JOYMOR Indoor Soft Foam Climber Play Set

JOYMOR Indoor Soft Foam Climber Play Set Instruction Manual

PRODUCT OVERVIEW

The JOYMOR Indoor Soft Foam Climber Play Set is designed to provide a safe and engaging environment for toddlers aged 6 months to 3 years. This multi-piece set includes soft foam blocks that can be configured into a slide, stairs, and a ramp, encouraging physical activity and the development of gross motor skills.

Each component is crafted from firm yet safe foam, ensuring durability and resistance to deformation. The thickened PU leather cover is non-toxic, waterproof, and crack-resistant, making it healthy for children and easy to clean.

The set's design supports various developmental activities such as climbing, crawling, and sliding, which are crucial for improving muscle movement, physical coordination, color recognition, and hand-eye coordination. The individual pieces feature hook & loop tapes, allowing for flexible combinations and easy storage.

The complete JOYMOR Indoor Soft Foam Climber Play Set, featuring stairs, a tunnel, and a ramp.

SAFETY GUIDELINES

This play set is designed with your child's safety as a top priority. The foam climbers feature a non-slip bottom to keep the structure securely in place during use, preventing accidental shifts. There are no hard surfaces or sharp corners, which protects children from harm during active play.

The materials used are non-toxic, CPSIA compliant, and meet toy safety standards, ensuring a healthy play environment. Adult supervision is recommended during play to ensure safe usage and prevent potential hazards.

SETUP AND ASSEMBLY

The JOYMOR Indoor Soft Foam Climber Play Set consists of multiple individual foam blocks that connect securely using integrated hook & loop tapes. This design allows for easy assembly and reconfiguration into various play structures.

1. Unpack all foam blocks from the packaging.
2. Identify the desired configuration (e.g., stairs leading to a tunnel, with a ramp on the other side).
3. Align the hook & loop tape sections on the sides of the blocks you wish to connect.
4. Press the blocks firmly together to ensure a secure attachment. The strong Velcro will hold the pieces in place during play.
5. Ensure all connections are tight before allowing children to play.

This official JOYMOR video demonstrates the assembly process and highlights different ways children can interact with the foam climber set, utilizing the ramp, slide, stairs, and tunnel for active play.

OPERATING AND USAGE

The JOYMOR Foam Climber offers versatile play options to stimulate your child's development. The modular design allows for various configurations to keep playtime fresh and engaging.

- **Climbing Stairs:** Children can practice climbing skills using the two-step block, enhancing leg strength and coordination.
- **Sliding Ramp:** The gentle slope of the ramp provides a fun and safe surface for sliding, promoting balance and spatial awareness.
- **Crawl Tunnel:** The central block features an arched tunnel, perfect for crawling through, encouraging exploration and imaginative play.
- **Combined Play:** Connect the pieces in different orders to create unique obstacle courses, fostering problem-solving skills and creativity.

MAINTENANCE

Maintaining the cleanliness and longevity of your JOYMOR Foam Climber is simple due to its high-quality materials.

- **Cleaning:** The thickened PU leather cover is waterproof and easy to wipe down. Use a damp cloth with mild soap and water to clean any spills or dirt. Avoid harsh chemicals or abrasive cleaners that could damage the material.
- **Drying:** After cleaning, ensure the surfaces are thoroughly dry before allowing children to play or storing the set to prevent moisture buildup.

Dimension

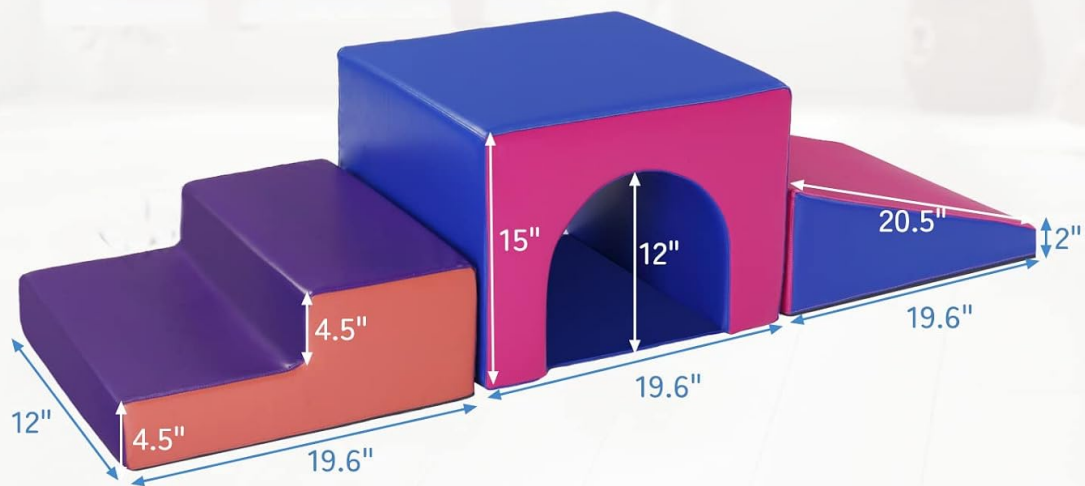

The lightweight and easy-to-clean nature of the foam blocks.

STORAGE

The modular design of the JOYMOR Foam Climber allows for convenient and space-saving storage when not in use.

- **Disassembly:** Gently pull apart the connected blocks to separate them. The hook & loop fasteners are designed for repeated attachment and detachment.
- **Stacking:** The blocks can be stacked vertically or nested together to minimize their footprint. For example, the ramp and stairs can often be placed on top of or inside the tunnel block.
- **Location:** Store the set in a dry, clean area away from direct sunlight or extreme temperatures to preserve the material's quality.

Dimension

The blocks can be easily moved and stored due to their lightweight design.

PRODUCT SPECIFICATIONS

- **Product Dimensions:** 60 x 12 x 15 inches
- **Manufacturer Recommended Age:** 6 months - 3 years
- **Material:** Soft foam with thickened PU leather cover
- **Features:** Non-slip bottom, waterproof, crack-resistant, non-toxic, CPSIA compliant
