Model: KBOC1200J-R

1. INTRODUCTION

Thank you for choosing the De'Longhi KBOC1200J-R Electric Kettle. This manual provides essential information for the safe and effective use of your appliance. Please read these instructions carefully before use and keep them for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before using the kettle.
- Do not immerse the kettle, power base, or cord in water or other liquids.
- Ensure the voltage indicated on the appliance corresponds to your local mains voltage before connecting.
- Do not operate the kettle with a damaged cord or plug. If damaged, contact authorized service personnel.
- Always place the kettle on a firm, flat, heat-resistant surface.
- Do not fill above the maximum fill line to prevent boiling water from overflowing.
- Do not open the lid while water is boiling.
- Keep the appliance and its cord out of reach of children.
- Unplug from the outlet when not in use and before cleaning.

4. SETUP

4.1 Unpacking

Carefully remove the kettle and all accessories from the packaging. Retain the packaging for future storage or disposal.

4.2 First Use Cleaning

1. Fill the kettle with fresh water up to the MAX mark.
2. Boil the water.
3. Discard the boiled water.
4. Repeat this process two to three times to remove any manufacturing residues.

4.3 Positioning the Kettle

Place the power base on a stable, flat, heat-resistant surface. Ensure the power cord is not dangling or in a position where it can be tripped over.

5. OPERATING INSTRUCTIONS

5.1 Filling the Kettle

1. Remove the kettle from its power base.
2. Open the lid.
3. Fill the kettle with the desired amount of fresh water, ensuring it is between the MIN and MAX marks on the water level gauge.
4. Close the lid securely.

5.2 Boiling Water

1. Place the filled kettle firmly onto its power base.
2. Plug the power cord into a suitable electrical outlet.
3. Press the ON/OFF switch (usually located at the bottom of the handle or base) to the 'ON' position. An indicator light will illuminate.
4. The kettle will begin to heat the water. Once the water has boiled, the kettle will automatically switch off, and the indicator light will extinguish.

5.3 Automatic Shut-Off and Boil Dry Protection

Your De'Longhi kettle is equipped with safety features:

- **Automatic Shut-Off:** For safety and energy efficiency, the kettle will automatically turn off once the water reaches its boiling point.
- **Boil Dry Protection:** If the kettle is accidentally switched on without sufficient water, the boil dry protection system will automatically turn off the heating element to prevent damage. If this occurs, allow the kettle to cool down for a few minutes before refilling with water.

6. MAINTENANCE AND CLEANING

6.1 General Cleaning

- Always unplug the kettle and allow it to cool completely before cleaning.
- **Exterior:** Wipe the exterior of the kettle with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.
- **Interior:** The interior can be hand washed. Rinse thoroughly with clean water.

6.2 Cleaning the Removable Filter

The removable filter can be taken out for cleaning. Rinse it under running water to remove any scale or debris. Ensure it is properly reinserted before using the kettle.

6.3 Descaling

Over time, mineral deposits (limescale) may build up inside the kettle, especially in hard water areas. Regular descaling is recommended to maintain performance and prolong the life of your kettle.

- Use a commercially available descaling solution suitable for kettles, following the manufacturer's instructions.
- Alternatively, you can use a solution of white vinegar and water (e.g., 1 part vinegar to 2 parts water). Fill the kettle with the solution, boil, and let it stand for an hour before rinsing thoroughly several times.

7. TROUBLESHOOTING

- **Kettle not turning on:**
 - Ensure the kettle is correctly placed on the power base.
 - Check that the power cord is securely plugged into the wall outlet.
 - Verify the ON/OFF switch is in the 'ON' position.
- **Water not boiling:**

- Confirm the kettle is filled with water above the MIN mark.
- Check if the boil dry protection has activated (allow to cool before restarting).
- **Kettle leaking:**
 - Ensure the lid is closed properly.
 - Do not overfill the kettle beyond the MAX mark.
- **Unusual taste in water:**
 - Perform the first use cleaning procedure again.
 - Descale the kettle if limescale buildup is present.
