

Glovii GW2

Glovii GW2 Battery Heated Insoles User Manual

Model: GW2

INTRODUCTION

The Glovii GW2 Battery Heated Insoles provide a unique solution for maintaining thermal comfort in cold environments. Designed with carbon fiber heating elements, these insoles offer warmth and promote blood circulation through infrared wave emission. They are ideal for winter sports enthusiasts, outdoor workers, and anyone seeking warmth in cold conditions.

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- Glovii GW2 Heated Shoe Soles (1 pair)
- Charger with dual micro USB output
- Remote control
- Comfortable protective case

KEY FEATURES

- **Carbon Fiber Heating Element:** Ensures durability and strength, emitting infrared waves for warmth and improved blood circulation. The heating element is positioned in the front part of the insole for even heat distribution.
- **Li-Poly Battery:** Safe and efficient built-in Li-Poly batteries provide extended operating time for the heating system.
- **Adjustable Sizing:** Insoles can be trimmed to fit foot sizes M (35-40) and L (41-46).

- **Thermoactive Fabric:** Facilitates quick moisture removal and possesses biostatic properties, enhancing the heating system's effectiveness.
- **Remote Control:** Provides convenient adjustment of heating levels.

TECHNICAL SPECIFICATIONS

Feature	Detail
Heating Element	2.22 W carbon fibre, front part of insert
Battery	2 x 1800 mAh (6.66 Wh) Li-Poly (built-in)
Charger	USB 5V 1A
Operating Modes	HI (44°C), MED (39°C), LO (34°C)
Working Time	LO: 9 hours, MED: 5 hours, HI: 3 hours
Fabric Material	100% polyester
Available Sizes	M (35-40), L (41-46)
Color	Black/Red
Weight (Insoles)	260 g
Product Dimensions	38.1 x 14.48 x 6.1 cm
Model Number	GW2

SETUP AND INSTALLATION

1. Charging the Insoles

1. Locate the charging ports on each insole.
2. Connect the dual micro USB charger to both insoles.
3. Plug the charger into a standard USB power source (e.g., wall adapter, computer USB port).
4. Allow the insoles to charge fully before first use. Charging indicators (if present) will typically change color or turn off when charging is complete.

2. Sizing and Trimming

The insoles are designed to be trimmed to fit your specific shoe size. Use your existing insoles as a guide for accurate trimming.

1. Remove the existing insoles from your ski boots or other footwear.
2. Place the Glovii GW2 insole on top of your existing insole, aligning the heels.
3. Using a marker, trace the outline of your existing insole onto the Glovii GW2 insole. Ensure not to cut

into the heating elements or wiring.

4. Carefully cut along the marked line with sharp scissors.
5. Insert the trimmed Glovii GW2 insoles into your footwear. Ensure they lie flat and comfortably.

Image: Illustration of the Glovii GW2 heated insole, demonstrating the area safe for trimming to match shoe size.

OPERATION

Using the Remote Control

The Glovii GW2 insoles are controlled wirelessly via the included remote control. Ensure the insoles are charged and properly inserted into your footwear before operation.

1. **Power On:** Press the power button on the remote control once to turn on the insoles. They will typically start at the highest heat setting (HI).
2. **Adjust Heat Level:** Press the heat level button (often indicated by a flame or temperature icon) repeatedly to cycle through the heating modes: HI (High), MED (Medium), LO (Low).
 - **HI (High):** Approximately 44°C, for rapid warming or extremely cold conditions.
 - **MED (Medium):** Approximately 39°C, for sustained warmth in cold conditions.
 - **LO (Low):** Approximately 34°C, for gentle warmth and extended battery life.
3. **Power Off:** Press and hold the power button on the remote control for a few seconds until the insoles turn off.

Note: Battery life varies depending on the selected heat level. Refer to the "Technical Specifications" section for estimated working times.

CARE AND MAINTENANCE

- **Cleaning:** Do not submerge the insoles in water. Clean them with a damp cloth and mild soap if necessary. Ensure they are completely dry before recharging or storing.
- **Storage:** When not in use for extended periods, store the insoles in their protective case in a cool, dry place. It is recommended to charge the batteries every 3-6 months to maintain battery health.
- **Battery Care:** Avoid fully discharging the batteries frequently. Recharge them when the heat output noticeably diminishes.
- **Avoid Punctures:** Do not bend, fold sharply, or puncture the insoles, as this may damage the internal heating elements or wiring.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Insoles not heating	Low battery; Not powered on; Remote control issue; Damaged heating element.	Charge insoles fully. Ensure insoles are powered on via remote. Check remote battery. Contact support if damaged.
Remote control not working	Remote battery depleted; Out of range; Interference.	Replace remote battery. Ensure remote is close to insoles. Move away from strong electronic interference.
Uneven heating	Improper placement; Damaged heating element.	Ensure insoles are flat in footwear. Contact support if suspected damage.
Short battery life	High heat setting used; Old battery; Incomplete charging.	Use lower heat settings for longer duration. Ensure full charge. Battery degradation is normal over time.

IMPORTANT SAFETY INFORMATION

- Do not use if you have poor circulation, diabetes, or are sensitive to heat without consulting a medical professional.
- Avoid prolonged direct contact with the highest heat setting if it causes discomfort or skin irritation.
- Do not use while sleeping or if you are unable to monitor the heat level.
- Keep out of reach of children.
- Use only the provided charger. Using unauthorized chargers may damage the product or pose a fire risk.
- Do not puncture, cut, or disassemble the insoles. This can damage the heating elements and batteries, leading to injury or fire.
- If the insoles become excessively hot, emit smoke, or show signs of damage, discontinue use immediately and contact customer support.
- Do not wash in a washing machine or tumble dry.

WARRANTY AND CUSTOMER SUPPORT

Glovii products are manufactured to high-quality standards. For specific warranty details, please refer to the warranty card included with your purchase or visit the official Glovii website. If you encounter any issues or require assistance with your GW2 Heated Insoles, please contact Glovii customer support through their official channels or the retailer from whom you purchased the product.
