Kichler 55012BK

Kichler Vionnet 3-Light Vanity Light Instruction Manual

Model: 55012BK | Brand: Kichler

1. Introduction

The Kichler Vionnet 3-Light Vanity Light, Model 55012BK, is designed to provide ambient lighting in various aesthetic environments, including contemporary and transitional spaces. This manual provides detailed instructions for the safe and proper installation, operation, and maintenance of your new vanity light fixture.

Key Features:

- Designed for placement above a vanity mirror in bathrooms or powder rooms.
- Features clear glass shades for optimal ambient light distribution.
- Requires three medium E26 base bulbs, up to 75W equivalent each.

2. Safety Information

WARNING: Risk of Electric Shock. Disconnect power at the main circuit breaker or fuse box before installation or servicing. Failure to do so may result in serious injury or property damage.

- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC). Contact a qualified electrician if you are unfamiliar with proper electrical wiring connections.
- Use only the recommended bulb type and wattage to avoid overheating and potential fire hazards.
- Ensure all components are securely fastened before restoring power.
- Do not install this fixture in wet locations. It is rated for indoor use only.

3. What's in the Box

Your Kichler Vionnet 3-Light Vanity Light package includes the following components:

- Vanity Light Fixture (Model 55012BK)

- Clear Glass Shades (3)
- Mounting Hardware Kit (includes mounting bracket, screws, wire nuts)
- Installation Instructions and Warranty Information

Note: Light bulbs are not included and must be purchased separately.

4. Tools Required

Before beginning installation, ensure you have the following tools:

- Phillips Head Screwdriver
- Flat Head Screwdriver
- Wire Strippers
- Pliers
- Electrical Tape
- Voltage Tester (non-contact recommended)
- Step Ladder

5. Setup and Installation

Follow these steps carefully to install your Kichler Vionnet 3-Light Vanity Light:

1. **Disconnect Power:** Locate your main electrical panel and turn off the circuit breaker that supplies power to the light fixture's location. Verify power is off using a voltage tester.
2. **Remove Old Fixture:** Carefully remove your existing light fixture from the wall. Disconnect any wiring and remove the old mounting bracket.
3. **Install Mounting Bracket:** Attach the new mounting bracket (provided) to the junction box on your wall using the supplied screws. Ensure it is securely fastened.
4. **Wire Connections:**
    - Connect the ground wire from the fixture to the ground wire from the junction box (usually bare copper or green). Secure with a wire nut.
    - Connect the white (neutral) wire from the fixture to the white (neutral) wire from the junction box. Secure with a wire nut.
    - Connect the black (hot) wire from the fixture to the black (hot) wire from the junction box. Secure with a wire nut.
    - Carefully tuck all connected wires into the junction box, ensuring no wires are pinched.
5. **Mount the Fixture:** Align the fixture with the mounting bracket and secure it in place using the provided screws or decorative nuts.
6. **Install Shades and Bulbs:** Carefully attach the clear glass shades to the fixture. Insert three E26 base bulbs (max 75W equivalent, not included) into the sockets.
7. **Restore Power:** Return to your main electrical panel and turn the circuit breaker back on. Test your new Kichler Vionnet Vanity Light.

This video demonstrates general installation steps for Kichler vanity fixtures, including safety precautions, mounting bracket attachment, wiring, and final assembly. Please refer to the printed instructions for model-specific details.

6. Operating Instructions

The Kichler Vionnet 3-Light Vanity Light operates via a standard wall switch (not included). Once installed and power is restored, simply use your wall switch to turn the light fixture on or off.

7. Maintenance

Proper maintenance ensures the longevity and appearance of your vanity light:

- **Cleaning Instructions:** Always turn off the electric current at the circuit breaker before cleaning the fixture.
- Clean metal components with a soft cloth moistened with a mild liquid soap solution.
- Wipe clean and buff with a very soft, dry cloth to prevent water spots or streaks.
- Clean glass shades with a soft, damp cloth. Avoid abrasive cleaners that may scratch the glass.
- Do not use cleaners containing ammonia or alcohol, as these can damage the finish.

8. Troubleshooting

If your vanity light is not functioning correctly, try the following:

- **No Power:** Check the circuit breaker to ensure it is in the 'ON' position. Verify that the wall switch is also 'ON'.
- **Bulbs Not Lighting:** Ensure bulbs are securely screwed into their sockets. Replace bulbs with new ones to rule out faulty bulbs.
- **Flickering Light:** Check all wire connections for tightness. Ensure bulbs are compatible with the fixture and any dimmer switches (if installed).
- **Fixture is Loose:** Tighten all mounting screws and nuts securing the fixture to the wall.

If issues persist after performing these checks, consult a certified electrician.

9. Specifications

Attribute	Detail
Brand	Kichler
Model Name	Vionnet
Model Number	55012BK
Product Dimensions	24"L x 6.75"W x 7.5"H
