into bankruptcy.

Game Flow:

1. To start the game, each player rolls both dice. The player with the highest total goes first. Play proceeds to the left.
2. On your turn, roll both dice and move your token clockwise around the board the number of spaces indicated by the dice.
3. The action you take depends on the space your token lands on:
    - **Unowned Property:** You may buy the property from the Bank for the price printed on that space. If you choose not to buy it, the Banker immediately offers it for auction to the highest bidder.
    - **Owned Property:** If another player owns the property, you must pay them rent as shown on the Title Deed card.
    - **Heisenberg Card or Walter White Card:** Draw the top card from the respective deck and follow its instructions.
    - **Go to Jail:** Move your token directly to the "In Jail" space. You do not collect $200 for passing GO.
    - **Free Parking:** No action is required.
    - **GO:** When you pass or land on GO, collect $200 from the Bank.
    - **Taxes:** Pay the indicated tax to the Bank.
4. You can buy Tented Houses and SuperLabs to place on your properties to increase rent. You must own all properties in a color group before you can build.
5. Players can trade properties, money, Tented Houses, and SuperLabs with each other at any time.
6. If you owe more money than you can pay, you are bankrupt and out of the game. The last player remaining wins.
