Anker 45W Ultra-Slim Fast Charger (PowerPort Atom III) Instruction Manual

Model: A2617

INTRODUCTION

The Anker PowerPort Atom III 45W Slim is a compact and powerful USB-C wall charger designed for efficient charging of various devices. Utilizing advanced Gallium Nitride (GaN) technology, this charger offers high-speed charging in an ultra-slim form factor, making it ideal for both home use and travel. Its proprietary PowerIQ 3.0 technology ensures optimized charging for a wide range of compatible devices.

SETUP

- 1. Unfold the Prongs:** Gently pull out the foldable prongs from the charger body until they lock into place.
- 2. Connect to Power Outlet:** Insert the charger's prongs into a standard wall power outlet.
- 3. Connect Charging Cable:** Plug one end of a compatible USB-C charging cable (not included) into the USB-C port on the charger.
- 4. Connect to Device:** Plug the other end of the charging cable into your device's charging port. The device should begin charging automatically.

OPERATING INSTRUCTIONS

The PowerPort Atom III 45W Slim features a single USB-C port equipped with Anker's PowerIQ 3.0 technology. This technology automatically detects and delivers the optimal charging speed for your connected device, ensuring efficient and safe power delivery.

- **High-Speed Charging:** The 45W USB-C port can rapidly charge USB-C laptops, tablets, and smartphones. For example, it can fully charge a 2018 MacBook Air in just over 2 hours or an iPhone 11 in approximately 1 hour and 45 minutes.
- **Universal Compatibility:** PowerIQ 3.0 provides flawless compatibility with virtually any device, including

phones, tablets, and USB-C laptops.

- **Slim Design for Accessibility:** The ultra-slim profile (less than 0.8 inches thick) allows the charger to fit into tight spaces, such as behind furniture, without obstructing other outlets.

Easy Access To Hard-to-Reach Outlets

Maintenance

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a dry, soft cloth to wipe the surface. Avoid using liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place when not in use. The foldable prongs allow for compact storage, protecting them from damage.
- **Environmental Conditions:** Avoid exposing the charger to extreme temperatures, direct sunlight, or humid environments.
- **Cable Care:** Ensure charging cables are not bent sharply or placed under heavy objects to prevent damage.

Troubleshooting

- **Device Not Charging:**
 - Ensure the charger is securely plugged into a working power outlet.
 - Verify that the charging cable is properly connected to both the charger and your device.
 - Try using a different charging cable to rule out a faulty cable.
 - Test the charger with a different device to confirm the charger's functionality.
- **Slow Charging Speed:**
 - Ensure your device supports fast charging and that you are using a compatible USB-C to USB-C cable.
 - Note that for some devices, such as Note 10 / Note 10+ / S20 / S20+ / S20 Ultra, the charging speed may be slower than with the original 25W charger.
 - If charging an iPhone (8/8 Plus/X/XS Max/XS/XR), fast charging (9V) will begin automatically, regardless of whether you hear one or two charging indicator sounds.
- **Charger Overheating:**

- While the charger is designed for efficient heat dissipation, excessive heat can occur under certain conditions. Disconnect the charger and allow it to cool down.
- Ensure the charger is used in a well-ventilated area and not covered by materials that could trap heat.

WARRANTY AND SUPPORT

The Anker PowerPort Atom III 45W Slim comes with a worry-free 18-month warranty. For customer service, technical support, or to access additional resources such as FAQs and manuals, please visit the official Anker support website.
